How to fix non-responsive navigation keys in "less" and "vi" editors?

Overview: This article addresses the issue of non-responsive navigation keys such as "**Page Up/Down**, **Home/End**, **Ins/Del**" in "**less**" and "**vi**" editors.

Step 1: Try different options of Terminal Emulation in account preferences:

> https://www.ezeelogin.com/user_manual/Preferences.html

Step 2: vt102 or **xterm** might work. Sometimes you may have to change the terminal emulation of your SSH client such as PuTTY.
