How to disable 2FA from Ezeelogin GUI?

386 Riya Francis October 27, 2024 Common Errors & Troubleshooting, Technical 6197

Deactivating 2FA(Two-Factor Authentication) in ezeelogin GUI

Overview: This article provides a guide to disabling Two-Factor Authentication (2FA) in Ezeelogin. To disable 2FA for individual users, navigate to the Two Factor Authentication settings and untick the relevant checkboxes. Additionally, ensure 2FA is disabled for user groups by editing the user group's settings. Refer to the provided images for visual guidance on both processes.

Step 1. You can disable 2FA under Settings -> General -> Two Factor Authentication.
Untick the checkboxes for 2FA which are Enable Google Authenticator, Enable Duo,
Enable Yubikey, Enable Access Keyword and remove the Force Two Factor
Authentication option to remove the enforcing option. Refer to the following image to disable 2FA.

Ezeelogin		Velcome, Administrator Logout
E Servers	General Settings	Authentication Two Factor Authentication Security Defaults Miscellaneous
🔚 Web Portals	Enable Google Authenticator 💀	Enable Yubikey 🐨
±t Users ►		
Access Control	Enable Duo 🐷	Enable FIDO2 😺
Settings ▼		
Ganaral	Enable Radius 💚	Enable Access Keyword 🥹
Branding		
Control Panels	Yubico Client ID @ Get Yubico API Key	Force Two Factor Authentication 💿
Data Centers	ARARA	🔲 x 🗲 🗕
► API	YubiKey Sync Level 😡	Yubico Secret Key 🥹
► LDAP	0	*****
► SAML		
► FIDO2	DUO Secret key	DUO Integration key 🥥
► RADIUS	RRRRR	R.R.R.R.R
► SIEM	Allow Reuse Of Google Authenticator Code 🥥	DUO API hostname
 Server Fields 	X	*****
🛞 Cluster	Skip Two Factor Authentication For SAML 🥪	Use Email ID for Duo login
Command Guard	×	×
		Cancel Save

Step 2. Make sure to disable 2FA for the user group if it is enabled. You can disable 2FA for user group under **Users -> User group -> edit User group**. The following image shows an example to disable 2FA for the user group, " **Developers**".

Ezeelogin			
t≣ Servers ►	Edit User Group		
📕 Web Portals 🔹 🕨	Name Description		
±t. Users	Developers		
User Groups	Priority 😺 Force Two Factor Authentication 😡		
Authentication Log	0		
▶ SSH Log	Cancel Save
