

vi editor not working , insert and delete not working in ssh

49 admin March 12, 2018 [Common Errors & Troubleshooting](#) 7146

When we use "less" and "vi" editors, keys such as "Page Up/Down, Home/End, Ins/Del" are not working. How can we fix it?

Try different options of Terminal Emulation in account preferences:

vt102 or xterm might work. Sometimes you may have to change the terminal emulation of your SSH client such as PuTTY
