

## How does " Web Activity" in Ezeelogin works?

410 Riya Francis February 24, 2025 [General](#) 3582

### How to find "Web Activity" logs or how to export Web Activity logs in Ezeelogin?

**Overview:** The "Web Activity" log provides a detailed record of user interactions with the web panel, including accessed sections and functions, along with date and time stamps; it allows searches based on user, section, and date range, where users are Ezeelogin accounts, sections are GUI areas accessed, and dates define the log search period.

**Note:** Only the Super admin user or the privileged user can access the web activity logs.

1. Click on the **Users >> Web Activity** tab to access the [web activity](#) logs. The following image shows an example of the web activity logs for the admin user.

The screenshot shows the Ezeelogin web interface. On the left sidebar, the 'Users' menu item is highlighted with a green box. In the main content area, the 'Search' section has a 'User' field containing 'admin' with a green arrow pointing to it. The 'Section' dropdown is set to '-- All --'. The 'From' date is '2021-06-28 22:53' and the 'To' date is '2021-06-30 22:53'. The 'Rows Per Page' is set to '10'. The 'Find' button is highlighted with a green box. Below the search section, the 'Web Activity Logs' table is displayed with the following data:

<input type="checkbox"/>	Username	Section	Function	Target	Time	Actions
<input type="checkbox"/>	admin	account	profile		2021-06-30 04:23:20	
<input type="checkbox"/>	admin	account	profile		2021-06-30 04:23:11	
<input type="checkbox"/>	admin	account	index		2021-06-30 04:23:10	

The drop-down menu for the **section** covers the following areas; **Servers, Users, Access control, Settings, Command Guard, Account, Authentication, License, and Help**. The following image shows the web activity logs of a regular user with the "Server" section.

The screenshot shows the Ezeelogin web interface. On the left sidebar, the 'Web Activity' menu item is highlighted with a green box. In the main content area, the 'Search' section has a 'User' field containing 'Aron' with a green arrow pointing to it. The 'Section' dropdown is open, showing a list of options: Servers, Users, Access control, Settings, Command Guard, Account, Authentication, License, and Help. The 'Servers' option is highlighted with a green arrow. The 'From' date is '2021-06-28 23:20' and the 'To' date is '2021-06-30 23:20'. The 'Rows Per Page' is set to '10'. Below the search section, the 'Web Activity Logs' table is displayed with the following data:

<input type="checkbox"/>	Username	Section	Function	Target	Time	Actions
<input type="checkbox"/>	Aron	servers	index		2021-06-30 04:18:28	
<input type="checkbox"/>	Aron	servers	edit	Updated: serv.tst (2)	2021-06-30 04:18:27	
<input type="checkbox"/>	Aron	servers	edit	2	2021-06-30 04:18:16	

Under the **server** section, you can find the following web activity logs.

- Add Server
- Edit server

- **Delete server**

- **Change server group**

- **Enable or disable SSH connectivity**

- **Change SSH port**

- **Change SSH fingerprint**

- **Reset password on servers**

- **Setup keys on servers**

- **Server group creation**

Under the **User section**, you can find the following web activity logs.

- User add

Web Activity Logs

Clear all

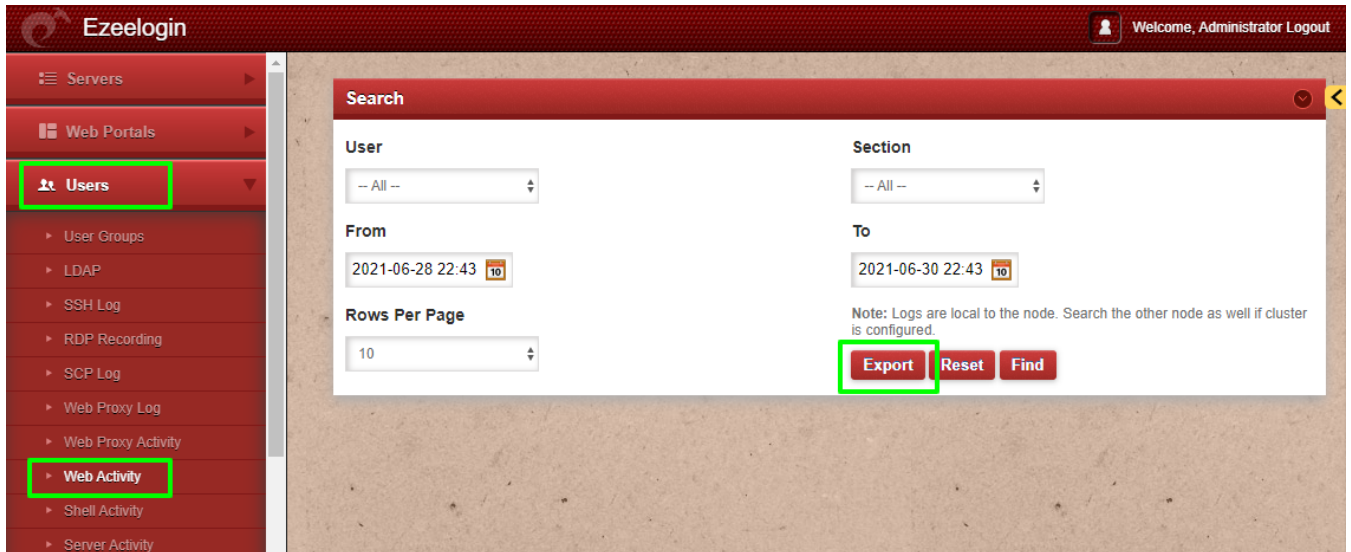

<input type="checkbox"/>	<u>Username</u>	<u>Section</u>	<u>Function</u>	<u>Target</u>	<u>Time</u>	<u>Actions</u>
<input type="checkbox"/>	admin	users	add	Added: Jack (8)	2021-07-13 11:35:52	

- Edit the user or any changes made by editing the user.
- Delete user
- Reset access control( 8 refers to the user\_id of the user )
- Generate and reset the password of the user.

---

## 2. Export Web Activity log

**Step 2(A):** Click on the **Users -> Web Activity -> Export** to export the Web Activity logs into an Excel sheet. Refer to the following image to download all users' web activity logs into an Excel sheet.

---

### 3. View API logs

**Step 3(A):** To view all the actions performed via API navigate to **Users -> Web Activity -> who** and select **API**. This will display a list of logs for all actions executed through API.

The screenshot shows the Ezeelogin web interface. On the left is a sidebar menu with options like Servers, Web Portals, Users, Access Control, Settings, Cluster, and Command Guard. The main area is titled 'Web Activity Logs' and has a 'Clear all' button. Above the table are filters for 'User' (set to '-- All --'), 'Section' (set to '-- All --'), 'From' (2025-01-01 19:05), 'To' (2025-01-22 19:05), and 'Rows Per Page' (10). A green box highlights the 'Who' dropdown menu, which is set to 'API'. Below the filters, a table displays the logs. The first row is highlighted with a blue background and shows a log for 'User expiry set: john -> 2025-01-30'. The table has columns: Username, Section, Function, Target, API, Time, and Actions.

Username	Section	Function	Target	API	Time	Actions
- admin1	users	set_expiry	10	1	2025-01-17 06:33:08	
User expiry set: john -> 2025-01-30						
admin1	servers	get_server_list		1	2025-01-17 05:34:52	
+ admin1	users	set_expiry	2	1	2025-01-13 00:00:29	
+ admin1	users	set_expiry	2	1	2025-01-11 16:07:40	
+ admin1	users	unsuspend	2	1	2025-01-11 16:05:58	
+ admin1	users	suspend	2	1	2025-01-11 16:05:26	
+ admin1	servers	add	Added: web.eznoc.com2 (17)	1	2025-01-11 08:29:33	
+ admin1	servers	edit	Updated: web.eznoc.com1 (16)	1	2025-01-11 08:01:04	
+ admin1	servers	change	fingerprint	1	2025-01-11 07:14:02	

**Step 3(B):** Selecting "User" will display a list of logs for all actions executed through web GUI.

This screenshot is similar to the first one, but the 'Who' dropdown is set to 'User' instead of 'API'. The table below shows logs for 'webactivity' actions performed by 'admin1' in the 'users' section. The columns are the same as in the first screenshot.

Username	Section	Function	Target	API	Time	Actions
admin1	users	webactivity	1	0	2025-01-22 00:54:36	
admin1	users	webactivity	1	0	2025-01-22 00:54:32	
admin1	users	webactivity	1	0	2025-01-22 00:54:28	
admin1	users	webactivity	1	0	2025-01-22 00:51:06	
admin1	users	webactivity	1	0	2025-01-22 00:51:04	
admin1	users	webactivity	1	0	2025-01-22 00:50:56	
admin1	users	webactivity	1	0	2025-01-22 00:50:55	
admin1	users	webactivity	1	0	2025-01-22 00:50:55	
admin1	users	webactivity	1	0	2025-01-22 00:50:54	

This feature to list the logs for the actions performed via API is available from [Ezeelogin version 7.40.0](#)
