How to view the Help Menu in the ezsh backend shell?

159 admin October 5, 2024 Technical 11460

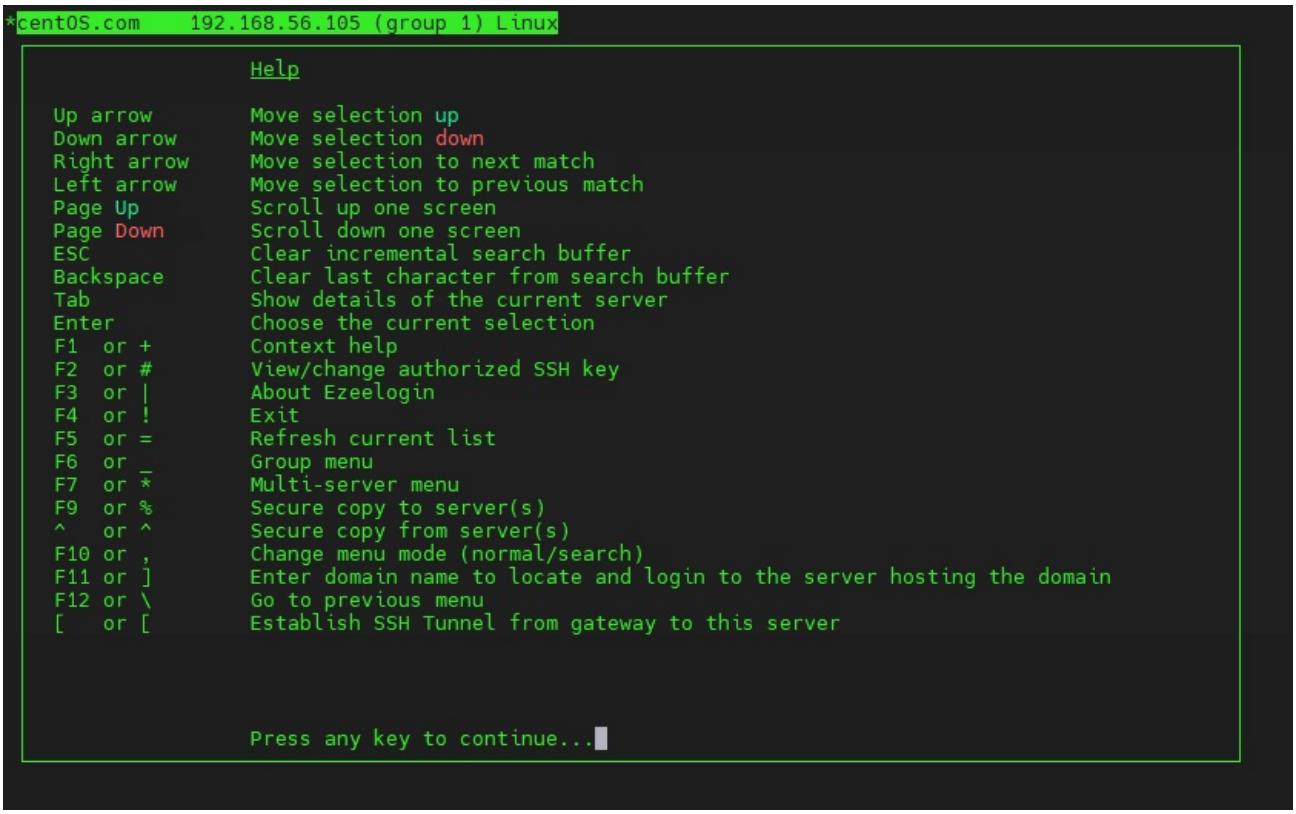

Accessing the help menu in the Ezeelogin backend

Overview: This article explains how to access the help menu in the Ezeelogin backend (ezsh).

Step 1: SSH into the Ezeelogin gateway as the gateway user.

```
root@desktop:$ ssh gateway_user@gateway_server_IP/hostname
```

Step 2: After logging into the Ezeelogin backend (ezsh), press **F1** or the '**+**' key on your keyboard to view the help menu.
