Add Plesk as a webportal

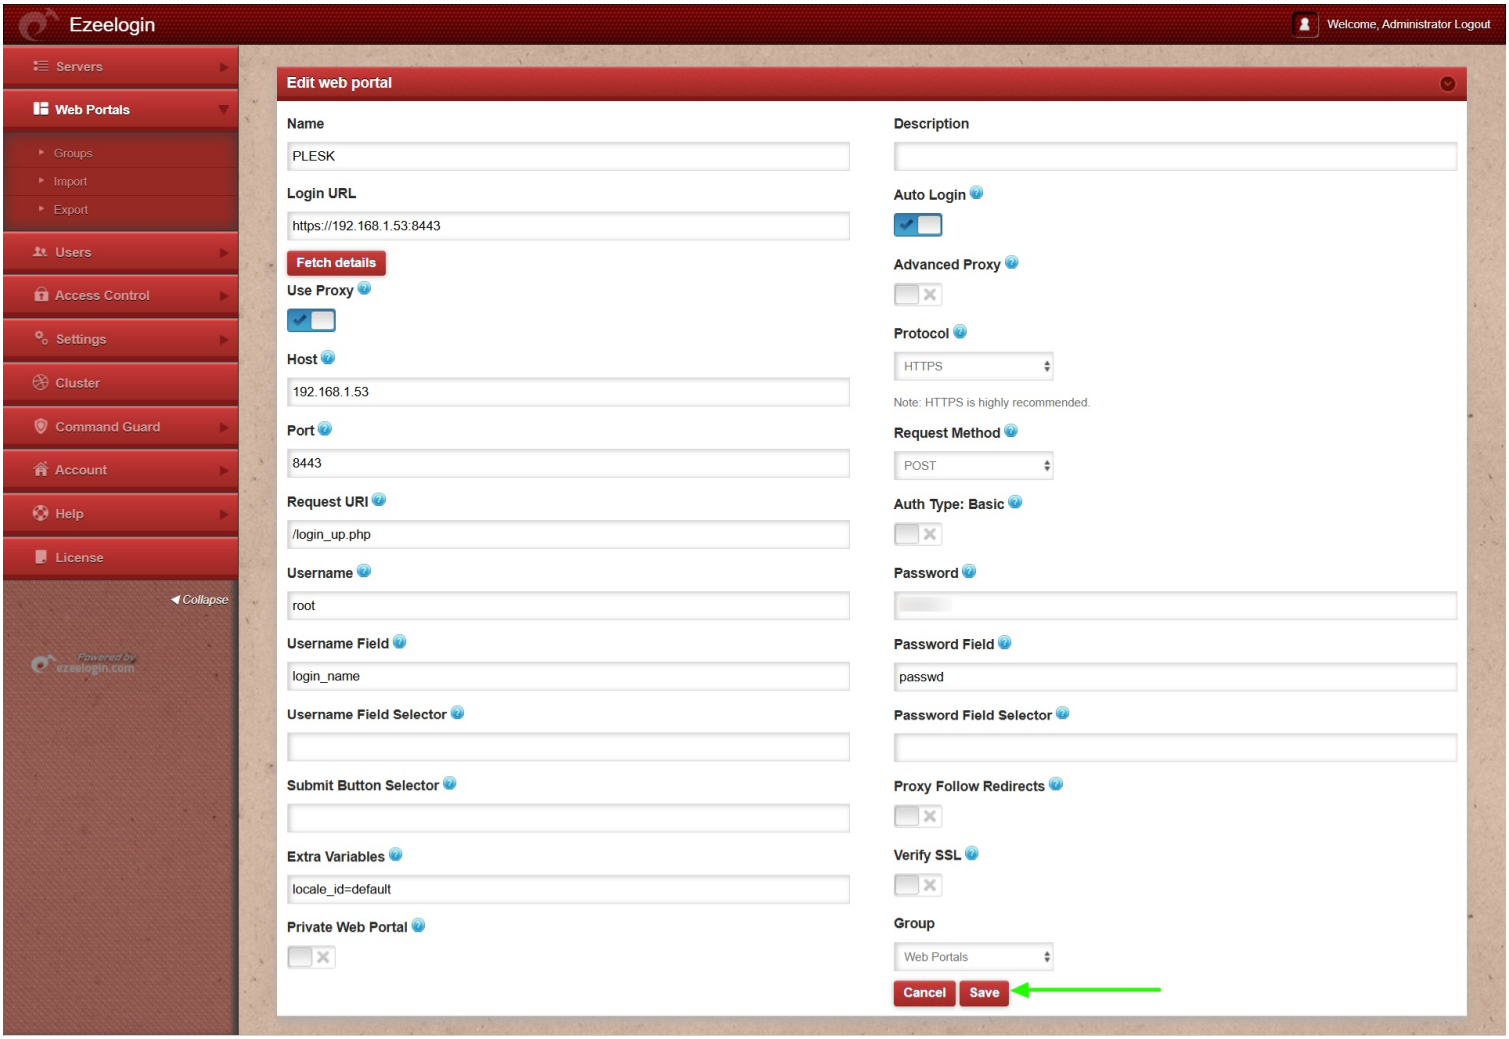

Overview: This article helps in integrating Plesk as a web portal in Ezeelogin. It includes step-by-step instructions for adding Plesk to Ezeelogin and configuring autologin settings.

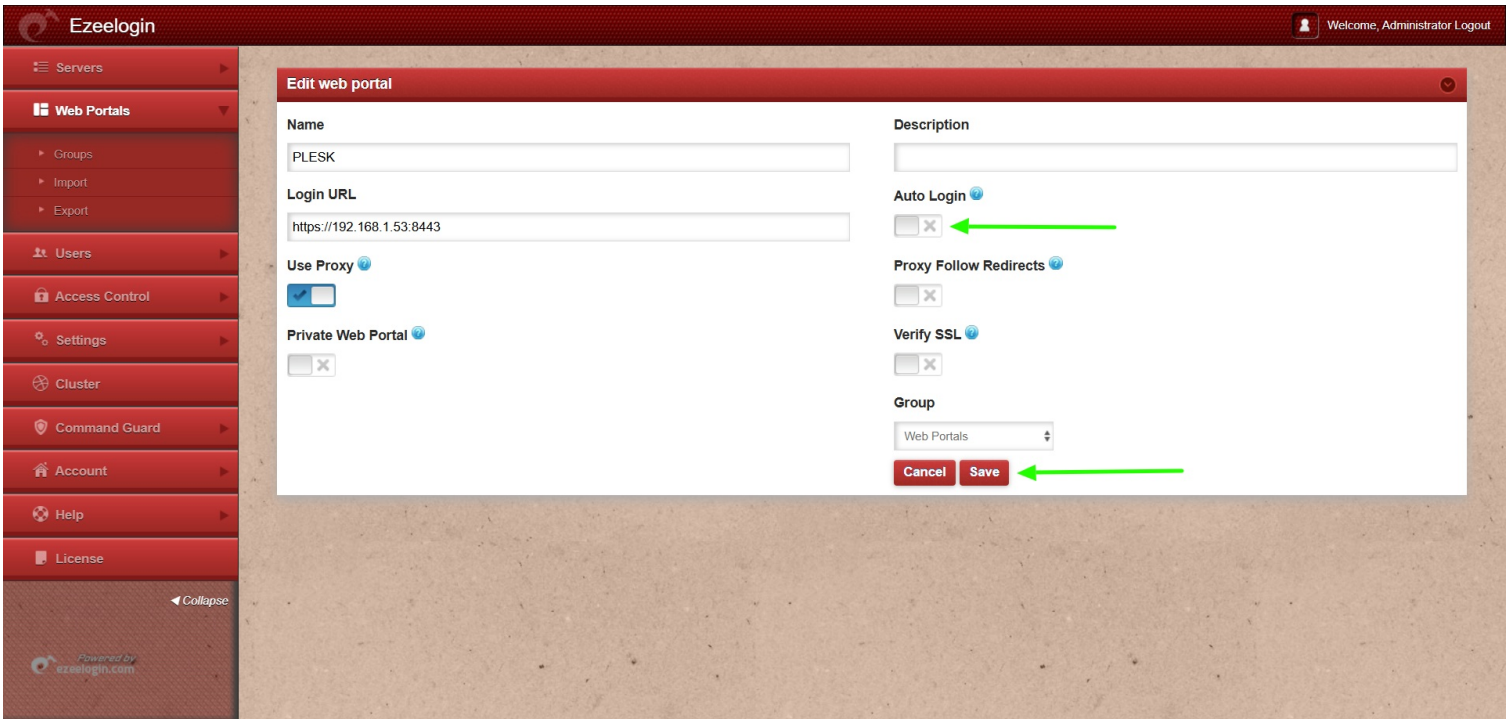

Step 1: Login to Web GUI, navigate to **Web Portals tab** -> **Add new Web Portal.**

Step 2: Provide all the details with **autologin** enabled and click on **Save** as shown below.

Step 3: To disable **autologin**, edit the web portal and uncheck the autologin option. Refer to the screenshot below:

Step 4: After saving click on **Login** button to access plesk web portal.

To **troubleshoot** issues related to the web portal, refer to Step 4 in the article linked below:
