# How does "Web Activity" in Ezeelogin works?

410 Riya Francis February 24, 2025 General 3637

### How to find "Web Activity" logs or how to export Web Activity logs in Ezeelogin?

**Overview**: The "Web Activity" log provides a detailed record of user interactions with the web panel, including accessed sections and functions, along with date and time stamps; it allows searches based on user, section, and date range, where users are Ezeelogin accounts, sections are GUI areas accessed, and dates define the log search period.

**Note:** Only the Super admin user or the privileged user can access the web activity logs.

1. Click on the Users >> Web Activity tab to access the <u>web activity</u> logs. The following image shows an example of the web activity logs for the admin user.

Ezeelogin								Welcome, Administrator	Logout

Under the server section, you can find the following web activity logs.

- Add Server
- Edit server

• Delete server

• Change server group

• Enable or disable SSH connectivity

• Change SSH port

• Change SSH fingerprint

• Reset password on servers

• Setup keys on servers

• Server group creation

Under the User section, you can find the following web activity logs.

#### • User add

Wel	b Activity Logs	Clear all					0
	Username	Section	Function	Target	Time	Actions	
	admin	users	add	Added: Jack (8)	2021-07-13 11:35:52		8

- Edit the user or any changes made by editing the user.
- Delete user
- Reset access control( 8 refers to the user\_id of the user )
- Generate and reset the password of the user.

### 2. Export Web Activity log

Step 2(A): Click on the Users -> Web Activity -> Export to export the Web Activity logs into an Excel sheet. Refer to the following image to download all users' web activity logs into an Excel sheet.
