## How to add custom message and login page notice in Ezeelogin?

---

**Overview:** This article provides a step-by-step guide for gateway users on setting a custom message to display when SSH'ing into the gateway server. It also explains how to configure a login page notice in the Web GUI.

---

### 1. Set custom message on gateway server.

**Step 1(A): Navigate to Settings -> General -> Miscellaneous -> Message Of The Day. After adding message of the day click on 'Save'.**

**Step 1(B): Login to the backend of gateway server to view the custom message.**

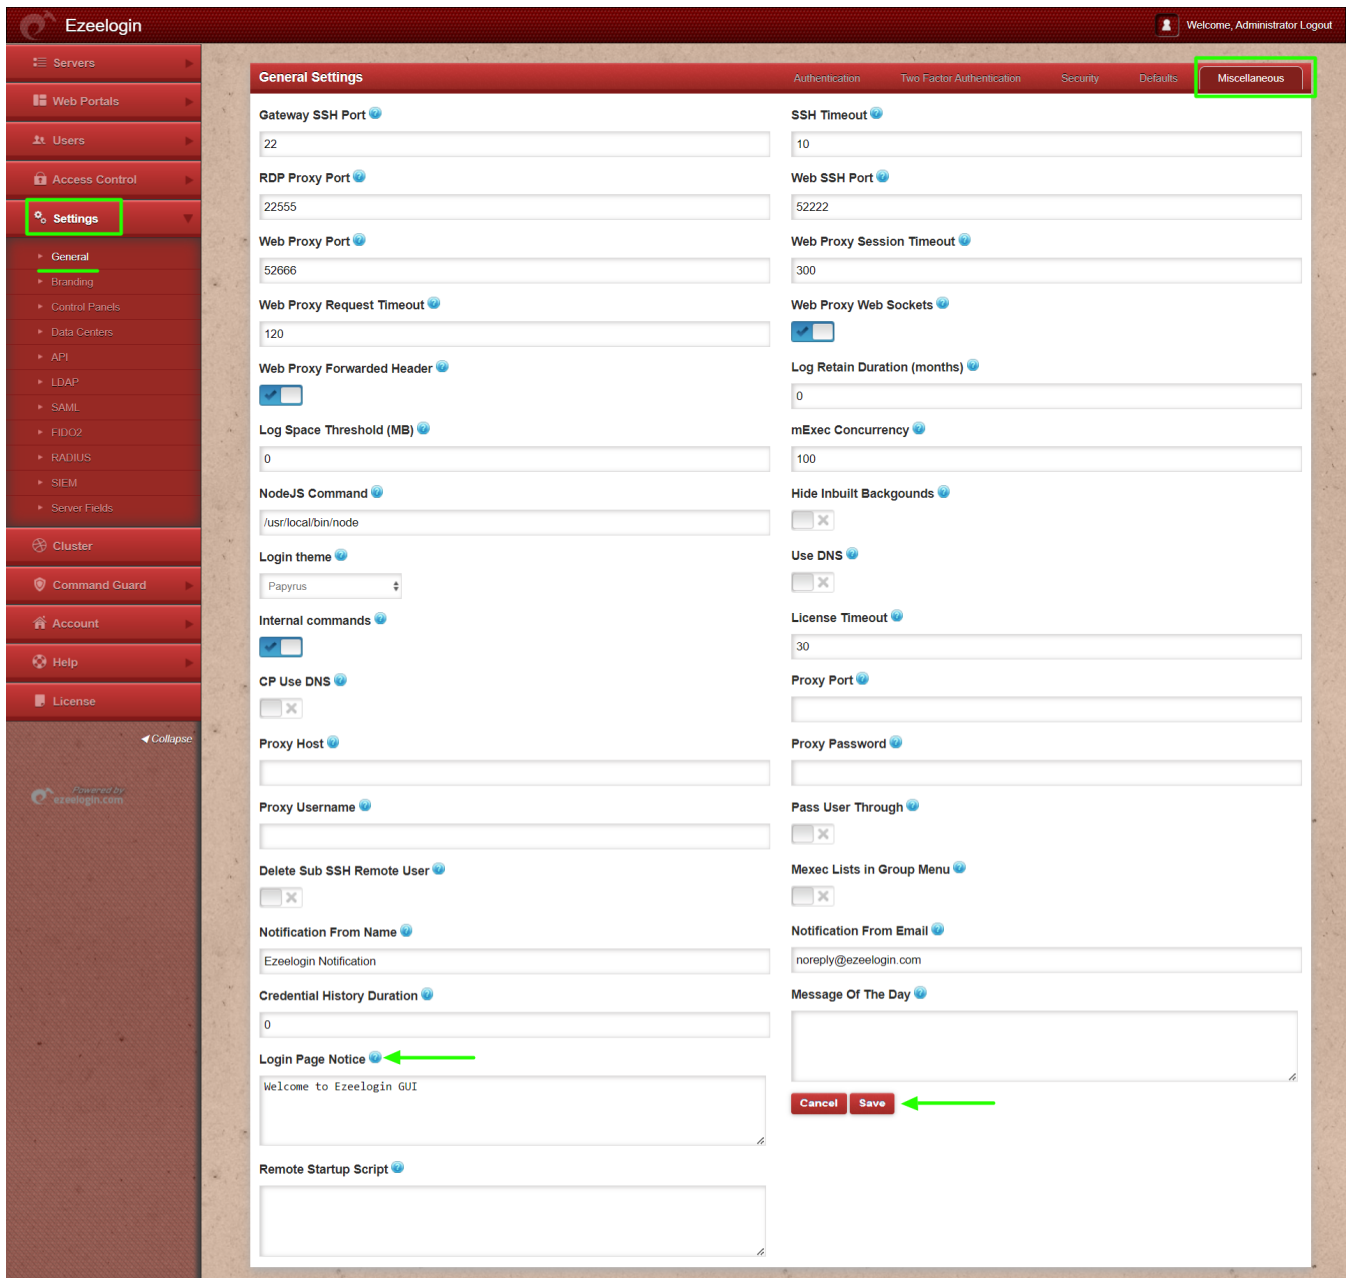

Make sure to copy paste the text you want from a file in the ssh client terminal and paste in the '**message of the day**' UI in the browser so as to maintain the Unicode formatting that is used in the ssh clients.

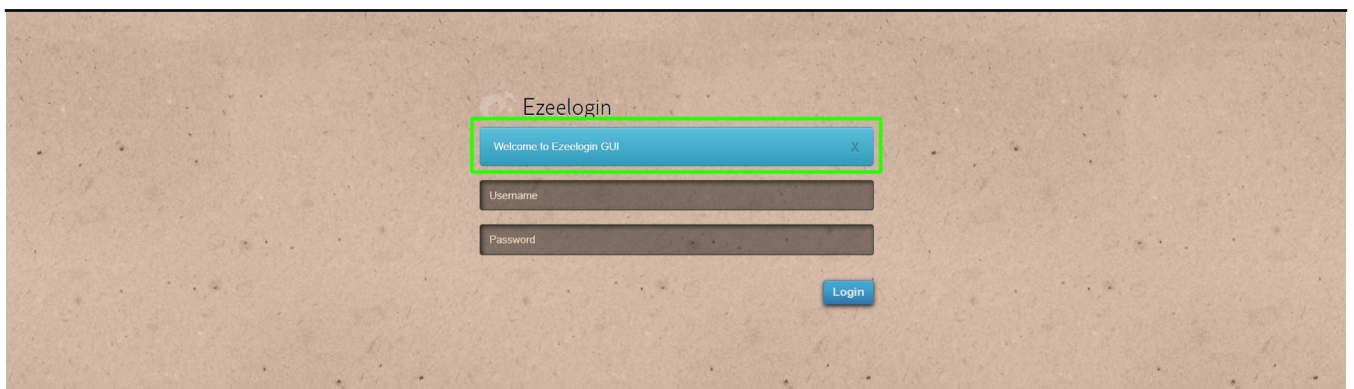

## 2. Set Login page notice on web GUI.

**Step 2(A):** Navigate to **Settings -> General -> Miscellaneous -> Login Page Notice**.

After adding login page notice click on '**Save**'.

**Step 2(B):** Login to Web GUI to view the login page notice.
