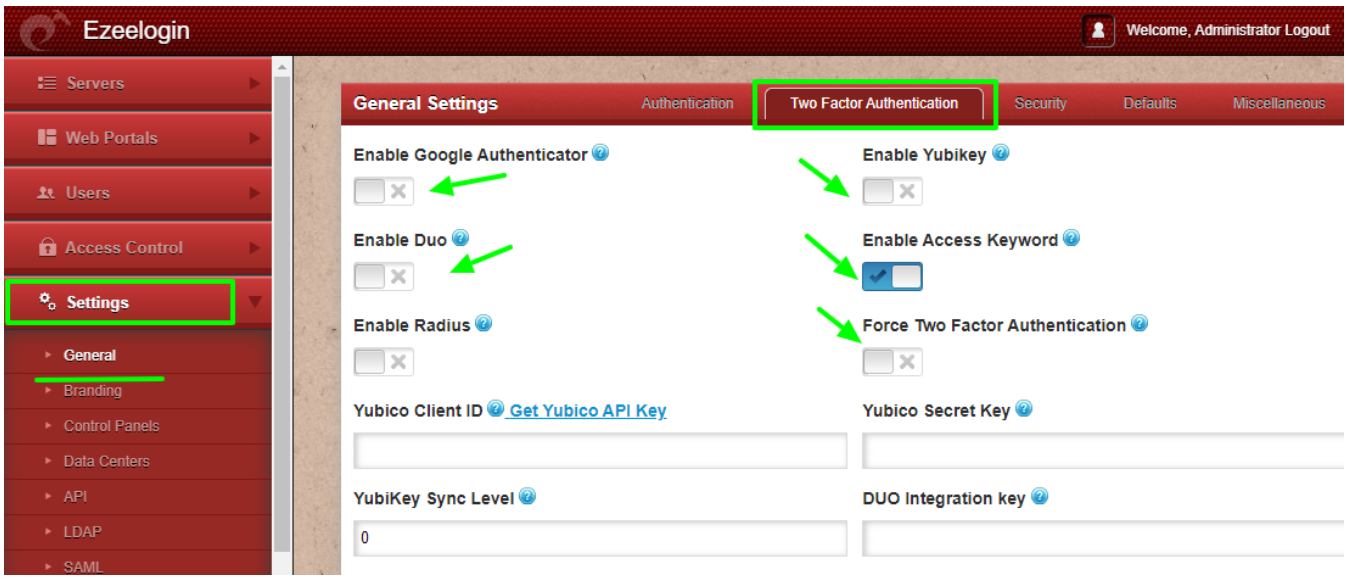
How to disable 2FA from Ezeelogin GUI?

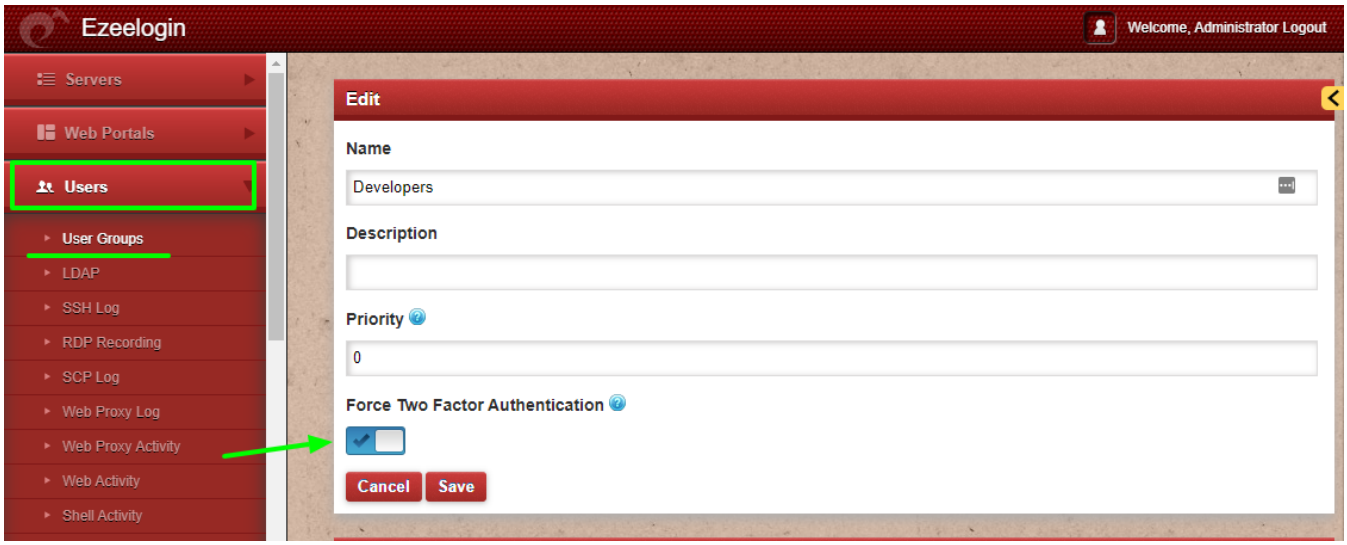
386 Riya Francis June 16, 2023 Common Errors & Troubleshooting, Technical 4117

Disable 2FA from Ezeelogin GUI?

1. You can disable 2FA under **Settings >> General>> Two Factor Authentication**. Untick the checkboxes for 2FA which are **Enable Google Authenticator**, **Enable Duo**, **Enable Yubikey**, **Enable Access Keyword** and remove the **Force Two Factor Authentication** option to remove the enforcing option. Refer to the following image to disable 2FA.



2. Make sure to disable 2FA for the user group if it is enabled. You can disable 2FA for user group under **Users >> User group >> edit User group**. The following image shows an example to disable 2FA for the user group, " **Developers**".



Disable 2fa from backend
