

# reCaptcha images not loading

45 admin June 20, 2024 [Common Errors & Troubleshooting](#) 7069

The reCaptcha images are not loading while logging into gateway server.

**Synopsis:** This article will help the gateway admin user to fix the issue with loading the reCAPTCHA image while logging into the Ezeelogin GUI.

Make sure the gateway server firewall does not block <https://www.google.com/recaptcha/api> or [www.google.com](http://www.google.com)
