Default administrator user account in Ezeelogin

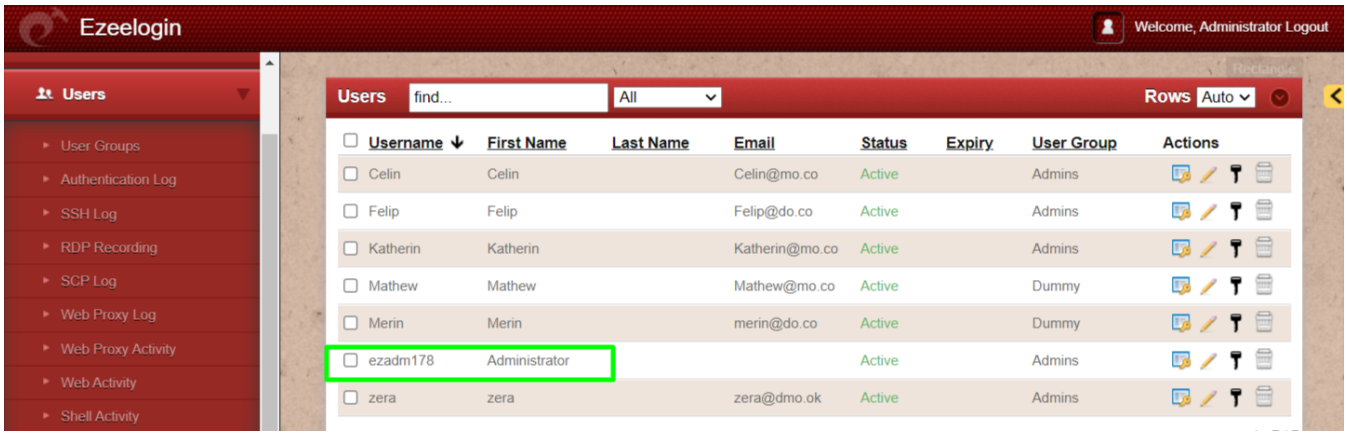
The default administrator user account will be created at the time of Ezeelogin installation. This account will be the super admin who has all the privileges in Ezeelogin. You cannot delete or modify the username of this account. If you want to modify the username there is no way other than uninstalling and reinstalling the Ezeelogin.



You can also find the default administrator user account from the Ezeeogin configuration file.

```
[root@ez ~]# cat /usr/local/etc/ezlogin/ez.conf
cver 2
system_folder /var/www/ezlogin/
www_folder /var/www/html/ezlogin/
uri_path /ezlogin/
force_https no
db_host localhost
db_port /var/lib/mysql/mysql.sock
