Error: Trying to install or update a secondary as primary. Use -as_primary option to force it.

Overview: This article addresses the error encountered when attempting to install or upgrade a master node that has been issued a secondary license. To resolve this, use the -as_primary option. Run the installation script with -as_primary for new installations or the upgrade script with -update -as_primary for upgrades.

```
Trying to install or update a secondary as primary. Use -as_primary option to force it.  
Please contact support@ezeelogin.com
```

This is because you are trying to install or upgrade the master node that has been issued a secondary license for its IP in the [customer portal](#).

Step 1. If you want to install secondary as primary, run the below install script.

```
root@localhost:# sh ezlogin_7.x.x_php71.bin -- -as_primary
```

Step 2. If you want to upgrade secondary as primary, run the below upgrade script.

```
root@localhost:# sh ezlogin_7.x.x_php71.bin -- -update -as_primary
```
