## Adding Litespeed as webportal in Ezeelogin for autologin

[Webproxy, Webpanel, Webportal, Controlpanel](#)

To add LiteSpeed as web portal in ezeelogin for autologin, [install litespeed](#) in a server.

1. Follow the below steps to add LiteSpeed as a web portal for autologin.

Paste the login URL and then click on the **Fetch details** button. Then the details of the LiteSpeed automatically get fetched.

The screenshot shows the 'Edit web portal' interface in Ezeelogin. The left sidebar contains navigation options: Servers, Web Portals (with sub-items: Groups, Import, Export), Users, Access Control, Settings, Cluster, Command Guard, Account, Help, and License. The main content area is titled 'Edit web portal' and contains the following fields and controls:

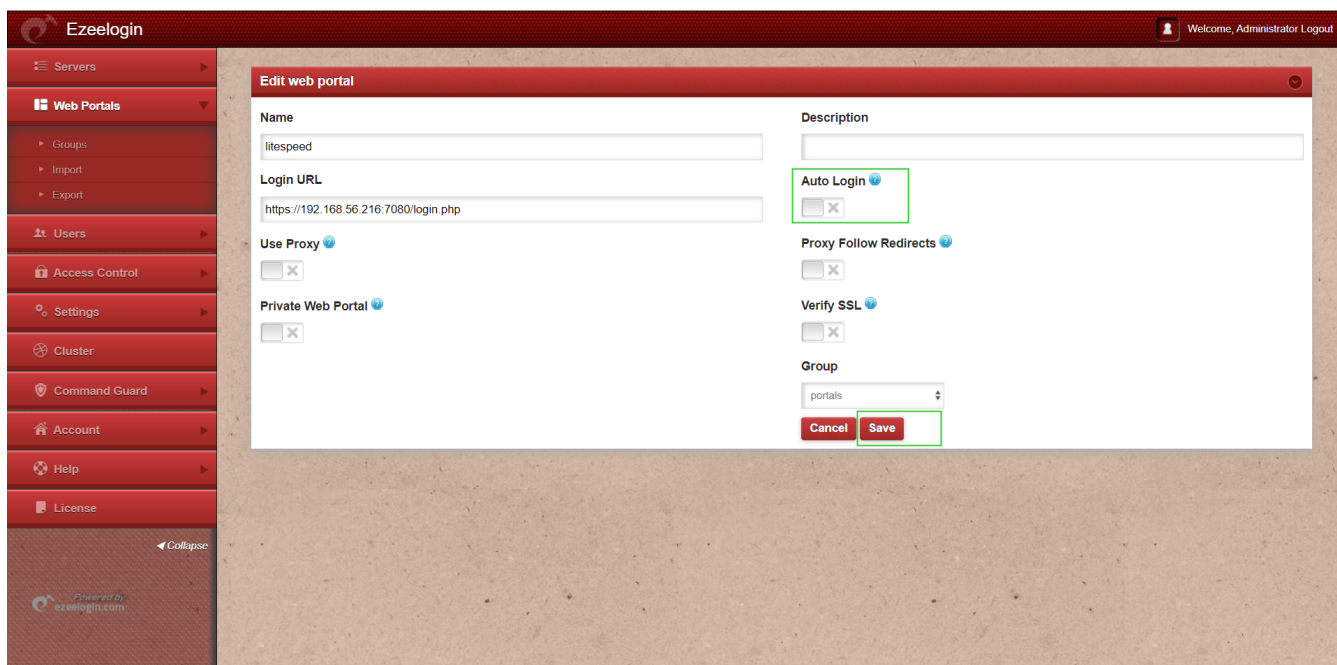

- Name:** litespeed
- Description:** (empty)
- Login URL:** https://192.168.56.216:7080/login.php
- Fetch details:** (button)
- Host:** 192.168.56.216
- Port:** 7080
- Request URI:** /login.php
- Username:** (empty)
- Username Field:** userid
- Username Field Selector:** (empty)
- Submit Button Selector:** (empty)
- Extra Variables:** (empty)
- Private Web Portal:** (checkbox, unchecked)
- Use Proxy:** (checkbox, checked)
- Protocol:** HTTPS (dropdown menu)
- Note:** HTTPS is highly recommended.
- Request Method:** POST (dropdown menu)
- Auth Type:** Basic (checkbox, unchecked)
- Password:** (empty)
- Password Field:** pass
- Password Field Selector:** (empty)
- Group:** portals (dropdown menu)
- Proxy Follow Redirects:** (checkbox, unchecked)
- Verify SSL:** (checkbox, unchecked)
- Buttons:** Cancel, Save

Fill in the other details such as username filed selector and password filed selector. Then **save** it.

2. For Litespeed autologin to work, enable **Use proxy**.
