How to record and download RDP recordings?

Overview: This article specifies the steps to record and download RDP recordings by installing Awesome Screen Recorder & Screenshot extension and save the video in your desktop machine.

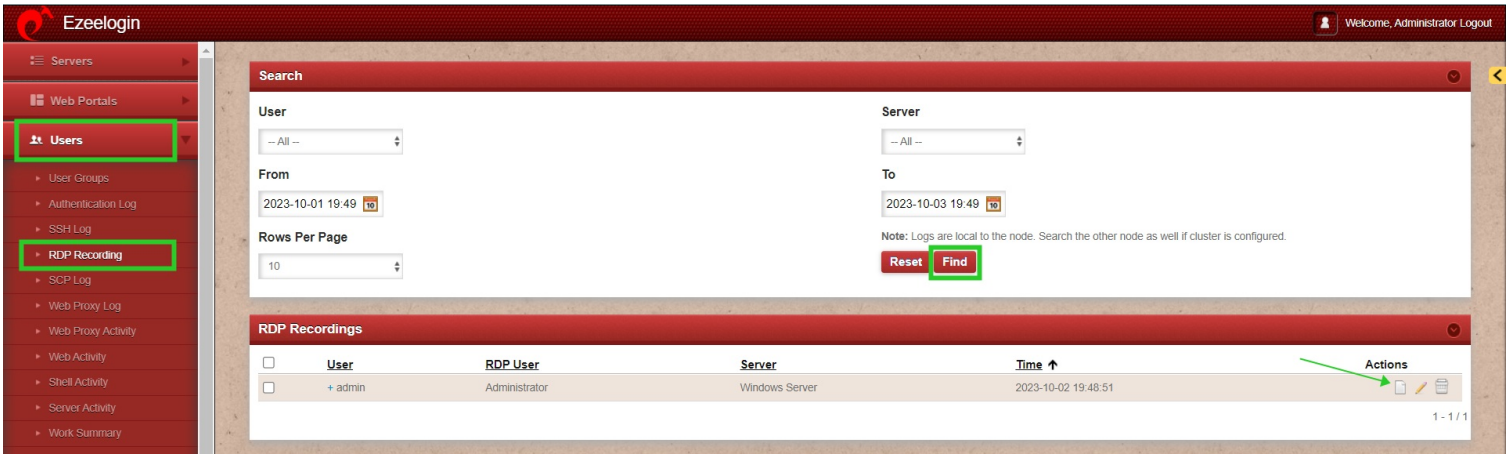

Step 1: Install the *Awesome Screen Recorder & Screenshot* plugin. Click on this link: Awesome Screen Recorder & Screenshot. And add it to your chrome. Pin the plugin in your chrome for quick access.

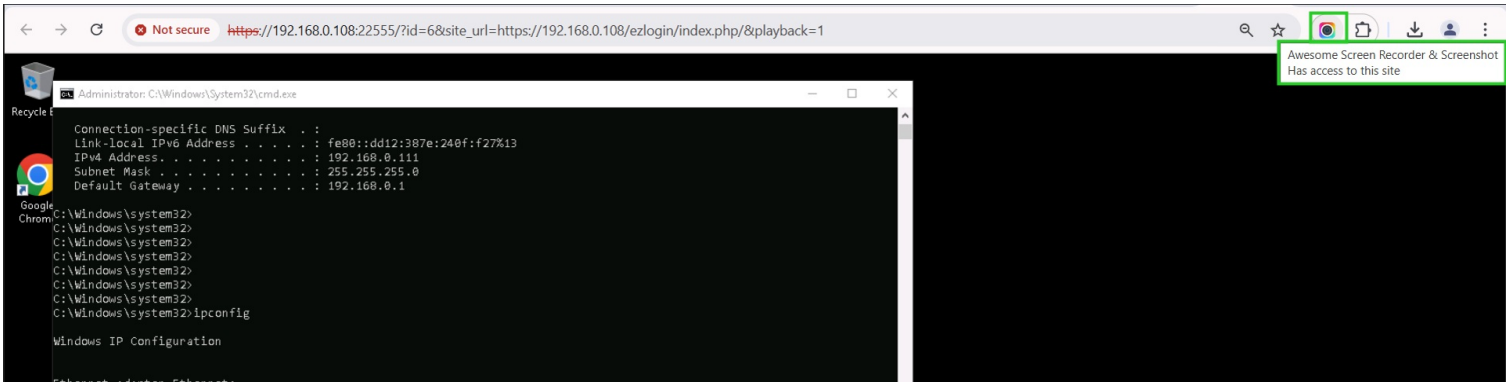

Step 2: Make sure you have enabled the RDP recordings under ***Settings > General > Security > RDP Recordings.***

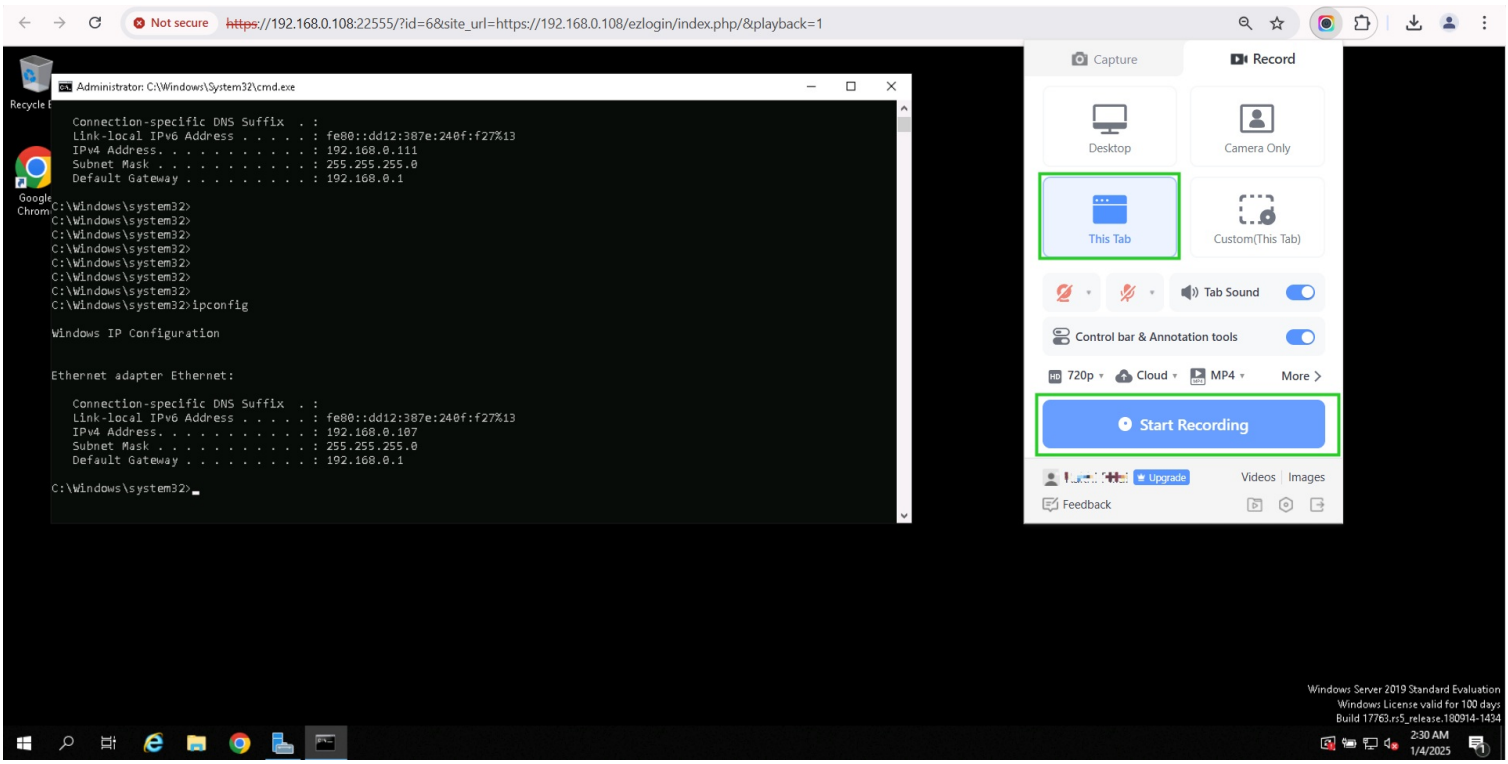

Step 3: Open RDP recording from the Web GUI ***Users > RDP Recording.***

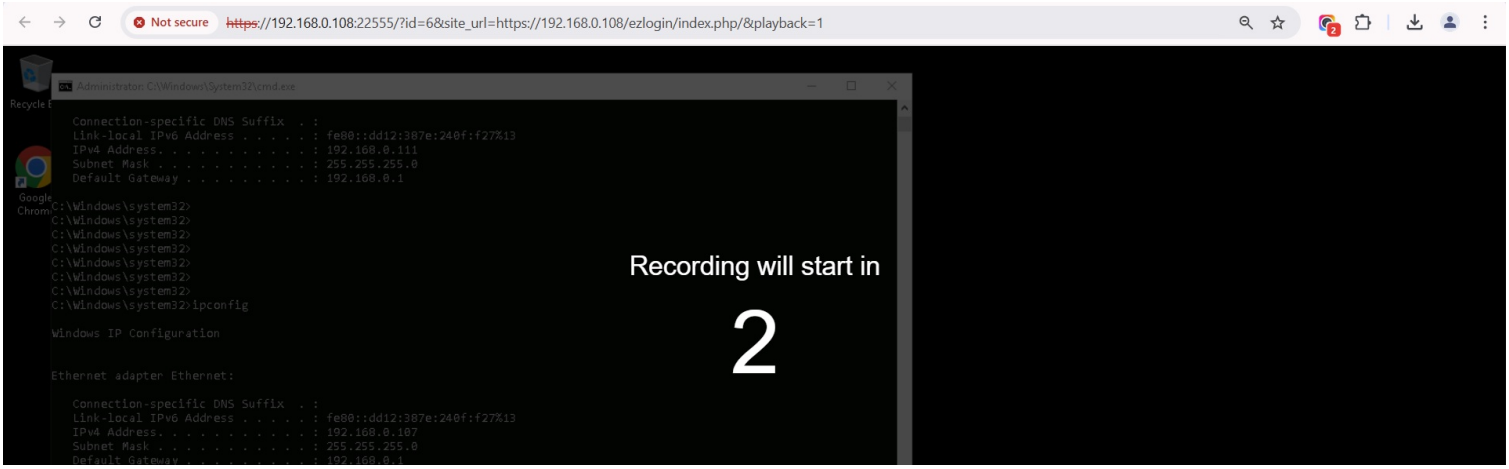

Step 4: Once the recording starts playing click on the Awesome Recorder & Screenshot extension added to your Chrome.

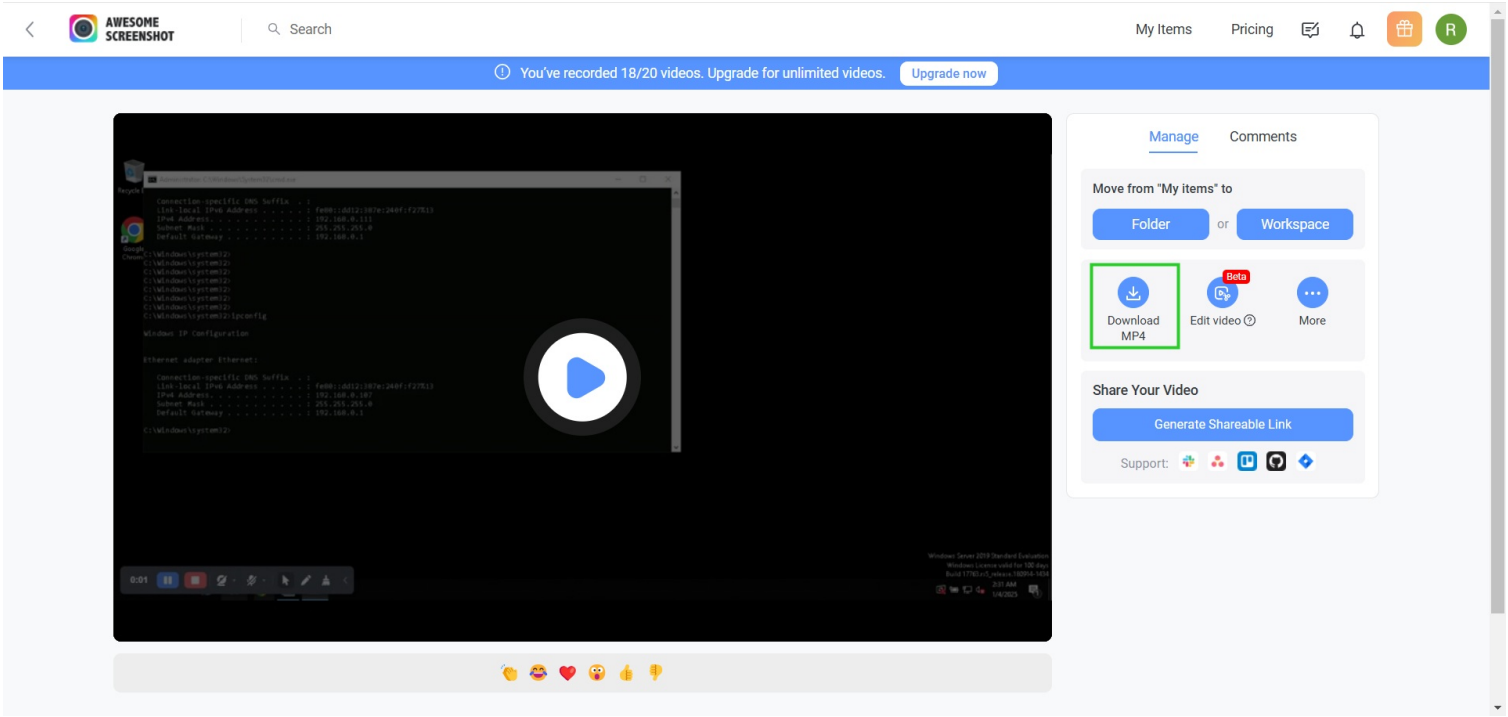

Step 5: After clicking on Awesome Recorder & Screenshot select **This Tab** and **Start Recording.**

Step 6: To stop recording click again on the awesome recorder extension added to your browser and click on Stop.

Step 7: Now download the RDP recording in your remote desktop machine.

These steps will help to download the recorded RDP recordings in your desktop machines.
