Enable Google reCaptcha

251 admin November 13, 2024 Features & Functionalities, Security Features 18238

Enabling google reCaptcha for GUI authentication

Overview: This article describes the configuration of Google reCaptcha to add an extra layer of security to your login process with visible or invisible modes for the reCaptcha prompt on the login page.

We have following options under Login captcha.

- 1. Disable Disable login captcha.
- 2. **reCAPTCHA v2** In reCAPTCHA v2, the "I'm not a robot" checkbox asks the user to confirm they are not a bot.
- 3. **Invisible reCAPTCHA** The invisible reCAPTCHA badge does not require the user to click on a checkbox, instead it is invoked directly when the user clicks on an existing button on your site.
- 4. **reCAPTCHA v3** The reCAPTCHA v3 runs silently in the background without requiring any input from the user. It tracks how the user behaves to determine whether they are likely a bot and provides a risk score from the user behavior.
- 5. <u>Turnstile</u> Cloudflare Turnstile is a bot protection tool that works in the background to verify users are human. It doesn't require puzzles or checkboxes, offering a smooth and privacy-friendly experience while blocking bots.

Step 1. Enable Google reCaptcha v2.

Step 1(A): The Google reCaptcha v2 for the GUI can be enabled by navigating under **Settings -> General-> Authentication.** You can choose visible or invisible reCaptcha

Ezeelogin						2 W	elcome, Administrator	Logout
E Servers		General Settings	Authentication	Two Factor Authentication	Security	Defaults	Miscellaneous	
🖬 Web Portals 🛛 🕨	*	Password / Security Code Retries @		Login captcha 🗐				
±t Users ►		2 \$		reCAPTCHA v2 Disable	÷			
Access Control		Web Panel Authentication 😨		reCAPTCHA v2	10			
^o ₀ Settings		Internal		reCAPTCHA v3				
General	1.1	reCAPTCHA Sitekey @ <u>Get reCAPTCHA A</u>	A <u>PI Key</u>					
► Branding				Turnetile Cooret @				
 Control Panels 		Turnstile Sitekey W Get Turnstile		iurnstile Secret 🥨				100

 The login page for visible reCaptcha would have the <u>reCaptcha prompt</u> in a similar way.

Step 2: Enable Google reCAPTCHA v3

Step 2(A):The Google reCaptcha v3 for the GUI can be enabled by navigating under **Settings -> General-> Authentication.** Choose reCaptcha v3 option.

WebGUI	Velcome, Administrato	r Logout
t≣ Servers ►	General Settings Authentication Two Factor Authentication Security Defaults Miscellaneous	
■ Web Portals	Password / Security Code Retries

► Branding		-
 Control Panels 	Turnstile Sitekey @ <u>Get Turnstile</u> Turnstile Secret @	1.58
Data Centers		
► API	User Password Lifetime @ User SSH Key Lifetime @	1
► LDAP		
► SAML		
► FIDO2	Allow Browsers To Save Login 🥹 Maximum Days Without Login 🔮	1
► RADIUS	0	1.3
► SIEM	Remote SSH Public Key Authentication	E. Sala
► Server Fields		1.

Step 2(B): To complete the integration, you will need to obtain the site-specific reCAPTCHA keys from Google:

- Visit the Google reCAPTCHA website.
- Register your site and select reCAPTCHA v3.
- Copy the **Site Key** and **Secret Key** provided by Google.

ogle reCAPTCHA		
Adding reCAPT	CHA to your site	
0	Success - you're all set up! ✓ Manage settings in the Google Cloud Project ✓ Up to 10,000 assessments/month at no cost Visit the Google Cloud Platform project hosting your reCAPTCHA keys to enable advanced features.	
Use this site key in	the HTML code your site serves to users. [7] See client side integration	
COPY SITE KEY	02/1000104664000(40000400004000040000400004	
Use this secret key	for communication between your site and reCAPTCHA.	
OT COPY SECRET	KEY	

- Locate the fields for reCAPTCHA Site Key and reCAPTCHA Secret Key in gateway server.
- Paste the corresponding keys you obtained from Google into these fields and Save it.

WebGUI		Welcome, Administrator Logout

		Login	j	
and the hard and	and the second			
Logged IP: 192.168.238.35				Cezeelogin.com

This way gateway users can enhance their login security with Google reCAPTCHA v2 and v3 as a proactive step towards protection.

ReCaptcha v3 feature is available from **Ezeelogin version 7.39.0**. To update your existing Ezeelogin to the latest version, refer to the **article**.
