

# Map Okta attributes to Ezeelogin

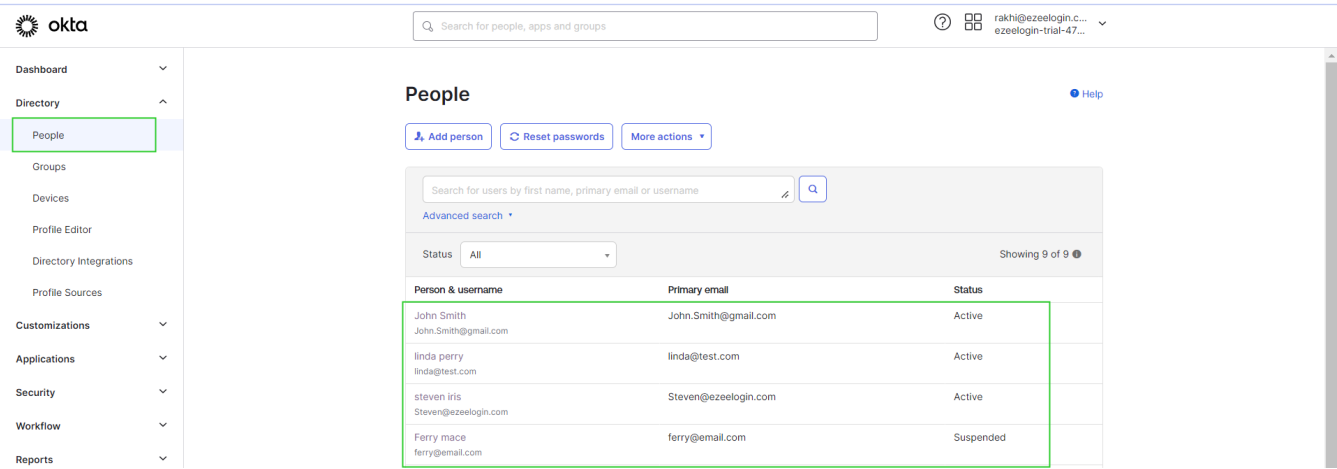

663 Rakhi April 17, 2025 [Features & Functionalities](#) 1611

## How to map Okta attributes to Ezeelogin

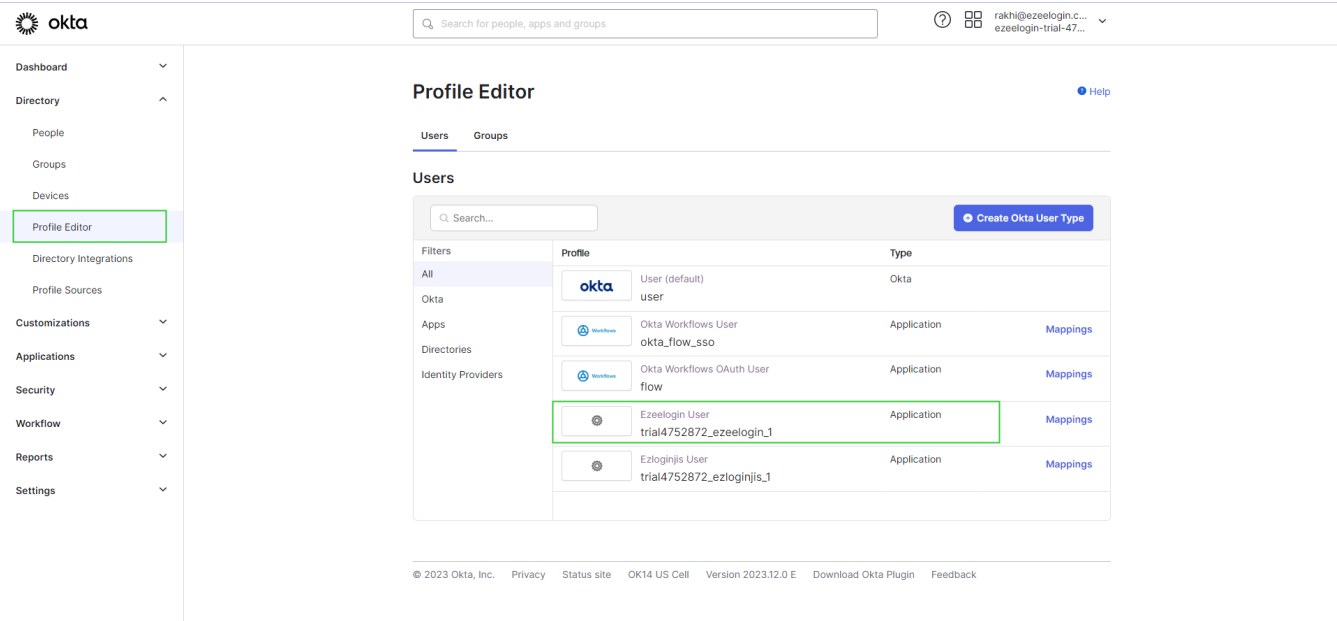

**Overview:** This article describes how to map Okta username and group attributes to Ezeelogin.

### 1. How to map okta username attributes to Ezeelogin

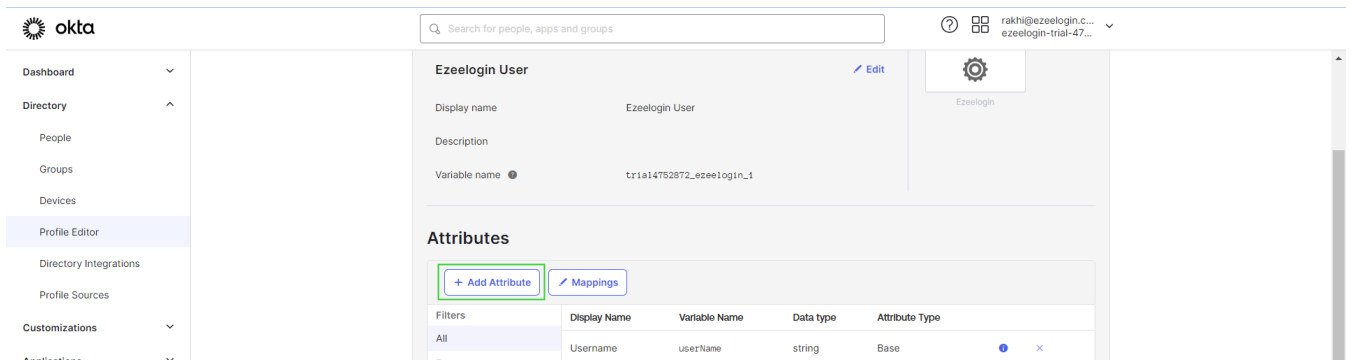

**Step 1:** Below are a few users that we have in Okta.

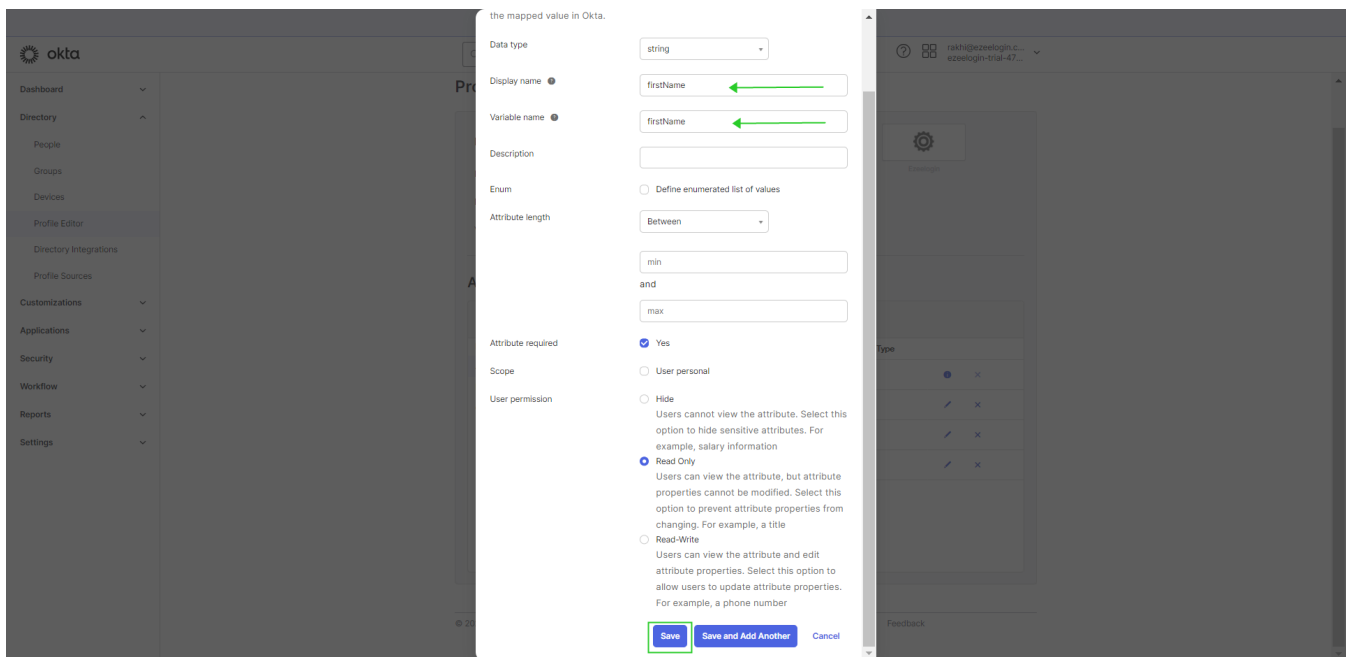

**Step 2:** Navigate to the Profile Editor option and click on your Application.

**Step 3:** Click on Add attribute.

**Step 4:** Provide the attribute values as follows and save them.

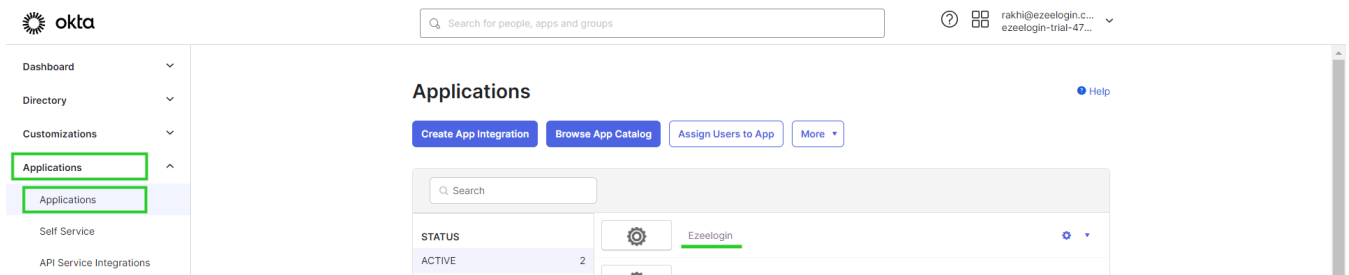

**Step 5:** Similarly, create the attributes for lastName.

**Attributes**

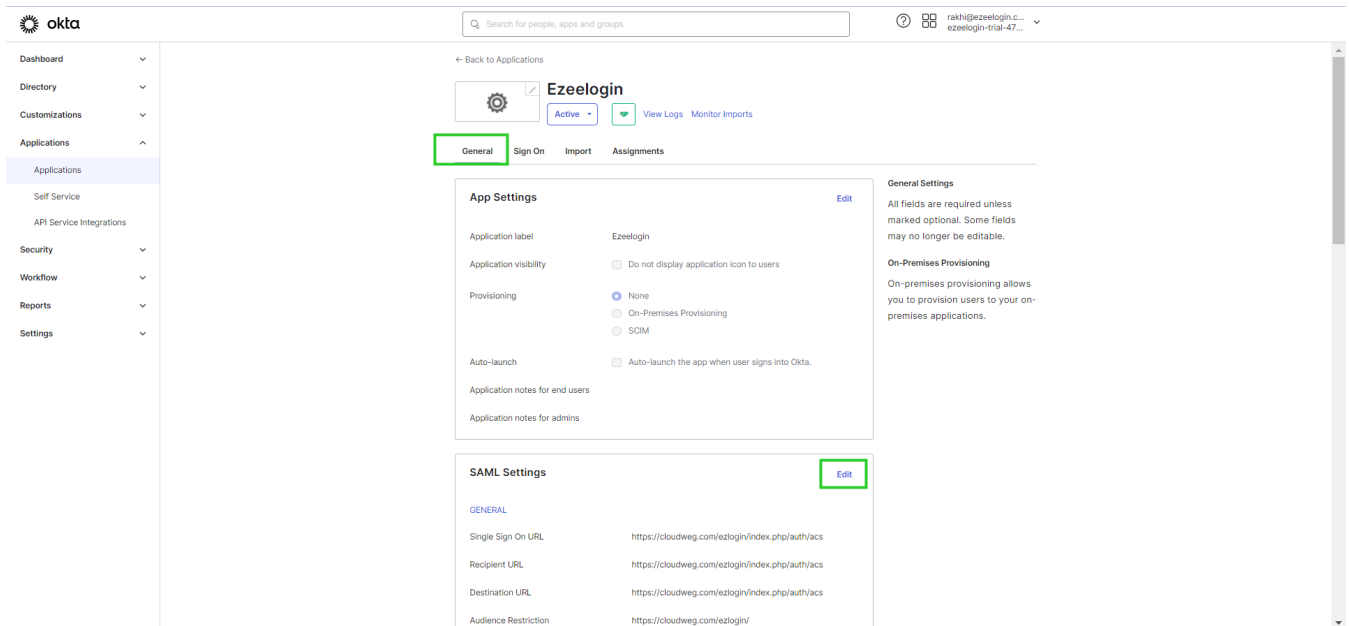

[+ Add Attribute] [Mappings]

Filters	Display Name	Variable Name	Data type	Attribute Type
All	Username	userName	string	Base
Base	firstName	firstName	string	Custom
Custom	lastName	lastName	string	Custom

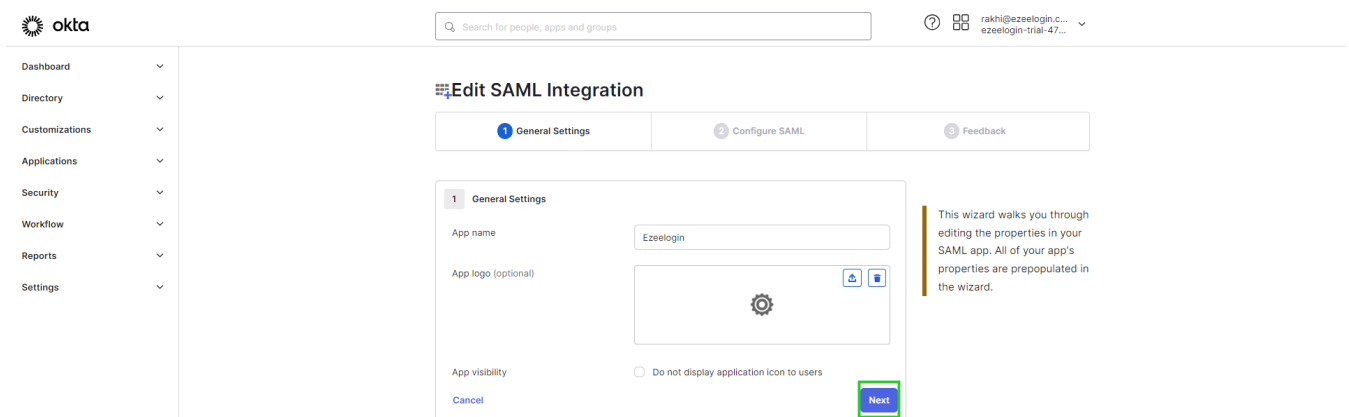

**Step 6:** Navigate to Application > Applications > Choose your Application.

**Step 7:** Click on General > Edit Saml Settings.

**Step 8:** Click Next under General Settings.

**Step 9:** In Configure SAML, Add the same attribute statements as shown below. Click Next > Finish.

- Dashboard
- Directory
- Customizations
- Applications
- Security
- Workflow
- Reports
- Settings

rakhi@ezeelogin.c...  
ezeelogin-trial-47...

This form generates the XML needed for the app's SAML request.

**Where do I find the info this form needs?**

The app you're trying to integrate with should have its own documentation on using SAML. You'll need to find that doc, and it should outline what information you need to specify in this form.

**General**

Single sign-on URL  ☒ Use this for Recipient URL and Destination URL

Audience URI (SP Entity ID)

Default RelayState    
 If no value is set, a blank RelayState is sent

Name ID format

Application username

Update application username on

[Show Advanced Settings](#)

**Attribute Statements (optional)** [LEARN MORE](#)

Name	Name format (optional)	Value
firstName	Unspecified	user.firstName
lastName	Unspecified	user.lastName

[Add Another](#)

## Edit SAML Integration

1 General Settings

2 Configure SAML

3 Feedback

3 Help Okta Support understand how you configured this application

Are you a customer or partner?

☒ I'm an Okta customer adding an internal app
 ☐ I'm a software vendor. I'd like to integrate my app with Okta

The optional questions below assist Okta Support in understanding your app integration.

App type

☒ This is an internal app that we have created
 ☐ This is an external app that we have created

### Why are you asking me this?

This form provides Okta Support with useful background information about your app. Thank you for your help—we appreciate it.

**Step 10:** In Ezeelogin web GUI. Navigate to settings > SAML > Add the listed attributes that were created in Okta and provide the same as follows as shown below and save it.

**Step 10:** Relogin to Ezeelogin GUI with okta user credentials.

## 2. How to map Okta users to the same user group in Ezeelogin

**Step 1:** Create an identical user group as in Okta in Ezeelogin GUI with priority set as mentioned below.

# Groups

[Help](#)

All Rules

<input type="text" value="Search by group name"/>			<input type="button" value="Q"/>	<input type="button" value="Add group"/>
Advanced search ▾				
Group source type		<input type="text" value="All"/>	Showing 3	
Group name		People	Applications	
ezgroup	No description	2	1	
Everyone	All users in your organization	9	0	
Okta Administrators	Okta manages this group, which contains all administrators in your organization.

Ezeelogin					Welcome, Administrator Logout	
User Groups <input type="text" value="ez"/>					All	
Rows Auto						
<input type="checkbox"/>	Name ↓	Description	Priority	Force 2FA	Actions	
<input type="checkbox"/>	ezgroup	oktausergroup	2	X		
1 - 1 / 1						

**Step 2:** In Okta, Under Application > Application > Click on General > Edit Saml Settings > Add the Group attribute. Mention the name of the group and user group. > Click Next and Finish.

Okta logo and search bar at the top. Left sidebar with menu items: Dashboard, Directory, People, Groups, Devices, Profile Editor, Directory Integrations, Profile Sources, Customizations, Applications (highlighted), Security, Workflow, Reports, Settings. Main content area: Search for people, apps and groups. Filter: lastName, Unspecified, user.lastName. Add Another button. Group Attribute Statements (optional) table: Name (group), Name format (Unspecified), Filter (Starts with, ezgroup). Add Another button. Preview the SAML assertion section: Preview the SAML Assertion button. This shows you the XML that will be used in the assertion - use it to verify the info you entered above. Previous, Cancel, Next (highlighted) buttons. Footer: © 2023 Okta, Inc. Privacy Status site OK14 US Cell Version 2023.12.0 E Download Okta Plugin Feedback

**Step 3:** In Ezeelogin web GUI. Navigate to settings > SAML > Add the group name attribute that was created in Okta and save it.

Settings menu (highlighted) with sub-items: General, Branding, Control Panels, Data Centers, API, LDAP, SAML (highlighted), FIDO2, RADIUS, SIEM, Server Fields. Cluster, Command Guard, Account, Help, License. Main content area: New Signing Certificate, New Encryption Certificate, Username Attribute Name (firstName), Group Attribute Name (group), Firstname Attribute Name, Lastname Attribute Name (lastName). Cancel, Fetch, Save (highlighted) buttons.

**Step 4:** Relogin to Ezeelogin GUI with Okta user credentials.

Okta logo. Sign In heading. Username field (blacked out). Keep me signed in checkbox. Next button (highlighted). Help link. Footer: Powered by Okta, Privacy Policy.
