Can't connect to local MySQL server through socket /tmp/mysql.sock

69 admin March 13, 2018 [Common Errors & Troubleshooting](#) 8765

Failed to connect to database: Error: Can't connect to local MySQL server through socket '/tmp/mysql.sock' (2). . An error occurred. Please contact administrator..

[Can't connect to local MySQL server through socket '3306 ' in ezsh.log](#)

Edit the file "**/usr/local/etc/ezlogin/ez.conf**" and correct the variable

Usually it would be **/var/lib/mysql/mysql.sock** but varies from server to server.

The command above would show the path to the mysql socket file that is current in use, else you would need to setup them in the mysql configuration file usually found in **/etc/my.cnf.**

You would need to make sure that the mysql sock does exist in the path specified in **/usr/local/etc/ezlogin/ez.conf**
