### Enabling and configuring email notifications in ezeelogin

**Overview:** This article covers configuring email notifications in Ezeelogin. It includes adding a valid email address for the super admin, updating the notification sender's address and name, and ensuring a mail server is installed. It also provides steps to enable failed login, change, and shell access notifications in the Ezeelogin Jump Host settings.

Edit the super admin user and add a valid email address to receive the notifications. Refer below screenshot.

To change from address and name navigate to **Settings** -> **General** -> **Miscellaneous** -> **Notification From Name / Notification From Email** 

Make sure you have installed a mail server on your server. Refer below article to install Sendmail on the gateway server.
