

# View users in a specific user group

## How to view users in a specific user group?

You can utilize the search button to display members belonging to a particular user group.

Choose **User Group** from the **dropdown** menu and enter the specific **user group's name** to locate members belonging to that particular user group.

You can also generate [user reports](#) as csv files to view users in a specific user group. Run the below command after generating the user report

```
filename.
```

Replace "**filename**" with the name of your generated CSV file and "**usergroup\_name**" with the specific user group.

For example

The above command will help you identify all the members who belong to the user group 'Admins' within your generated user report which is named **GroupAdmins.csv**.
