How to add litespeed as webportal in gateway server for autologin?

Overview: This article describes how to add litespeed as webportal in gateway server with autologin.

Webproxy, Webpanel, Webportal, Controlpanel

To add LiteSpeed as web portal in gateway server for autologin, install lightspeed in a server.

Step 1: Follow the below steps to add LiteSpeed as a web portal for autologin.

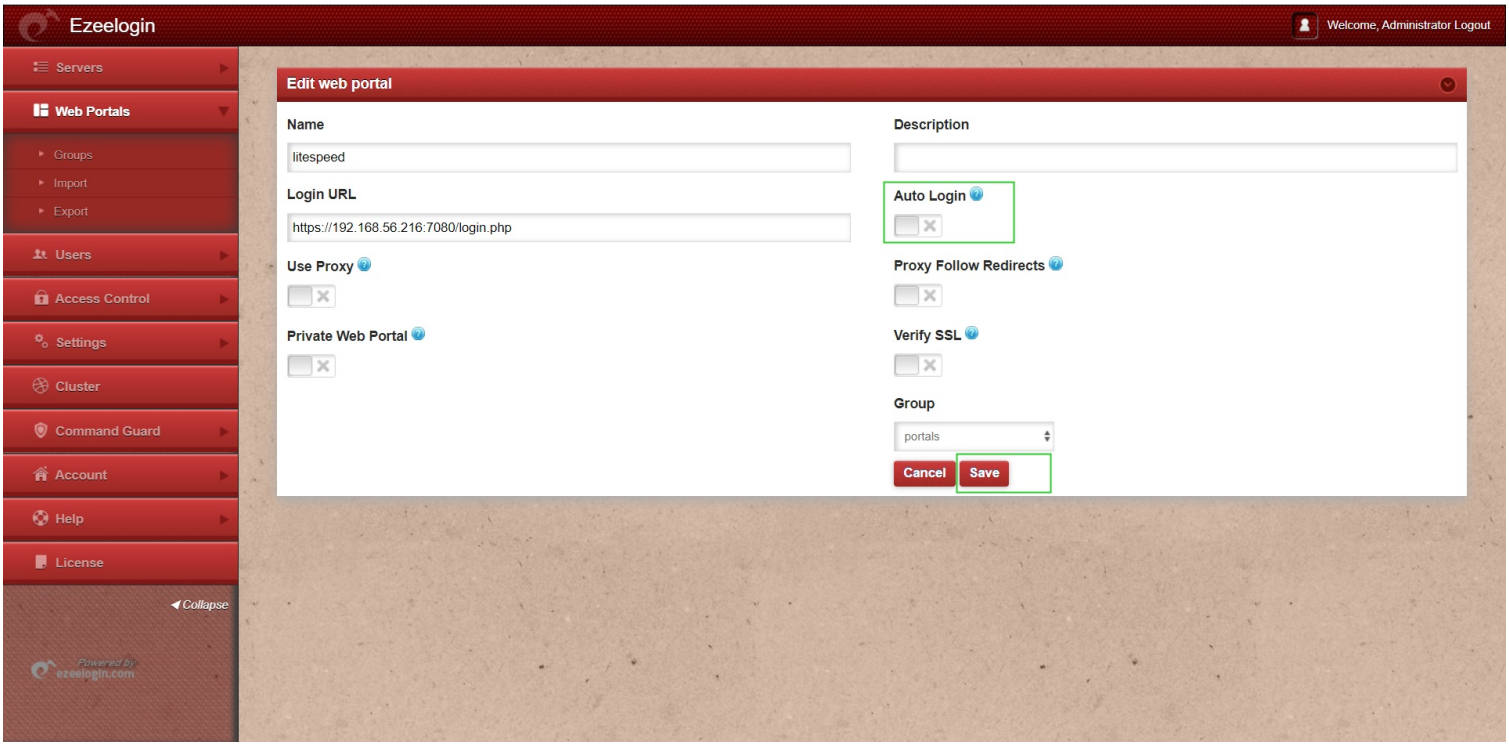

Paste the login URL and then click on the **Fetch details** button. Then the details of the LiteSpeed automatically get fetched.

Fill in the other details such as username filed selector and password filed selector. Then **save** it.

Step 2: For Litespeed autologin to work, enable **Use proxy**.
