## LDAP verification failed. Connection to {hostname} closed.

213 admin October 9, 2024 Common Errors & Troubleshooting 4989

## LDAP verification failed. Connection to {hostname} closed. in ubuntu

If its Ubuntu 16.xnot supported to these on the server and try again. Simply link /etc/ldap dir with /etc/openIdap would fix the issue.

:~# ln -s	/etc/ldap /etc/o	penldan		
		rr
