Disabling reCAPTCHA

53 admin October 29, 2024 Features & Functionalities 19751

How to disable Recaptcha?

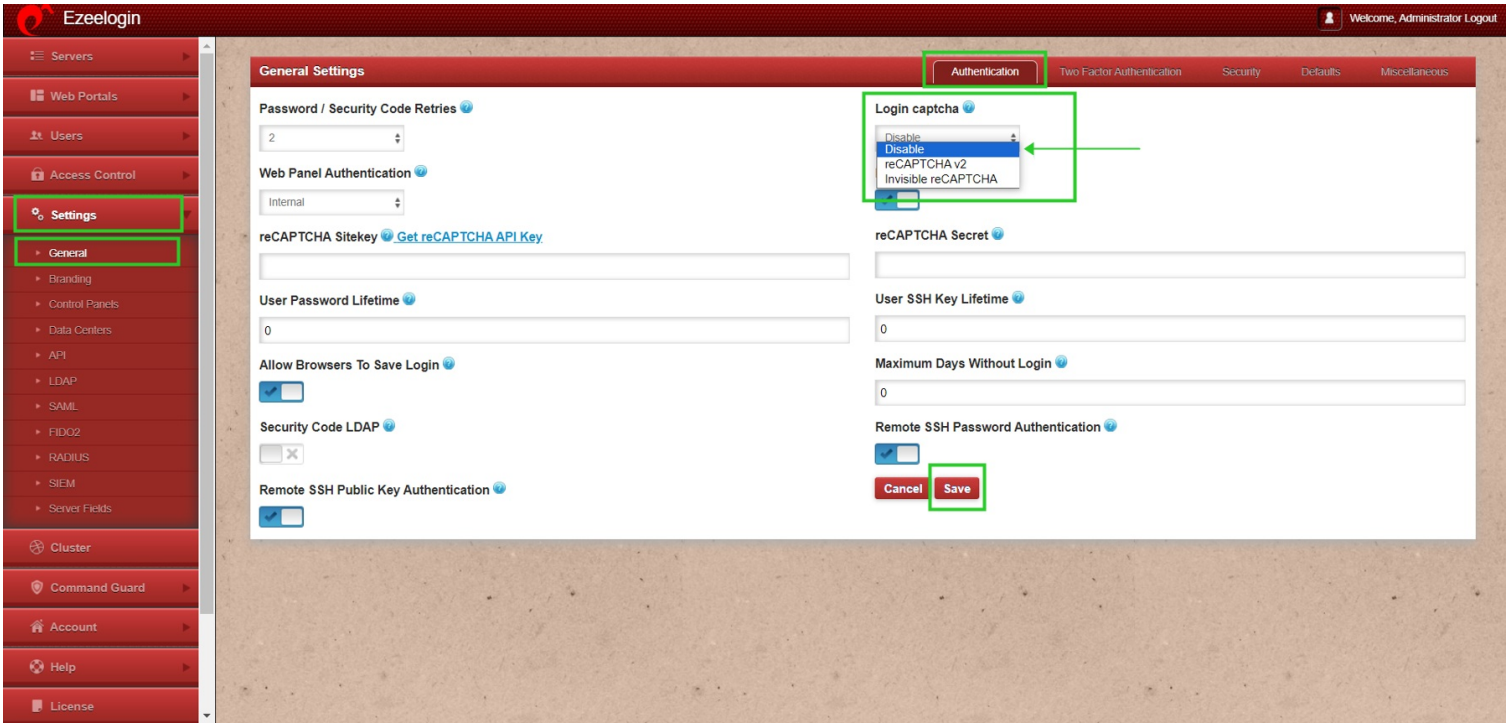

Overview: The following article describes how a user can disable recaptcha from GUI and database.

Here are the steps to disable **reCAPTCHA** on the login page:

Disable the captcha on the login page from Ezeelogin Web GUI.

Step 1: Navigate to Settings -> General -> under Authentication -> choose to disable Login captcha -> Save it.

Emergency CLI Method:
Disable the captcha on the login page.

Run the following command to update the login_captcha setting.

```
root@gateway:~# php /usr/local/ezlogin/ez_queryrunner.php "update prefix_settings SET value='N' WHERE name='login_captcha';"
```

Following these steps will disable the reCAPTCHA on the login page.
