The **HTTP Archive format**, or **HAR**, is a JSON-formatted archive file format for logging of a web browser's interaction with a site. The common extension for these files is **.har**. The specification for the HTTP Archive (HAR) format defines an archival format for HTTP transactions that can be used by a web browser to export detailed performance data about the web pages it loads.

In the browser , right click on the browser tab -> Click Inspect - > Click network

To import the HAR file,
