

# Is it possible to stop recording of user activity logs?

437 Riya Francis August 4, 2021 [Common Errors & Troubleshooting](#) 1518

## Is it possible to stop recording of user activity logs?

No, it is not possible to stop the [Web Activity](#), [Shell Activity](#), [Server Activity](#) but you can stop the user's [SSH log recording](#), [RDP recording](#) and [Web Proxy Logging](#).

You can disable SSH log recording and RDP recording from **Settings -> General -> Security -> SSH Session Logging/RDP Recording/Web Proxy Logging**
