How to add Cyberpanel as web portal in Ezeelogin?

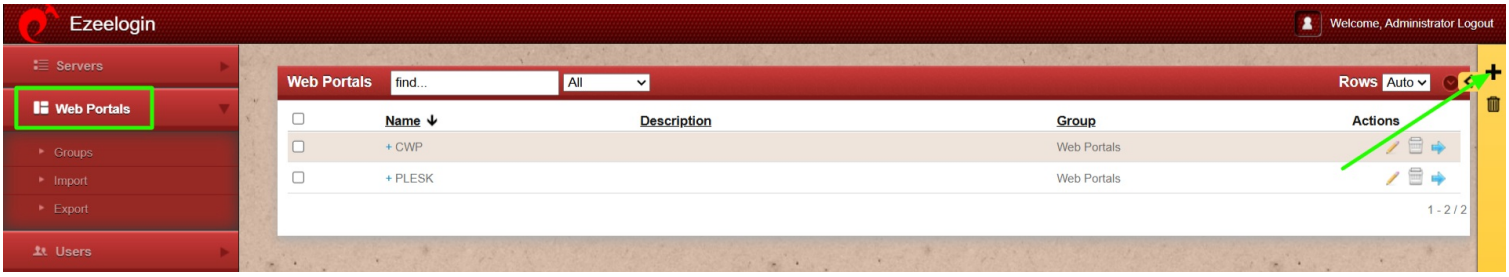

594 Jisna Joseph May 29, 2025 Features & Functionalities, Getting Started 8484

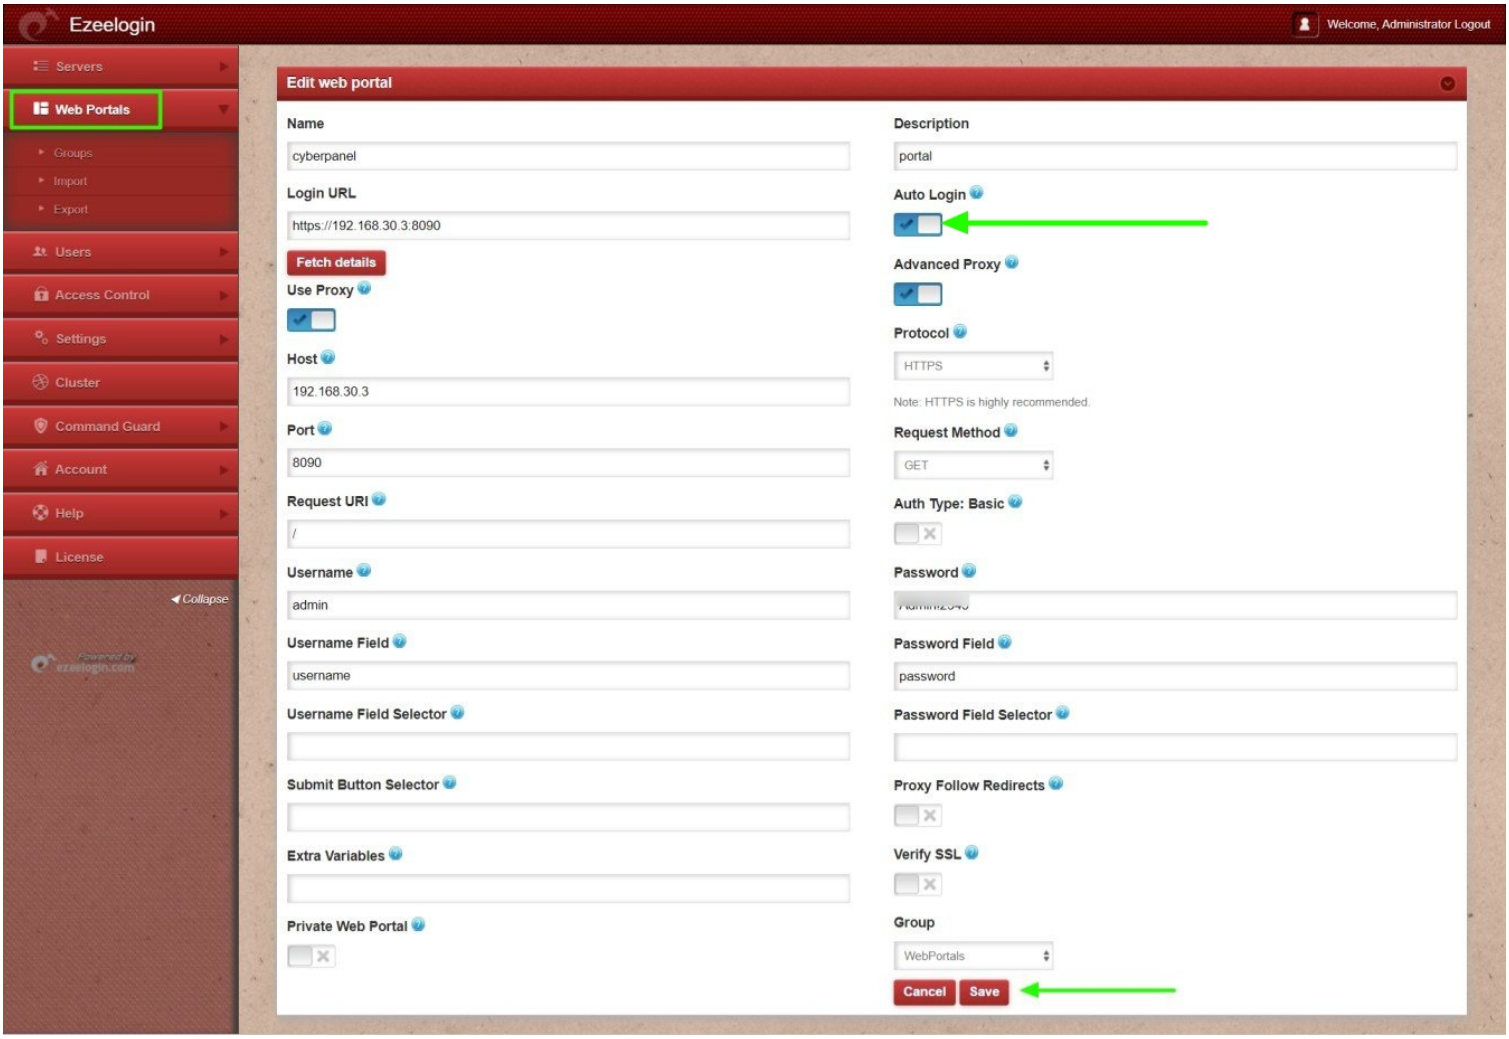

Adding Cyberpanel as webportal in Ezeelogin for autologin

Overview: This article explains how to add CyberPanel as a web portal in Ezeelogin with both autologin enabled and disabled.

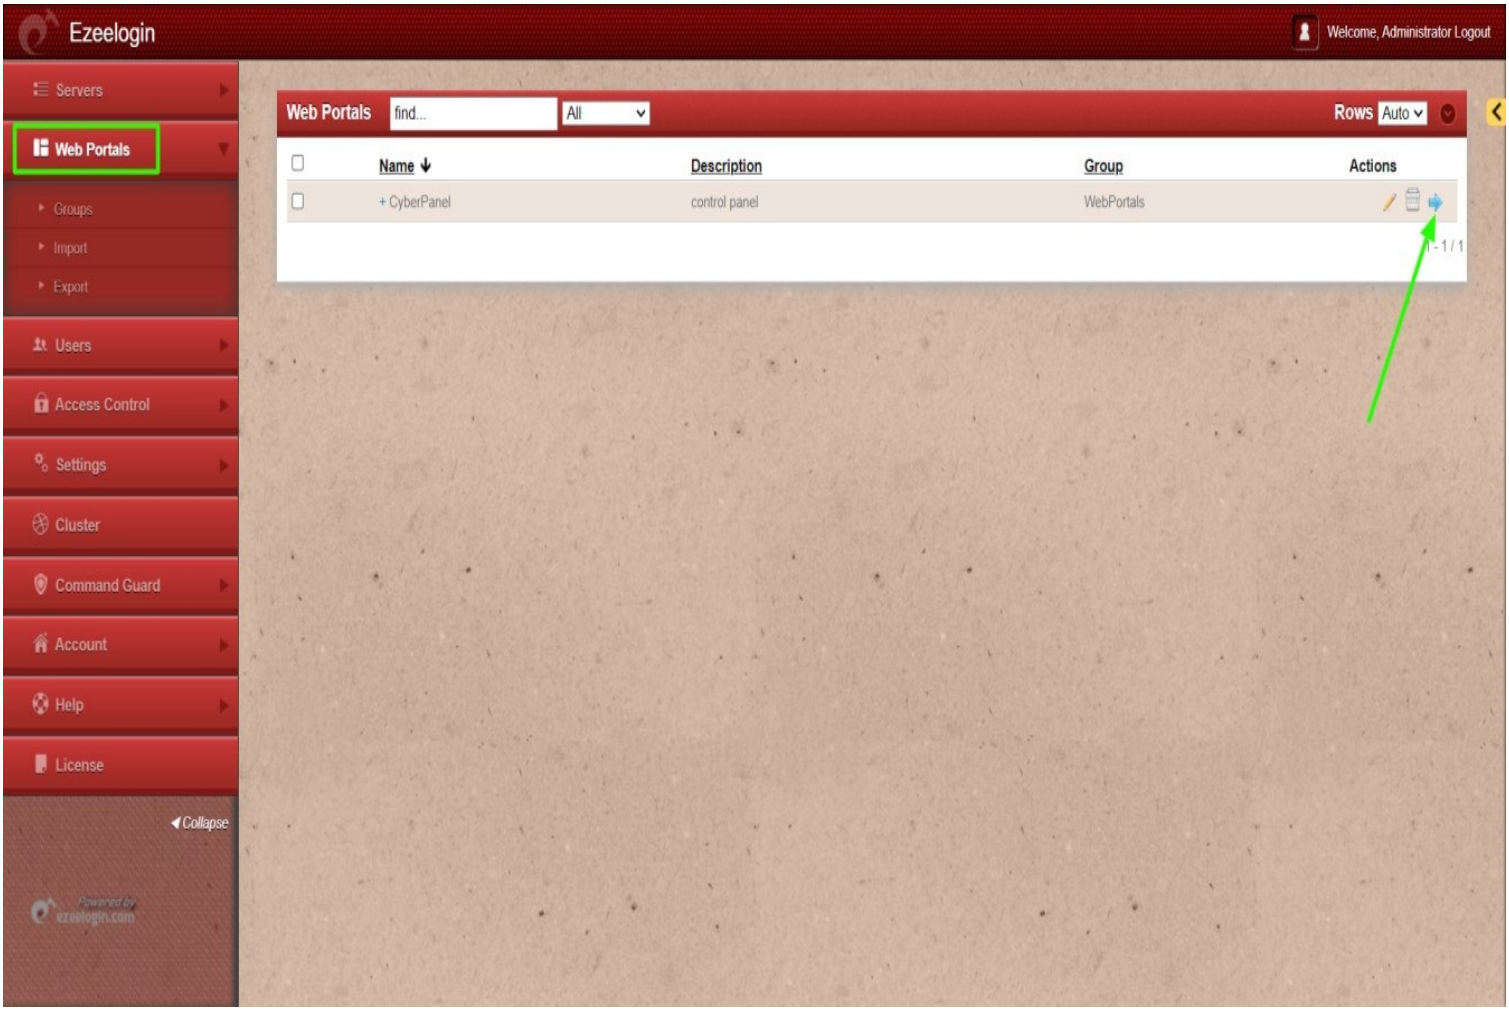

Step 1: Install cyberpanel in a server and follow the below steps.

Step 2: Login to **web GUI** -> Click on **Web Portals tab** -> **Add new Web Portal** with **Auto Login** enabled. Refer below screenshots to add Cyberpanel.

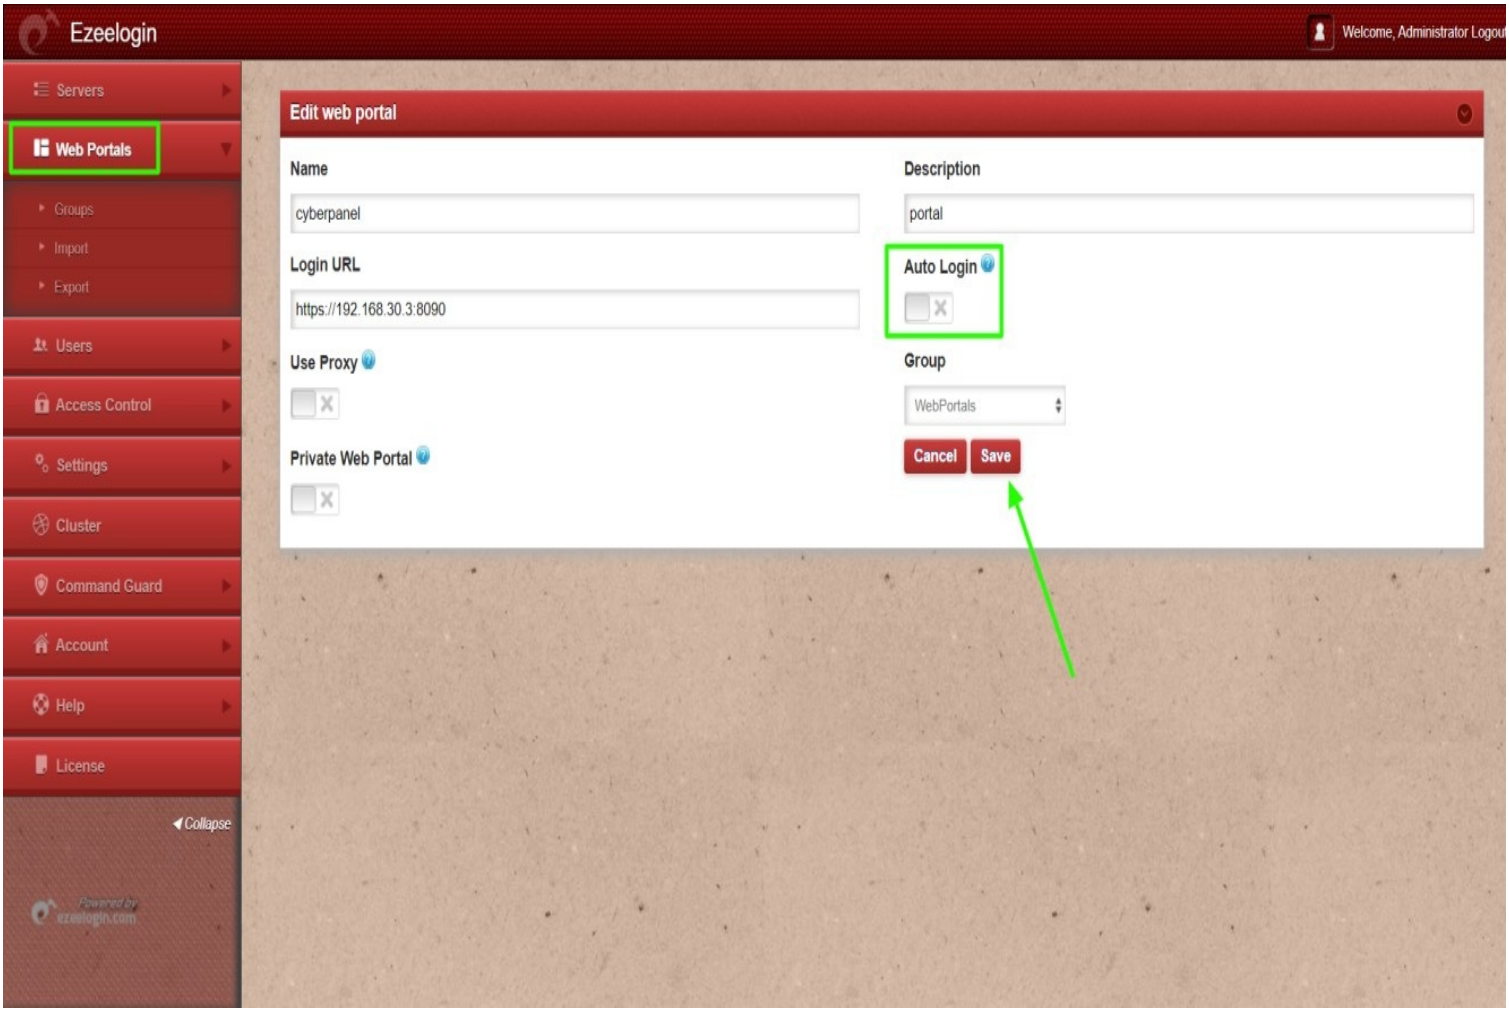

Step 3: After saving, click the Login button to access CyberPanel.

Step 4: To access CyberPanel without autologin, refer to the screenshot below to disable the AutoLogin option.

Cyberpanel will work only from Ezeelogin version 7.29.10

To **troubleshoot** issues related to the web portal, refer to Step 4 in the article linked below:
