How to add DirectAdmin as control panel

Overview: This article outlines the steps to integrate DirectAdmin with Ezeelogin. First, install DirectAdmin on your server. Then, log in to the Ezeelogin GUI and navigate to Settings -> Control Panel to configure DirectAdmin. Next, add the DirectAdmin-installed server under the Servers tab, selecting DirectAdmin from the control panel menu. Ensure you provide the necessary credentials in the Advanced section. Finally, refer to the article for granting users access to the Control Panel.

Step 1. You need to install DirectAdmin on a server

Step 2. After installing DirectAdmin, login to Ezeelogin GUI -> **Settings -> Control Panel.** You can use the screenshot below as an example to configure DirectAdmin.
