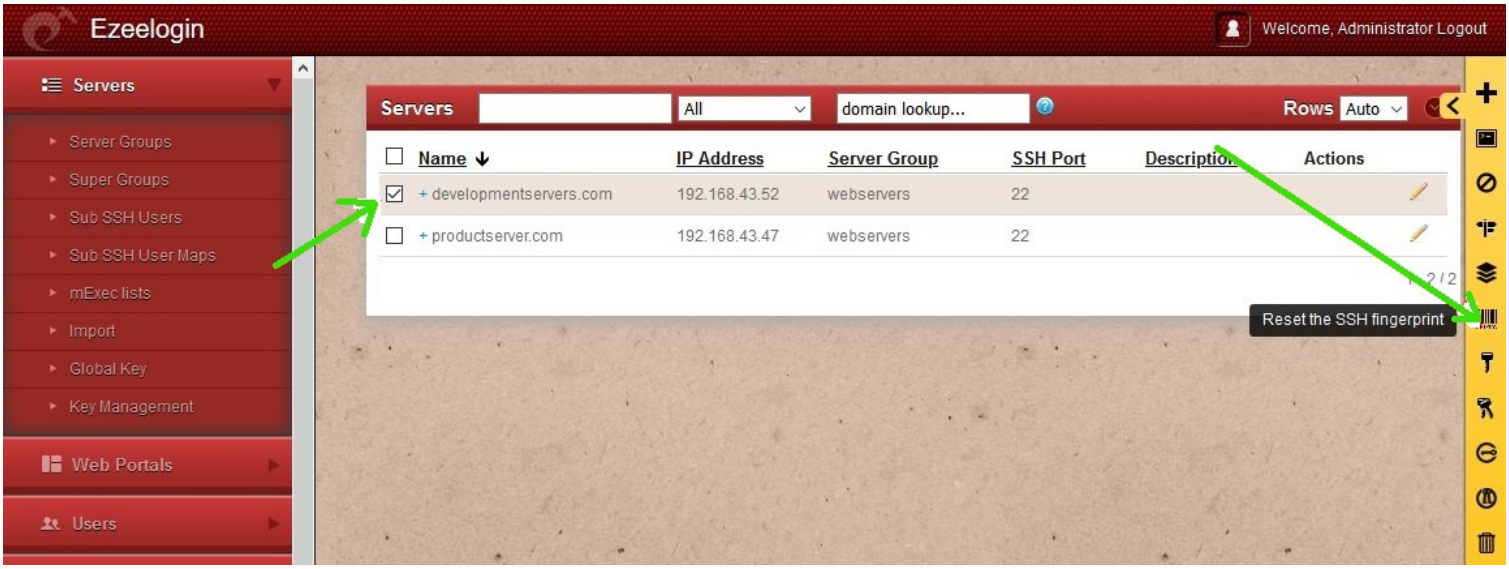
How to re-add a reinstalled server?

303 Vishnupriya August 28, 2024 General 5784

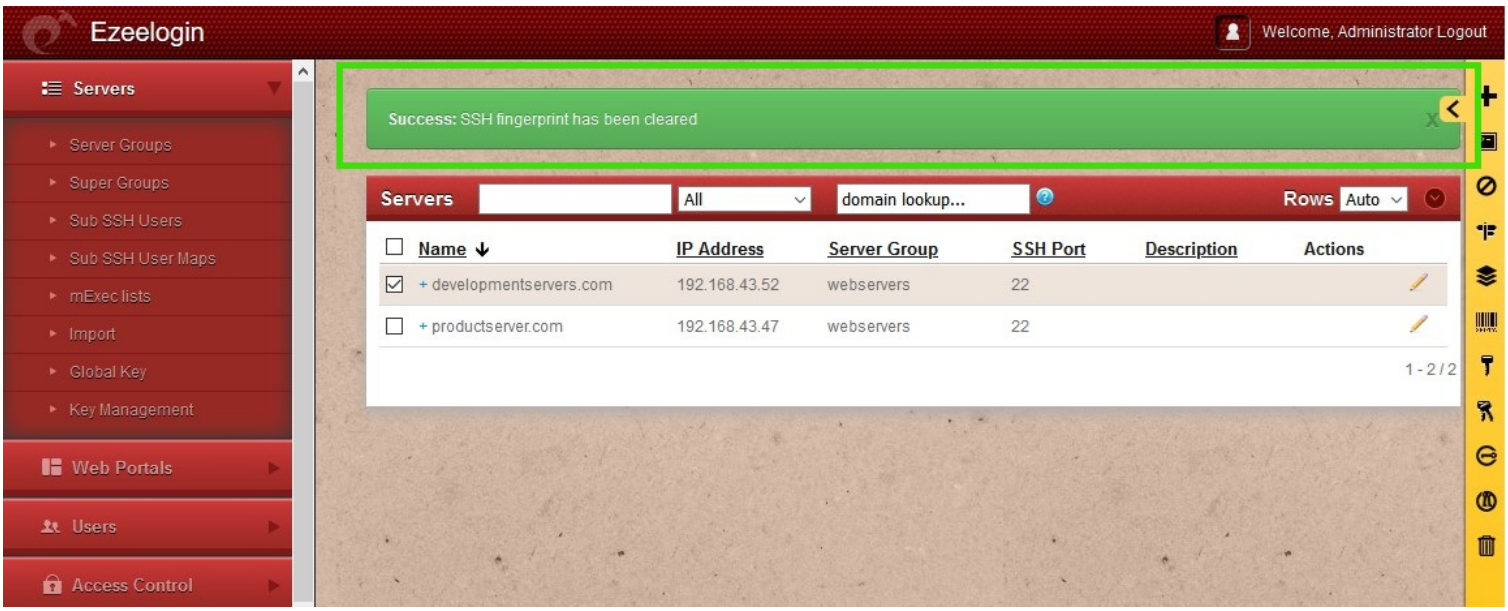
Steps to re-add a reinstalled server

Overview: This article outlines the steps to re-add a reinstalled server. First, select the reinstalled remote server and reset the SSH fingerprint. After resetting, update the new password in the Server -> Edit server section.

Step 1. Select the reinstalled remote server and Click to reset the ssh fingerprint.



As shown below you can see the confirmation



Step 2. After resetting the SSH fingerprint, you need to update the new password in **Server ->Edit server**
