Adding Jira as web portal in Ezeelogin

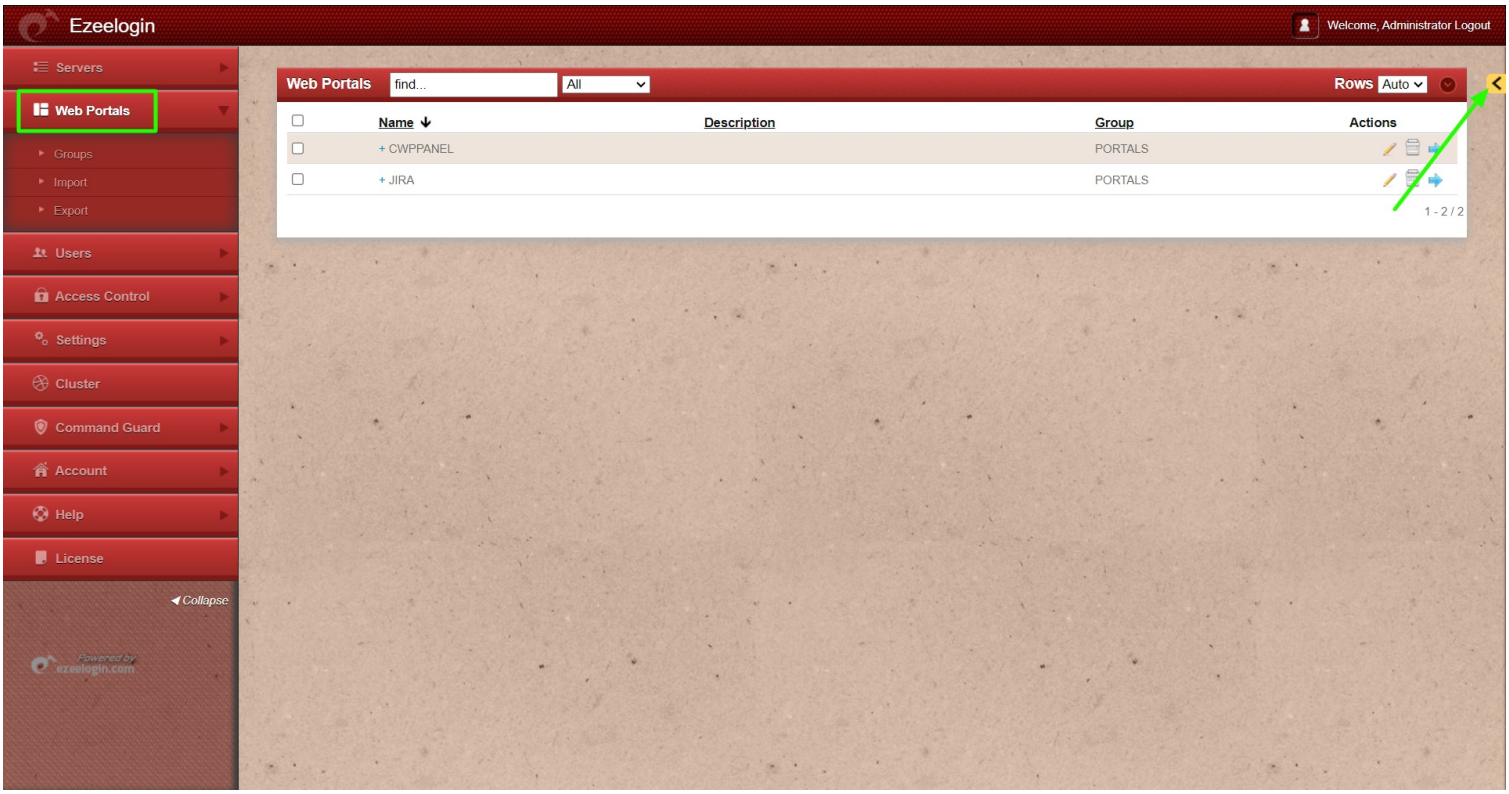

620 Jisna Joseph May 29, 2025 Features & Functionalities 3925

How to add Jira as web portal hosted on internal network with Ezeelogin web proxy?

Overview: This article explains how to add Jira as a web portal in Ezeelogin using the built-in web proxy to enable secure internal access through the Web Portals feature.

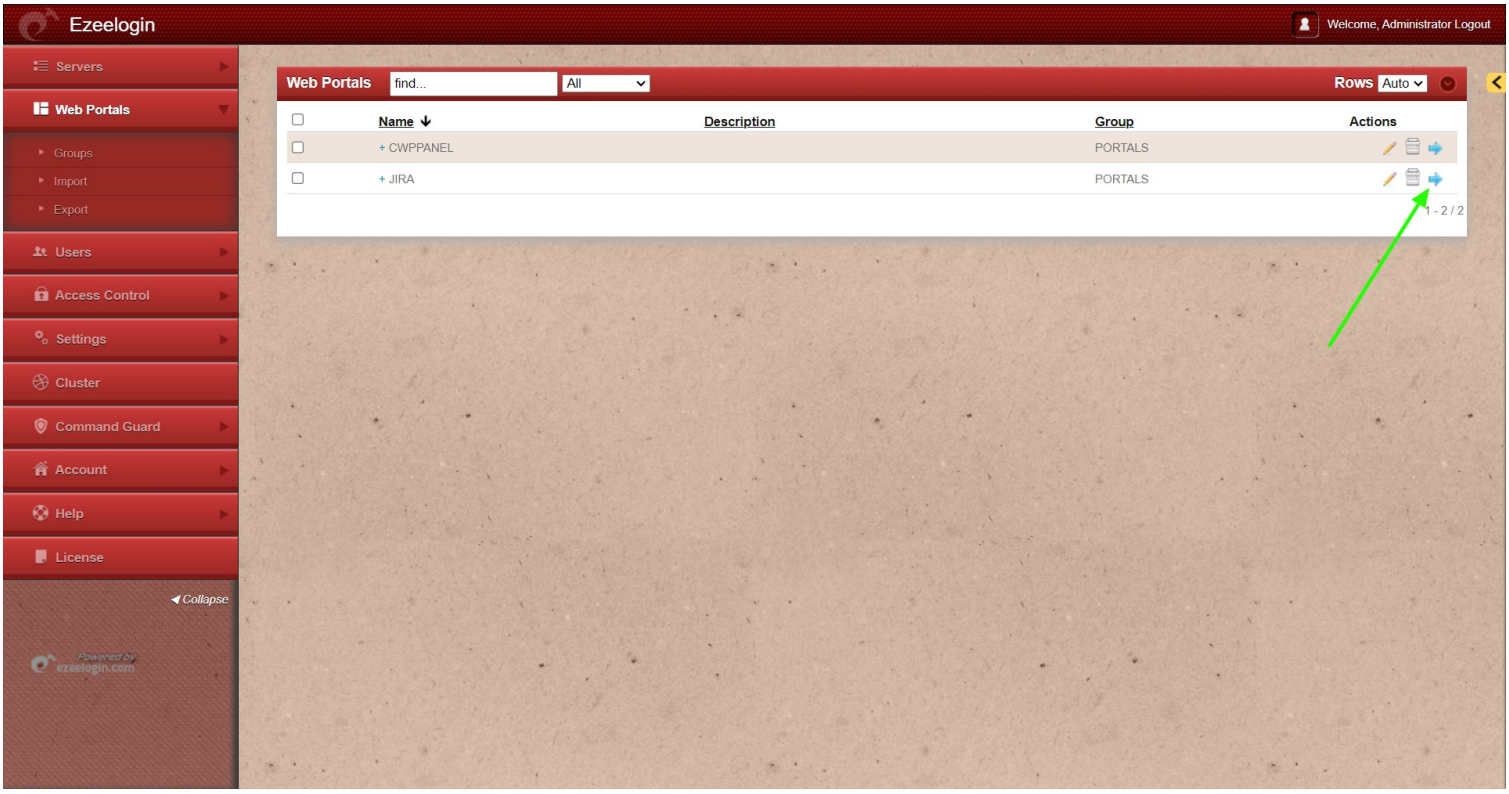

Webproxy, Webpanel, Webportal, Controlpanel

Step 1: Login to **Ezeelogin GUI** -> Click on **Web Portals** tab -> **Add new** Web Portal.

Step 2 : Provide the **web portal name**, **Login URL** of the web portal, Enable **use proxy** and click on **SAVE**. Refer below screenshot to add Jira as web portal in Ezeelogin with **use proxy** enabled

Step 3: After saving click on **Login** button of the web portal

To **troubleshoot** issues related to the web portal, refer to Step 4 in the article linked below:
