Adding Interworx as webportal in Ezeelogin

How to add InterWorx as webportal in Ezeelogin?

Minimum System Requirement

- Processor: 1.1 GHz

- Disk Space: 20 GB minimum; 40 GB recommended

- Memory: 1 GB minimum RAM with 3 GB minimum swap

  - If the system has more than 1 GB RAM, the RAM to swap ratio should be as follows:

    - 2 GB RAM should have at least 4 GB swap

    - 4 GB - 8 GB RAM should have the same amount of swap as RAM

    - If more than 8 GB of RAM, there should be at least a 4 GB swap

Supported OS

- RedHat Enterprise Linux 6.x, 7.x 64 bit Architecture
- CentOS 6.x, 7.x 64 bit Architecture

Supported VPS Systems

- Virtuozzo
- Xen
- OpenVZ
- VMware

Install Interwox in your fresh server, so that the activation failed error can be solved.

Contact Interworx support and ask them for a trial license:- https://support.interworx.com/?login=1

Webproxy, Webpanel, Webportal, Controlpanel

To Install Interworx 7 :

 1. Log in to the server at the command line as root

 2. Download and run the installer :

```
 root@centos ~]# sh <((curl -sL
updates.interworx.com/interworx/7/install.sh))
```

To Install Interworx 6 :

 1. Log in to the server at the command line as root

 2. Download and run the installer :

```
  root@centos ~]# sh <((curl -sL interworx.com/inst.sh))
```

Activate the Interworx license either from a web browser or the command line.

1. From the browser, go to **https://server_ip]:2443/nodeworx**. Follow the prompts of email, password, and license key for the control panel.

2. From the command line

```
root@centos    ~]#    cd /usr/local/interworx/bin

root@centos    bin]# ./goiworx.pex
```

When prompted <u>enter your email and password</u> for the <u>administrator account</u> for the InterWorx control panel.

Once the scripts log in to NodeWorx through the web browser **https://server_ip:2443/nodeworx** and log in using the email and password used in the previous step.
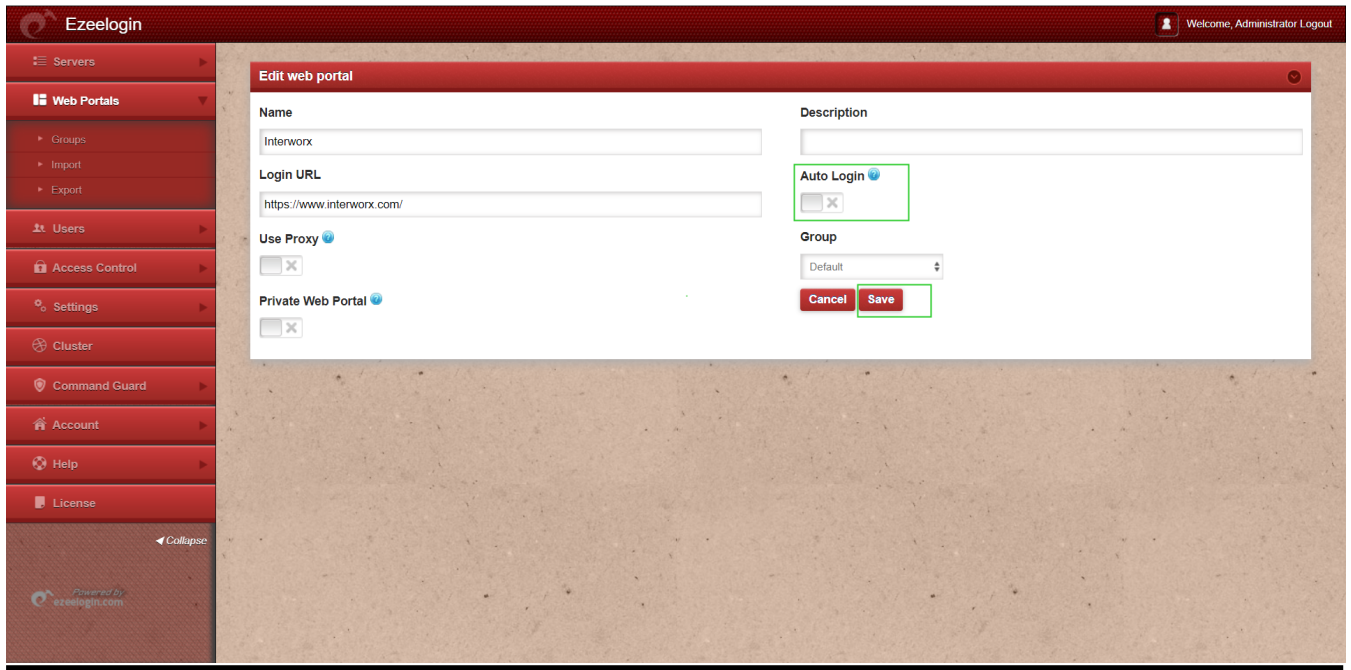

Login to **Ezeelogin GUI** -> Click on **Web Portals** tab -> **Add new Web Portal** with **Auto Login enabled**. Refer below example to add InterWorx.

Refer to the below Screenshot to _**Disable AutoLogin**_.
