Adding ControlPanels

Overview: This article helps gateway users in adding and accessing various control panels in Ezeelogin.

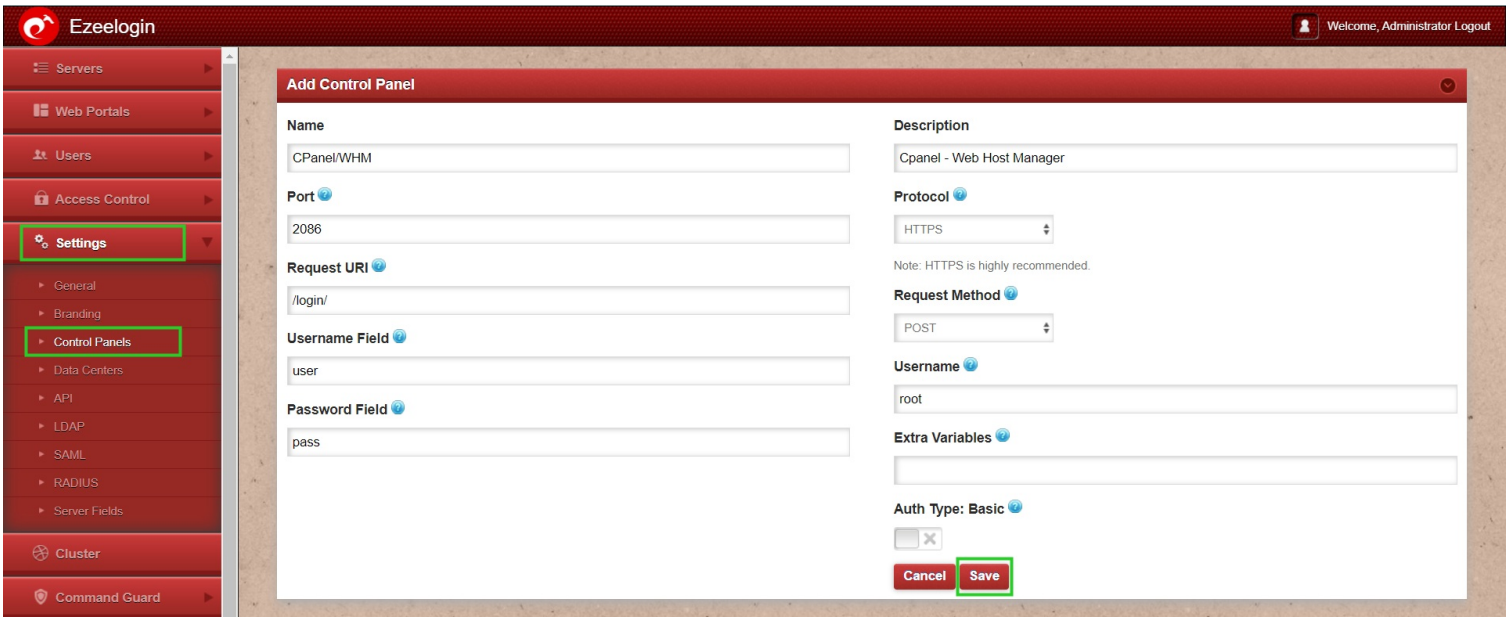

Control Panel is a web-based interface that is used for server management. Examples of control panels are Cpanel, Plesk, Webmin, etc. For adding a control panel request URI is enough. A control panel is needed to add once, also we can select the control panel at the time of adding or editing the server, When we are accessing the control panel it uses the details of the server to which the control panel is added.

Here are the multiple ControlPanels that can be added. These portals can also be added as web portals.

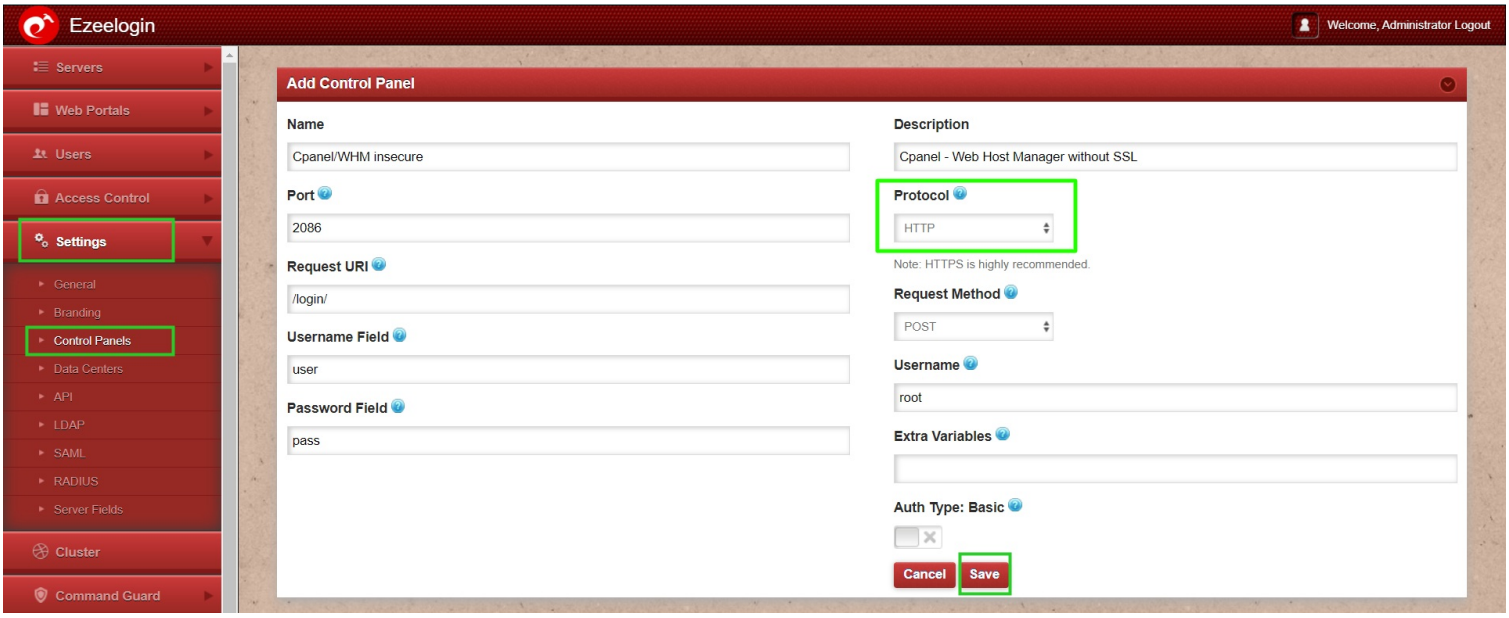

1. How to add CPanel/WHM as ControlPanel?

1(A): Refer to the screenshot below to add **CPanel/WHM** as ControlPanel.

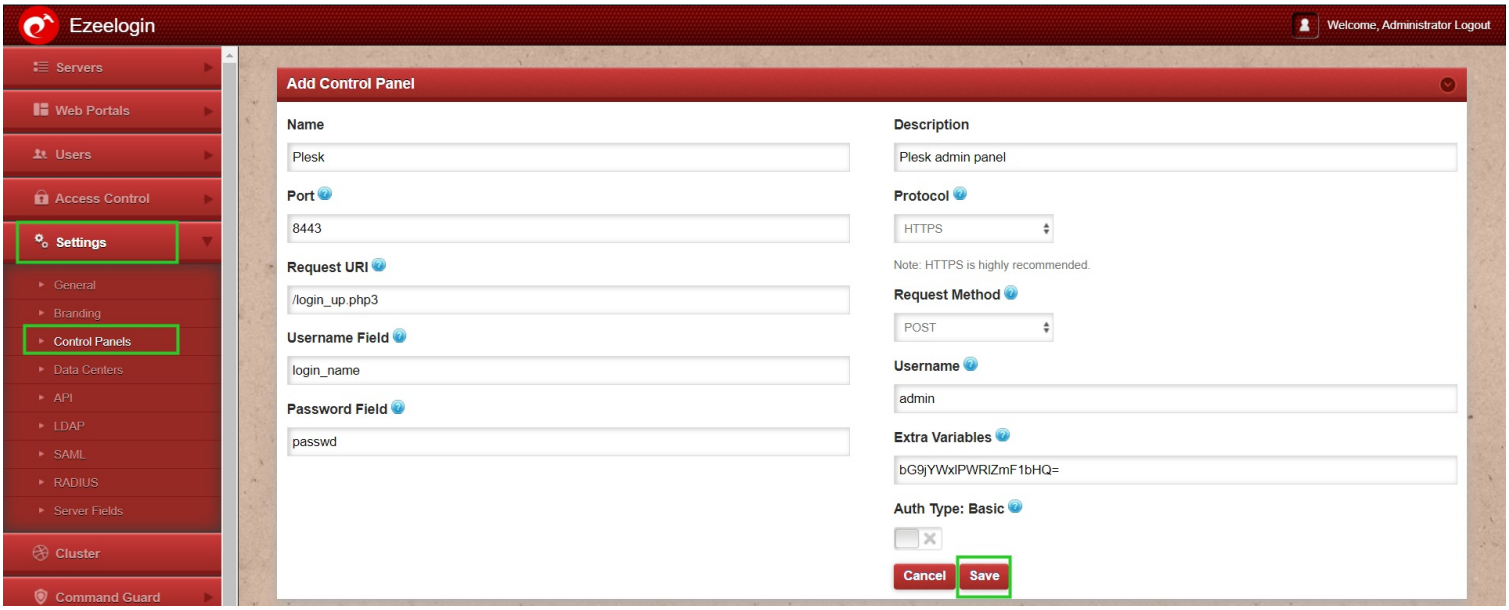

1(B): Refer to the screenshot below to add **CPanel/WHM without SSL** as ControlPanel.

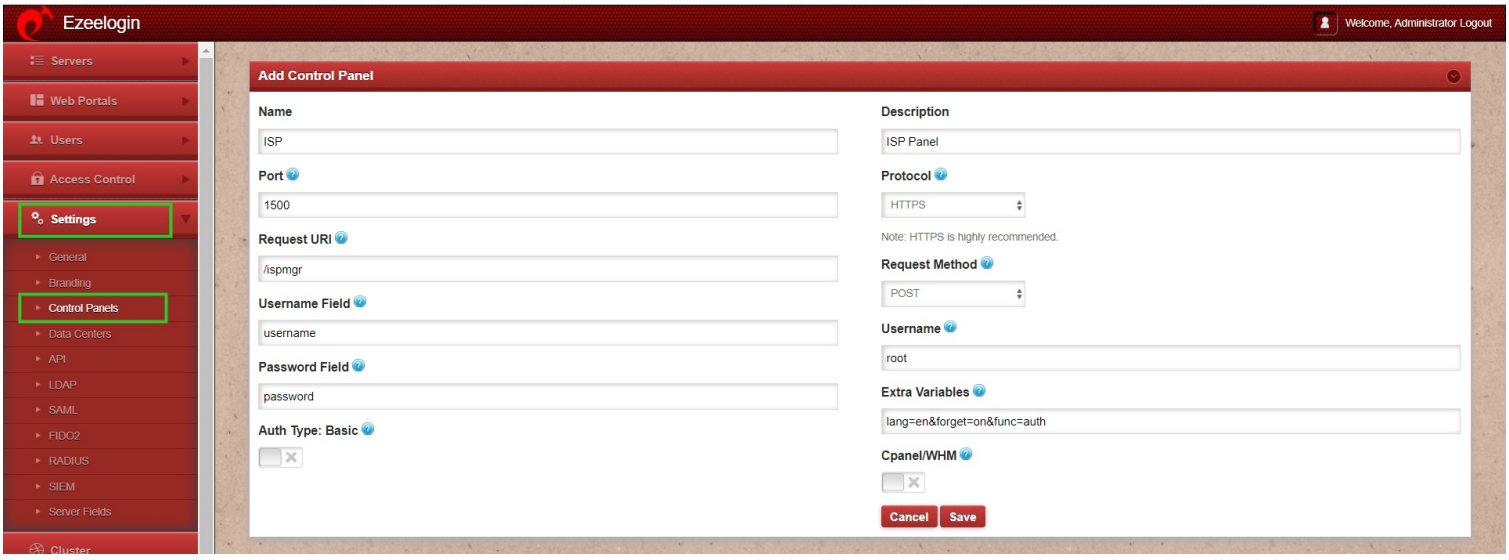

2. How to add Plesk as ControlPanel?

Refer to the screenshot below to add **Plesk** as ControlPanel.

3. How to add ISP as ControlPanel?

Refer to the screenshot below to add **ISP** as ControlPanel.

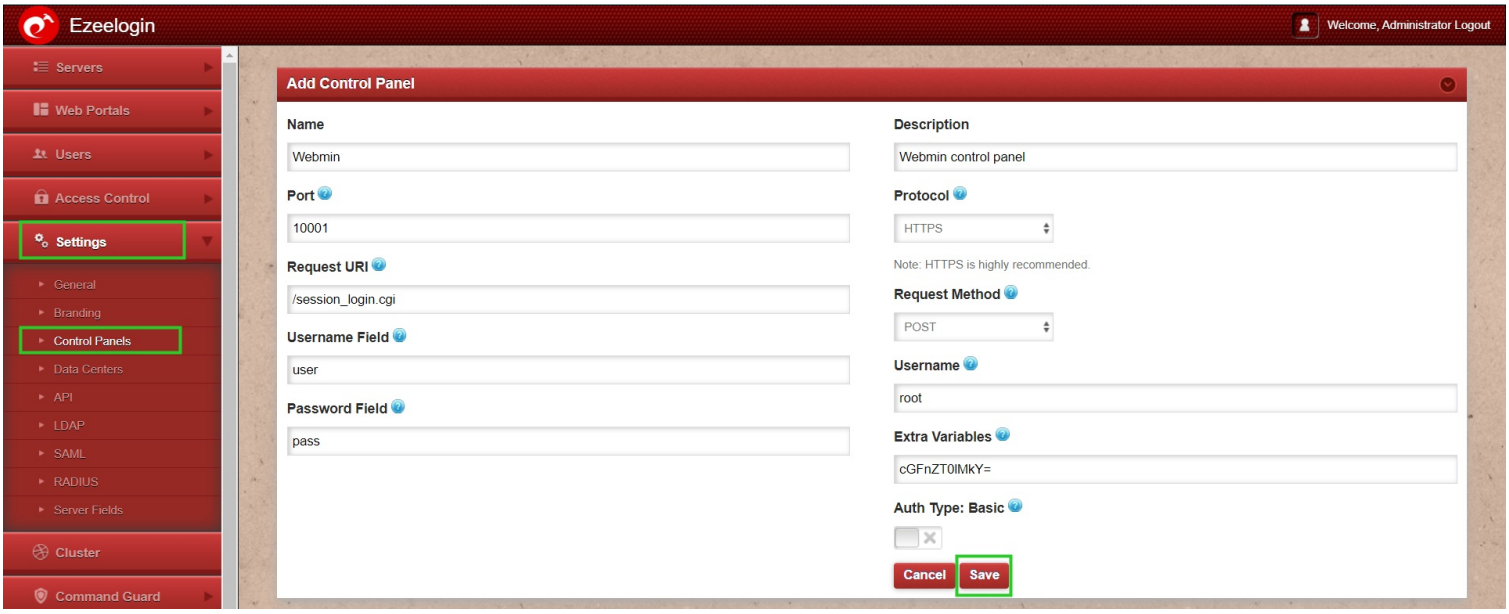

Extra variable for ISP:-

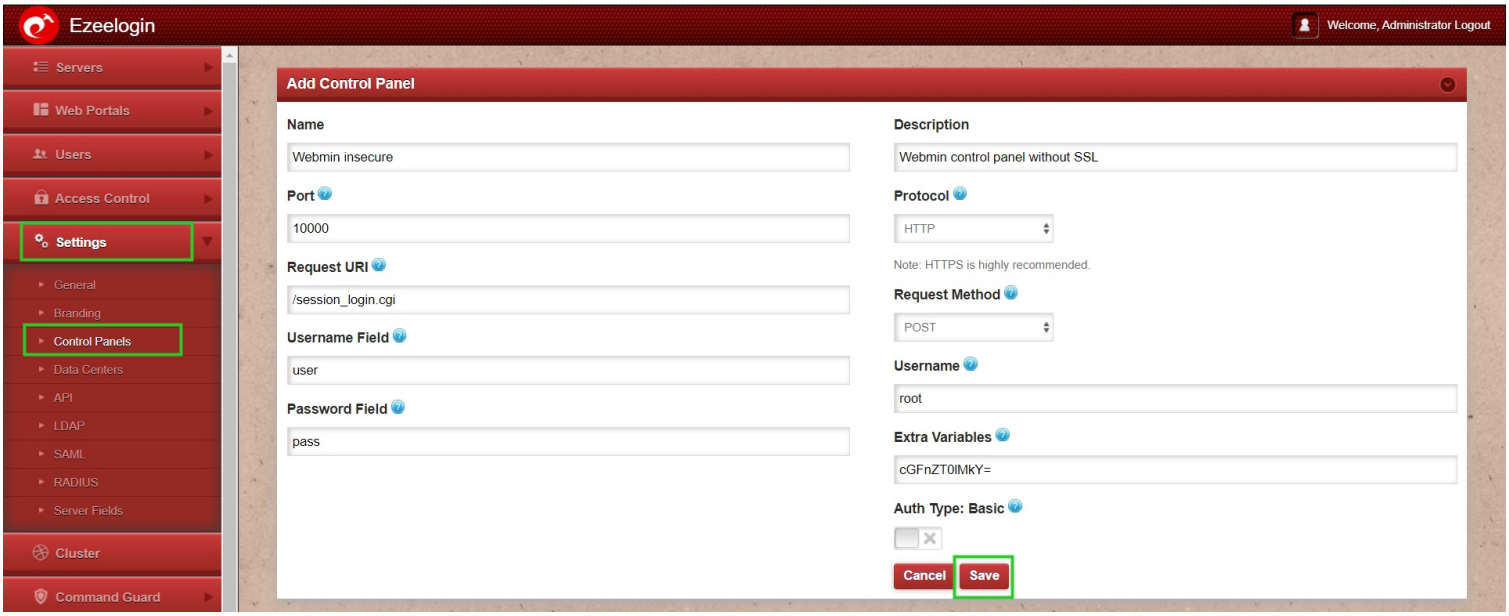

lang=en&forget=on&func=auth

4. How to add Webmin as ControlPanel?

4(A): Refer to the screenshot below to add **Webmin** as ControlPanel.

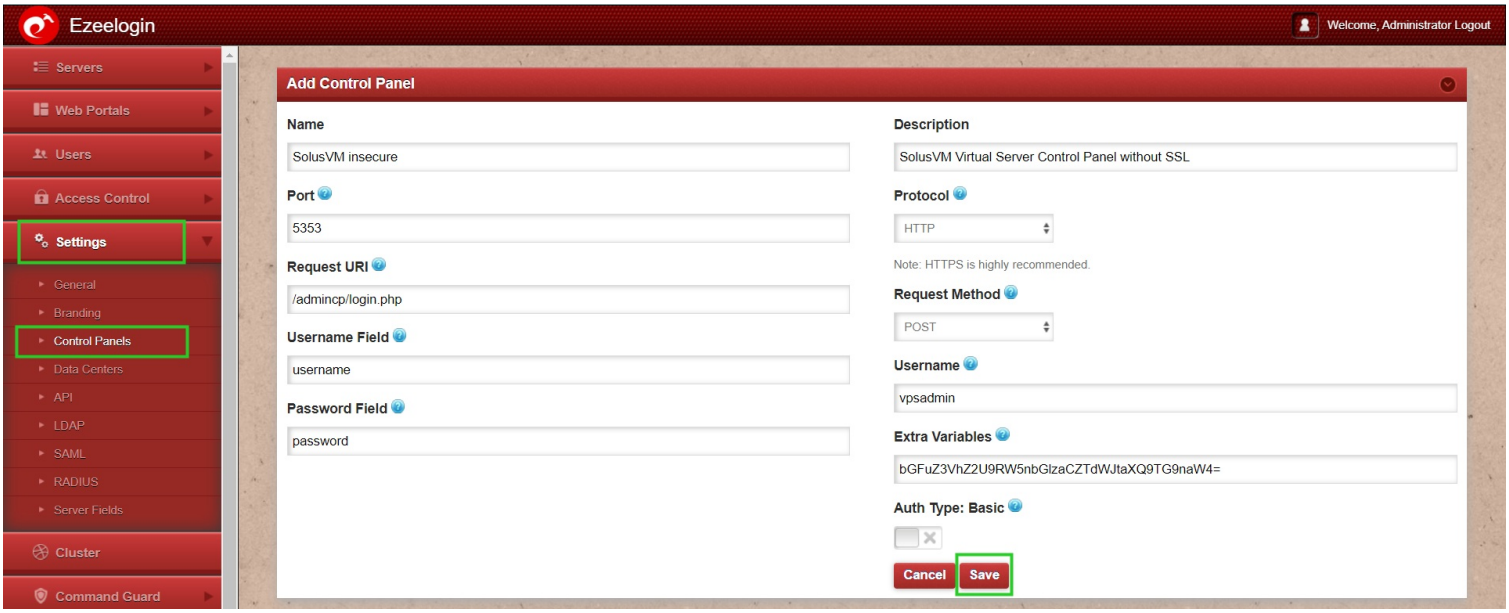

4(B): Refer to the screenshot below to add **Webmin insecure** as ControlPanel.

5. How to add SolusVM as ControlPanel?

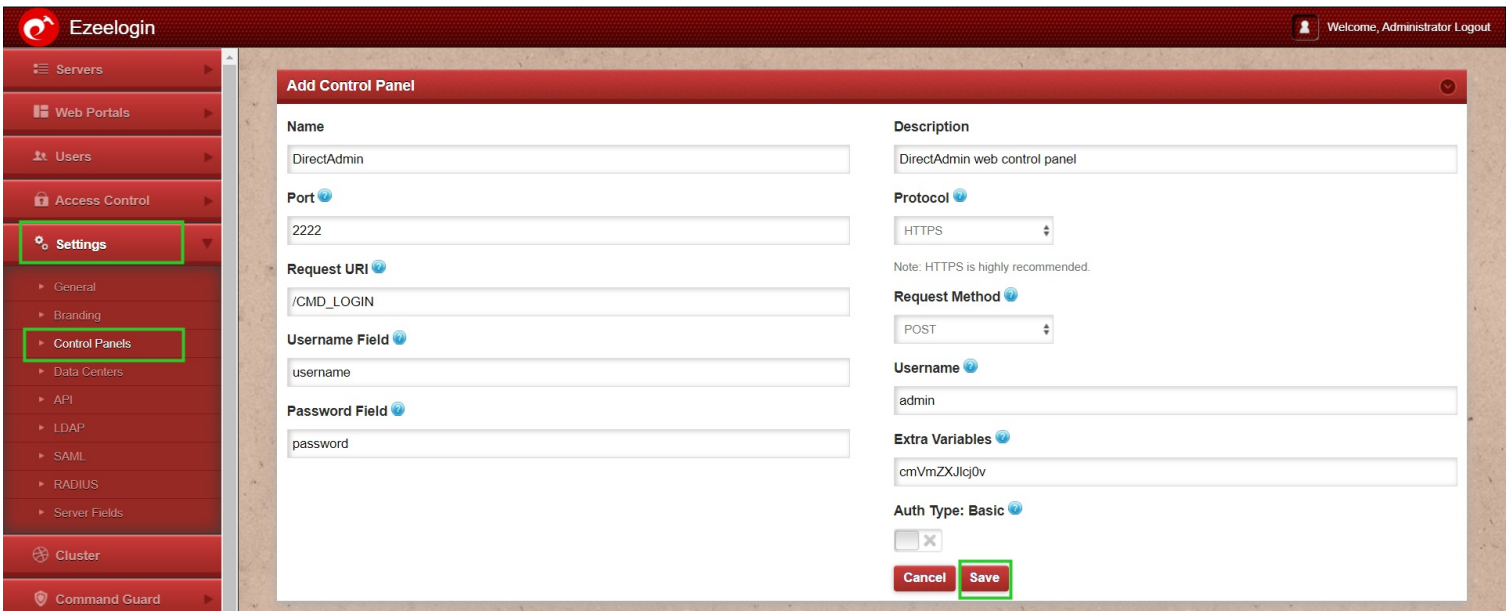

5(A): Refer to the screenshot below to add **SolusVM** as ControlPanel.

5(B): Refer to the screenshot below to add **SolusVM insecure** as ControlPanel.

6. How to add DirectAdmin as ControlPanel?

Refer to the screenshot below to add **DirectAdmin** as ControlPanel.

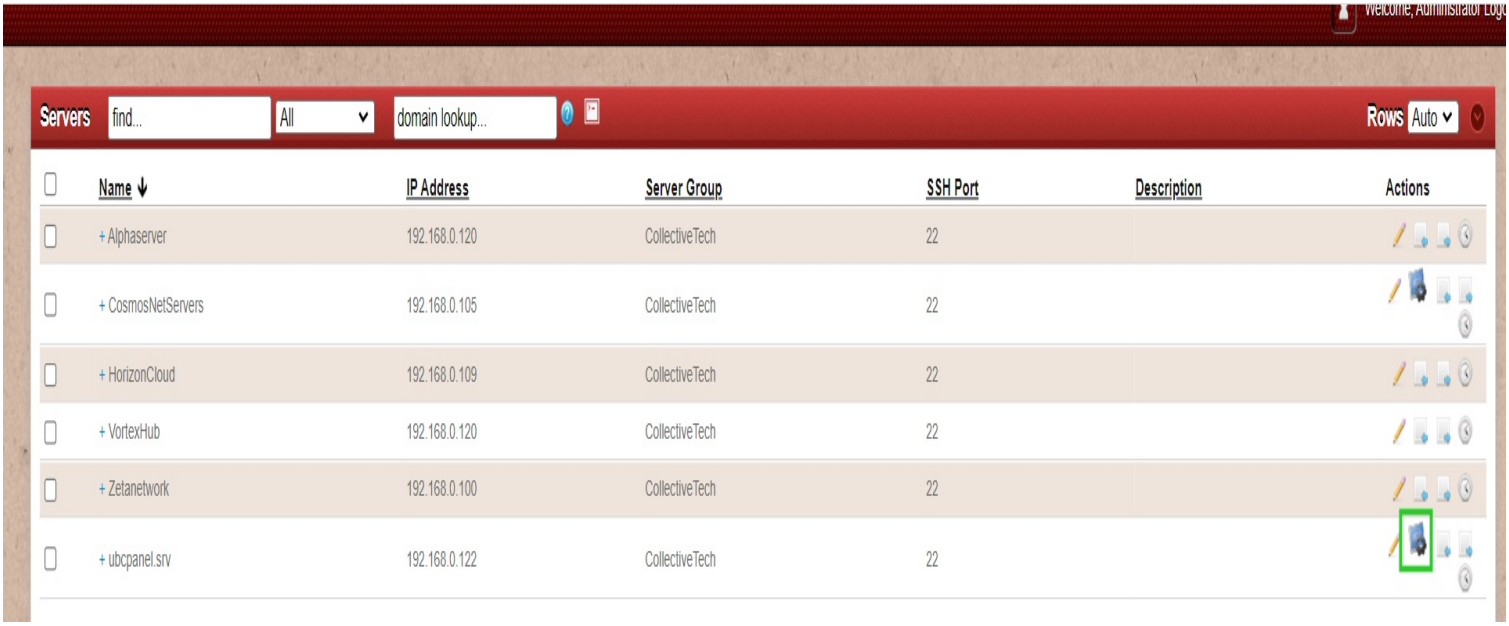

After Adding the control panel accordingly, navigate to the **Servers tab** and select the control panel from the drop-down menu. Refer below screenshot for example:

Note that If the control panel is installed on another/seperate server, make sure to provide the control panel details under Advanced section. Mention control panel user, control panel password, and control panel host details. Then click on "Save." Refer to the screenshot below as an example:

Refer to the article on how to grant users access to the Control Panel.

Click on the control panel icon to access any of the control panel that you have added.
