

Adding Webuzo as ControlPanel in Ezeelogin

592 Arya March 27, 2025 [Features & Functionalities](#) 1610

How to add Webuzo as controlpanel?

Overview: This article explains the integration of Webuzo as a control panel with Ezeelogin and provides steps to access it.

Step 1: To add Webuzo as a control panel, log in to the web GUI and navigate to **Settings** -> **Control Panels**. Fill out the form as shown in the screenshot below.

Step 2: Navigate to Servers tab and choose the added control Panel(webuzo) from the drop down menu and click on "Save".

Step 3: If the control panel is installed on another/seperate server, make sure to provide the control panel details under **Advanced section**. Mention Control Panel user, Control Panel password, and Control Panel Host details. Then click on "Save." Refer to the screenshot below as an example:

Ezeelogin

Control Panel Host

192.168.1.118

Switch User Password

First Prompt

Privilege Escalation

-- None --

Tunnel Host

Remote Console User

On Host

-- None --

Rack ID

Control Panel Password

Switch User

Password Prompt

ssword:

Root Prompt

Remote Console Host

Remote Console Password

Host Node

Machine ID

Use DNS

No

Make sure to **disable** USE DNS and CP USE DNS. Login to **Web GUI -> Server ->** Under advanced section, change Use DNS and CP Use DNS to **NO**

The screenshot shows the Ezeelogin Web GUI interface. On the left is a sidebar with a 'Servers' menu. The main area displays configuration fields for a server. In the 'Advanced' section, the 'Use DNS' and 'CP Use DNS' dropdowns are highlighted with a green box, both set to 'No'. Other fields include 'Control Panel Host', 'Switch User Password', 'First Prompt', 'Privilege Escalation', 'Tunnel Host', 'Remote Console User', 'On Host', 'Rack ID', 'Comments', 'Switch User', 'Password Prompt', 'Root Prompt', 'Remote Console Host', 'Remote Console Password', 'Host Node', and 'Machine ID'.

Step 4: Click on the control panel icon for accessing Webuzo.

The screenshot shows the Ezeelogin Web GUI interface with the 'Servers' list. The table has columns: Name, IP Address, Server Group, SSH Port, Description, and Actions. A green arrow points to the control panel icon in the 'Actions' column for the server 'webuzo.eznoc.com'.

Name	IP Address	Server Group	SSH Port	Description	Actions
+ webuzo.eznoc.com	192.168.1.56	test	22		[Control Panel Icon]
