# How to reset 2fa of an ezeelogin user?

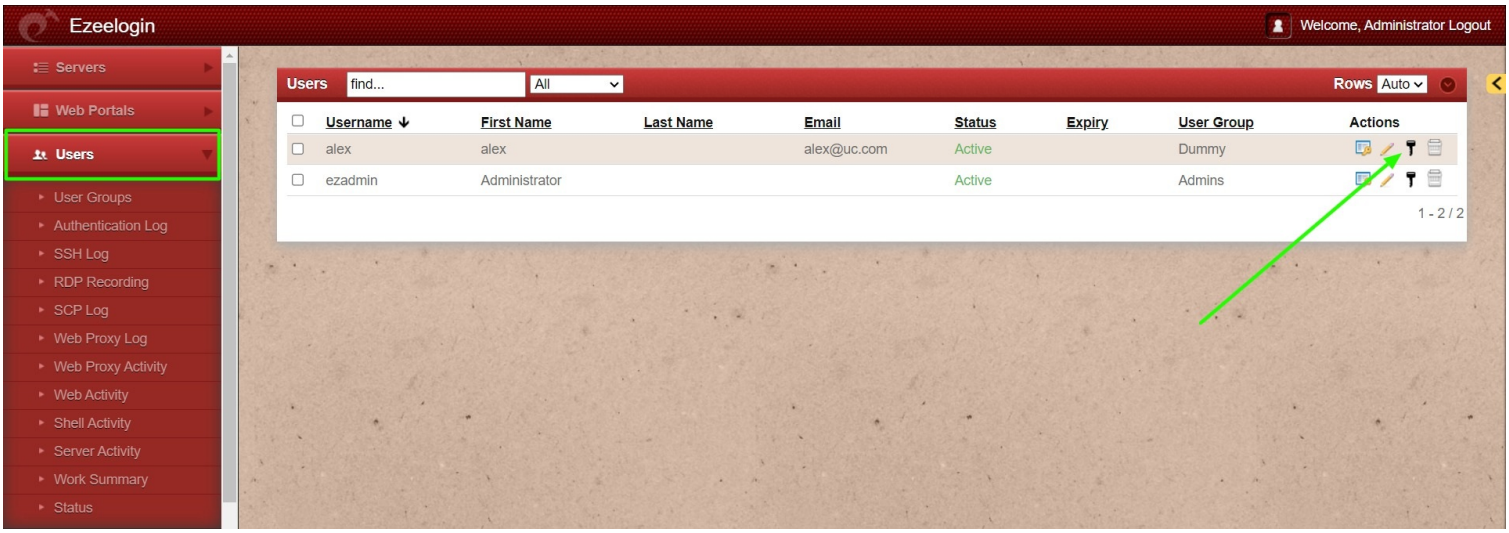

609 Manu Chacko July 8, 2026 Tweaks & Configuration 3925

## How to reset or clear the two-factor authentication for a gateway user?

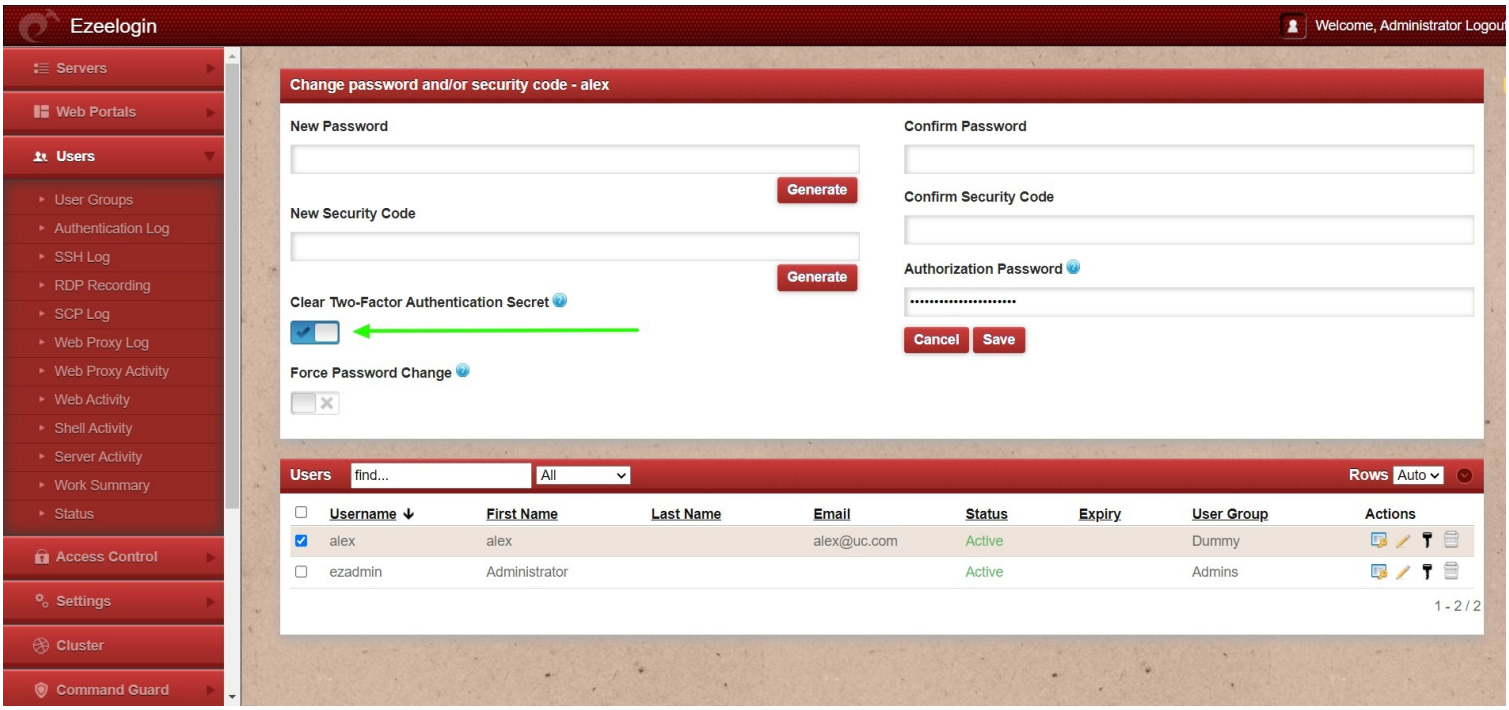

**Overview:** This article helps admin privileged user to reset or clear two-factor authentication (2FA) for a gateway user, including Google Authenticator(TOTP applications (e.g., Google Authenticator, Microsoft Authenticator, and others), YubiKey, and DUO, allowing the user to log in and reconfigure their 2FA settings.

This will clear/reset all the two-factor authentication mechanisms such as Google Authenticator(TOTP apps like Google Authenticator, Microsoft Authenticator, and others), YUBIKEY, and DUO Authenticator of the user.

**Step 1:** Login as admin privileged user to web GUI and click on the reset password icon of the gateway user.

**Step 2:** Enable **Clear Two-Factor Authentication Secret** and save it. Now the user will be able to login to the web GUI and set a new 2FA.

**Step 3:** Re-login to the web GUI as the gateway user, and the user can set up their Authenticator Applications(e.g., Google Authenticator, Microsoft Authenticator, and others), DUO, Yubikey or access keyword again.
