How to update license from Ezeelogin Customer Portal?

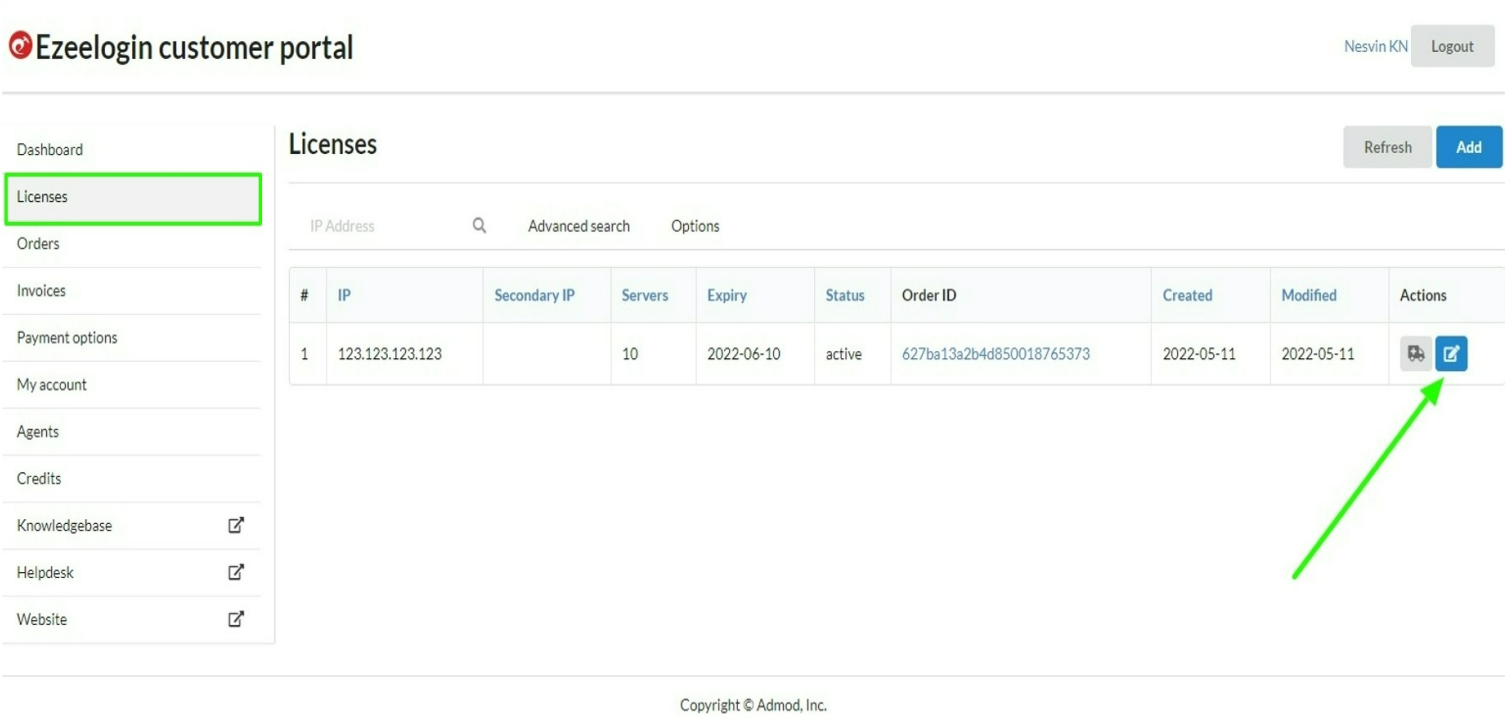

505 Nesvin KN January 23, 2025 Billing 4874

Steps to update license from Ezeelogin customer portal

Overview: This article explains the process of updating the Ezeelogin license through the customer portal, including modifying server count, billing cycle, and IP addresses for a seamless license update.

Step 1. Login to the customer portal: https://billing.ezeelogin.com/#/

Step 2. Navigate to the license tab and edit the license. Refer below screenshot.

Step 3. The number of servers, billing cycle, and IP addresses can be updated here. Refer to the screenshot below

Step 4. Update the changes by clicking the update button and after successfully updating, login to the Ezeelogin GUI and click on the license tab to reflect the changes. Refer below screenshot.
