How to add Webuzo as controlpanel?

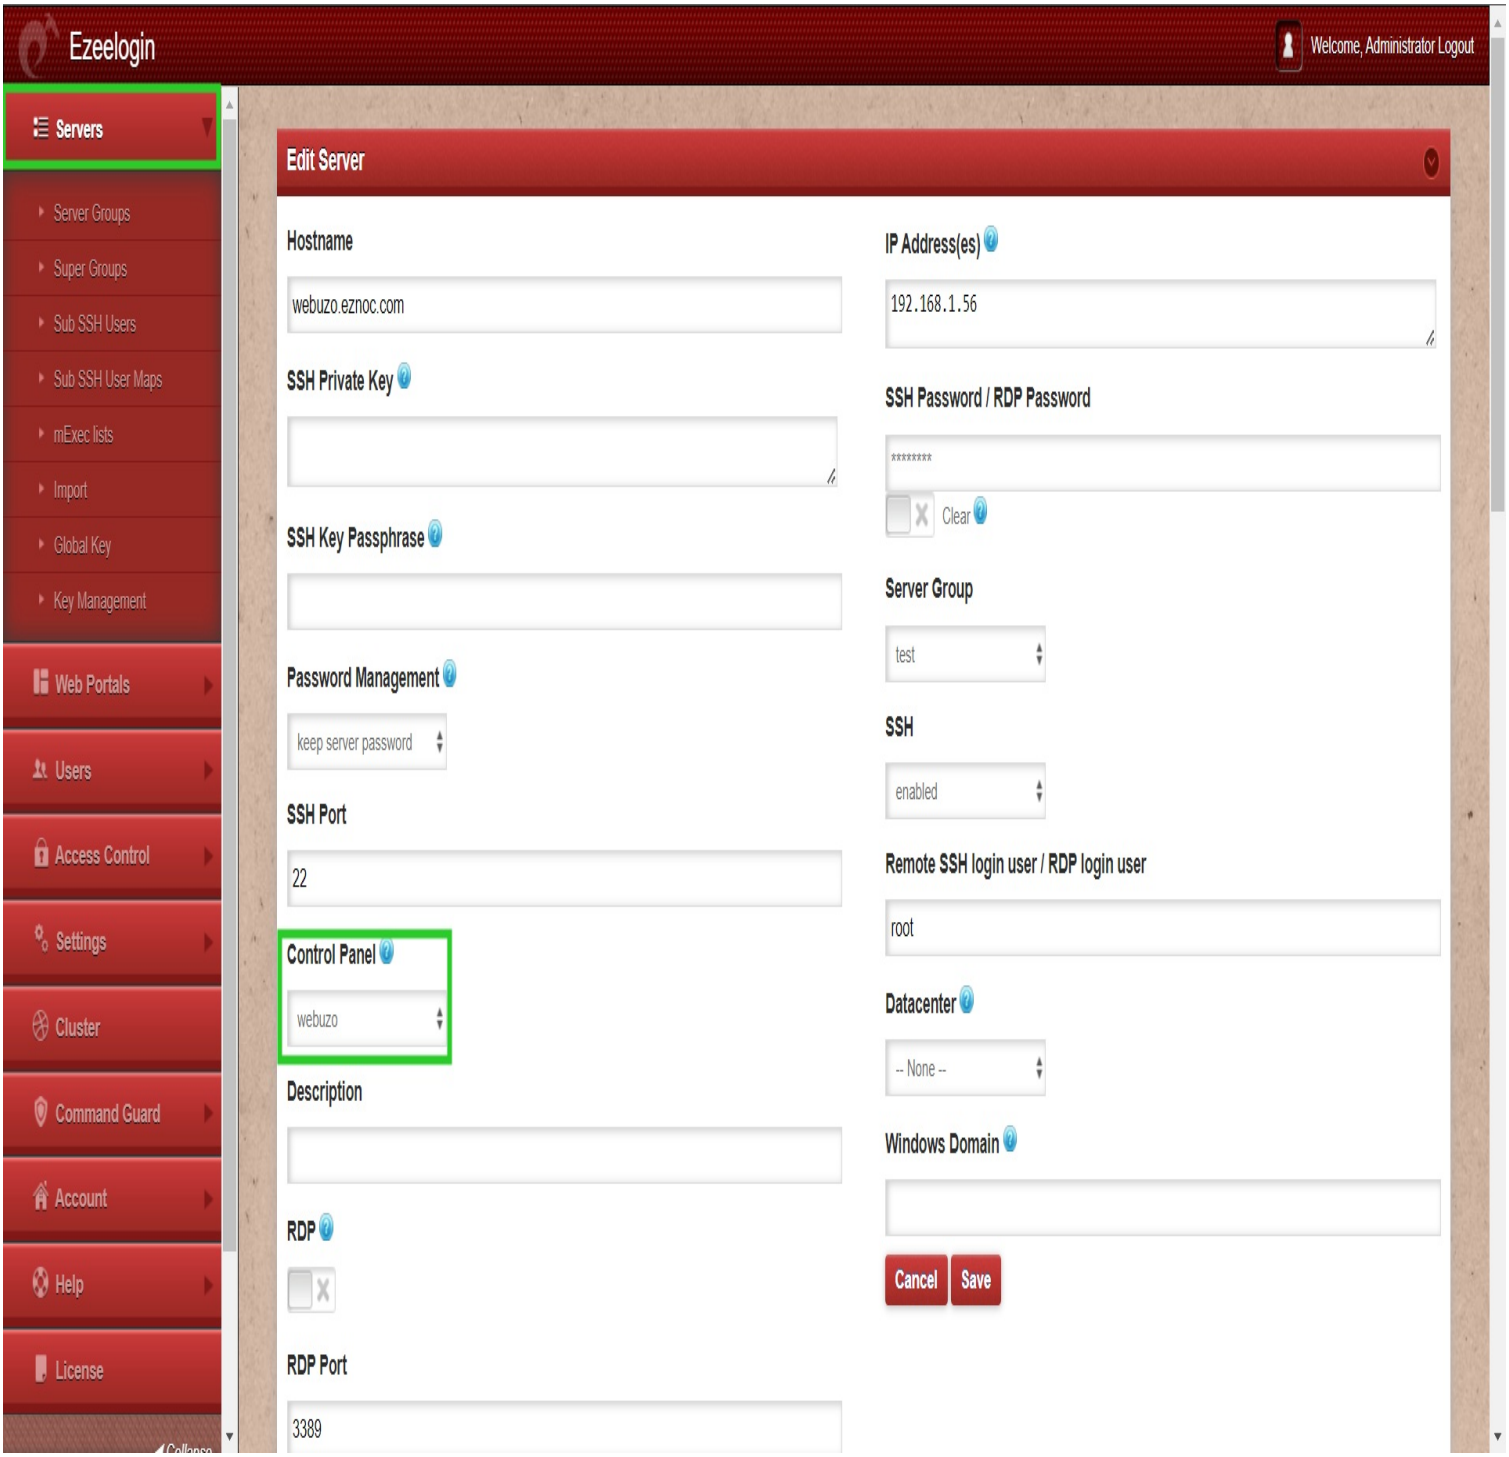

Overview: This article explains the integration of Webuzo as a control panel with Ezeelogin and provides steps to access it.

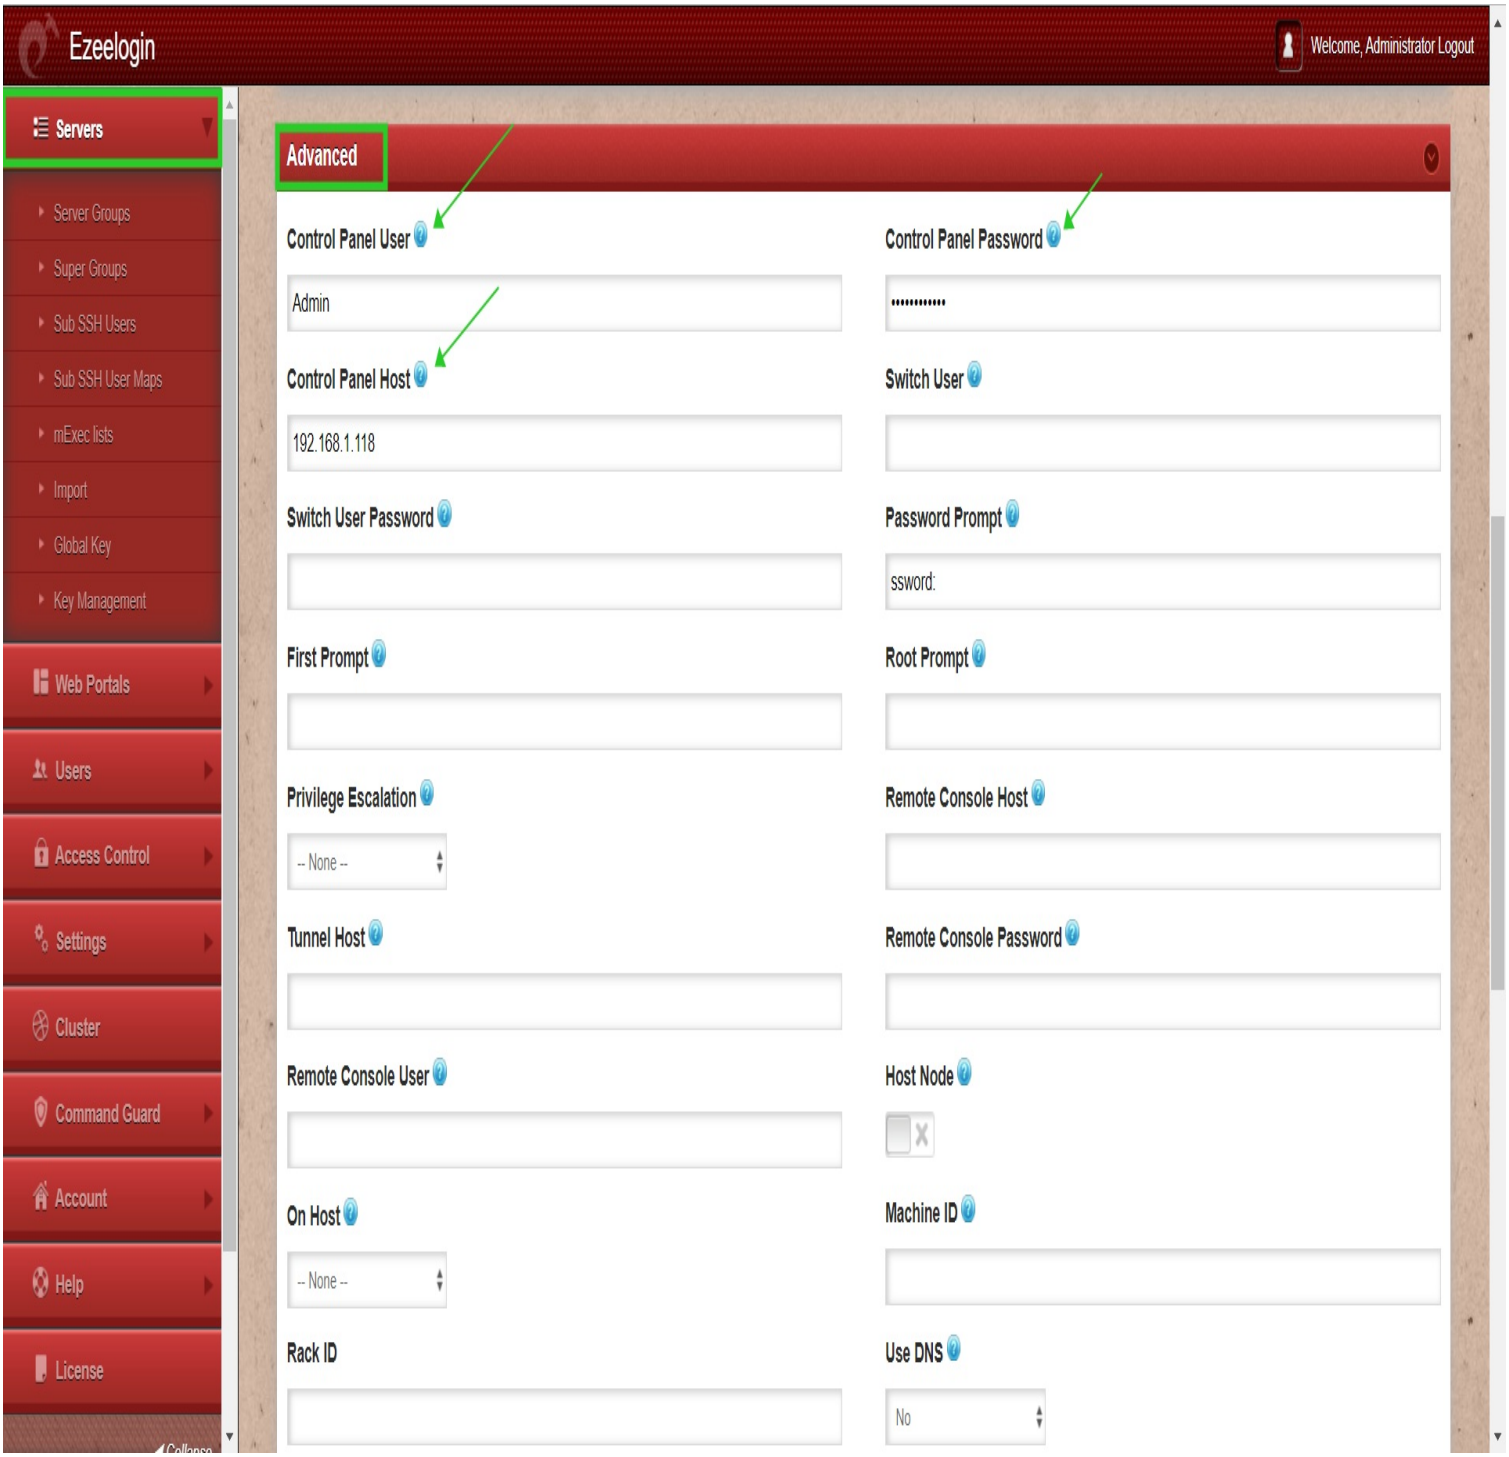

Step 1: To add Webuzo as a control panel, log in to the web GUI and navigate to **Settings** -> **Control Panels**. Fill out the form as shown in the screenshot below.

Step 2: Navigate to Servers tab and choose the added control Panel(webuzo) from the drop down menu and click on "Save".

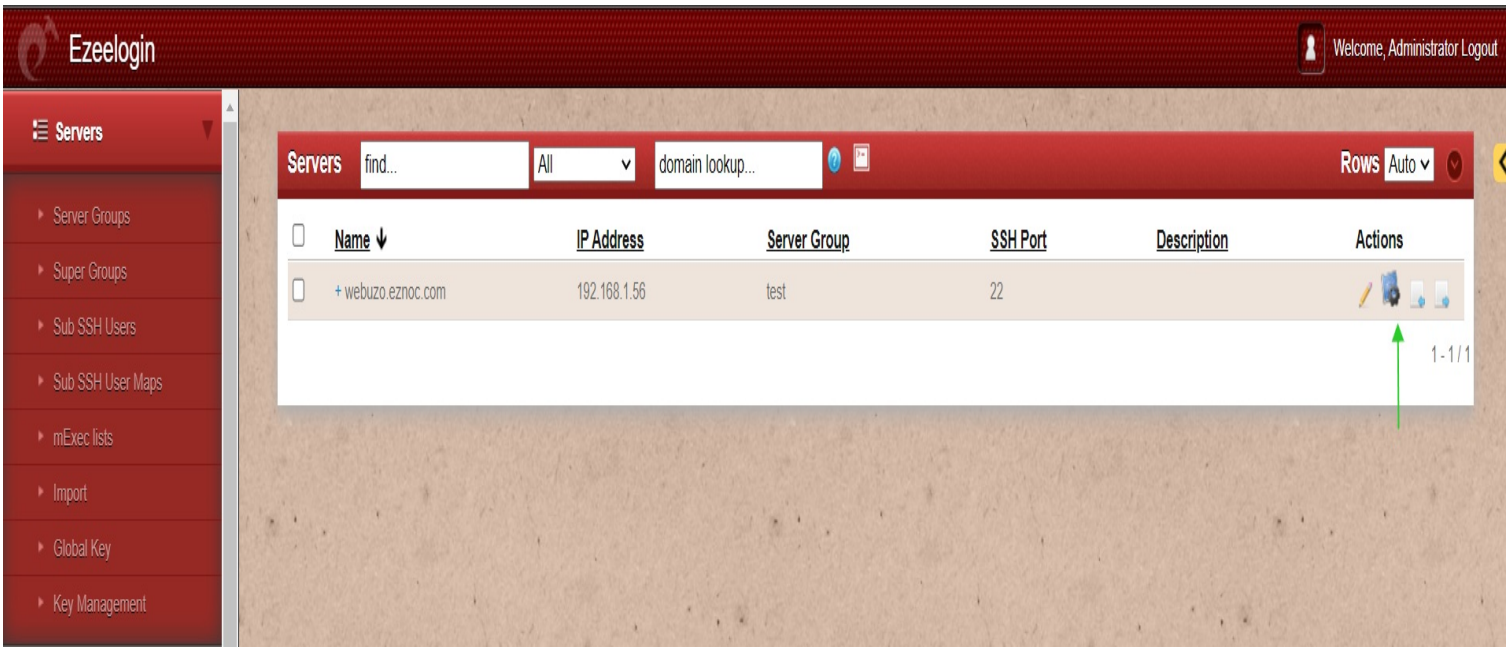

Step 3: If the control panel is installed on another/seperate server, make sure to provide the control panel details under **Advanced section**. Mention Control Panel user, Control Panel password, and Control Panel Host details. Then click on "Save." Refer to the screenshot below as an example:

Make sure to **disable** USE DNS and CP USE DNS. Login to **Web GUI** -> **Server** -> Under advanced section, change Use DNS and CP Use DNS to **NO**

Step 4: Click on the control panel icon for accessing Webuzo.
