How to resolve error "Error: Could not bind to any LDAP server: 80090308: LdapErr: DSID-0C090434, comment: AcceptSecurityContext error, data 52e, v4f7c" ?

Overview: This article helps in resolving the error "**Error: Could not bind to any LDAP server: 80090308: LdapErr: DSID-0C090434, comment: AcceptSecurityContext error, data 52e, v4f7c**" encountered while saving LDAP setting in Ezeelogin GUI.

The screenshot shows the Ezeelogin web interface. On the left is a sidebar menu with options like Servers, Web Portals, Users, Access Control, Settings, Cluster, Command Guard, and Account. The 'Settings' menu is expanded, and 'LDAP' is selected. The main area displays the 'LDAP Settings' form. At the top of this form, a red error message box is visible, stating: "Error: Could not bind to any LDAP server: 80090308: LdapErr: DSID-0C090434, comment: AcceptSecurityContext error, data 52e, v4f7c". The form fields include: Name (AD), URI(s) (ldap://192.168.1.53), Start TLS (unchecked), Bind RDN (cn=Admin,cn=users,dc=example,dc=com), UID Attribute (sAMAccountName), First Name Attribute (givenName), Email Attribute (mail), Base DN (ou=test,dc=example,dc=com), Bind Password (masked), Filter, Last Name Attribute, Group Attribute, and Rank.

The error code 52e indicates invalid credentials. Check the list below as a reference regarding all LDAP error codes.

- 525 - user not found
- 52e - invalid credentials
- 530 - not permitted to login at this time

This error has been identified as authentication failure for service account which is used to Query the Object in LDAP Server. It often occurs when we use an incorrect attribute or password. This is a common error seen while authenticating with Windows AD server as well.

Step 1: Check if you have changed the password of the bind user from the LDAP server.

Step 2: Verify that the following attributes are correct. Once confirmed, try setting up [LDAP](#)

again.

- Bind DN
- Bind Password
- UID Attribute
- First Name Attribute

Refer below screenshot of LDAP settings:

The screenshot shows the Ezeelogin web interface. The left sidebar has a 'Settings' menu with 'LDAP' selected. The main panel is titled 'LDAP Settings' and contains the following fields:

- Name:** ldap
- URI(s):** ldap://192.168.0.110
- Start TLS:** ☐
- Bind RDN:** cn=admin,dc=admod,dc=ezeelogin,dc=com
- UID Attribute:** uid
- First Name Attribute:** givenName
- Email Attribute:** mail
- Timeout:** 10
- Active:** ☒
- Base DN:** dc=admod,dc=ezeelogin,dc=com
- Bind Password:** [masked]
- Filter:** [empty]
- Last Name Attribute:** sn
- Group Attribute:** [empty]
- Rank:** 10
- Windows Active Directory:** ☐

At the bottom right of the form are 'Cancel' and 'Save' buttons.
