How to install Ezeelogin with a standalone license ?

291 Riya Francis August 28, 2024 Installation, License 8035

Install Ezeelogin with standalone license

Overview: This article helps Ezeelogin admin users in installing Ezeelogin using a standalone license file.

Step 1: Download and upload the **standalone license file** to the Ezeelogin gateway server.

Step 2: Rename the license file to **ezlic.dat** and place it under '**/root**' directory of the Ezeelogin gateway server.

```
tom@localhost:~# sudo mv /path_to_license_file/x.x.x.x.txt /root/ezlic.dat
```

Step 3: After uploading the license file, proceed with the Ezeelogin installation.
