

## Jump server ip to be licensed?

108 admin November 19, 2022 [Common Errors & Troubleshooting](#) 5990

To find out the IP of your jump server for which the license needs to be purchased. execute the following command on your ssh jump server on the designated server

Execute the above command on the SSH gateway server where you wish to install ezeelogin and get the license for the IP displayed in the output.
