

Add OpenPanel as Control panel

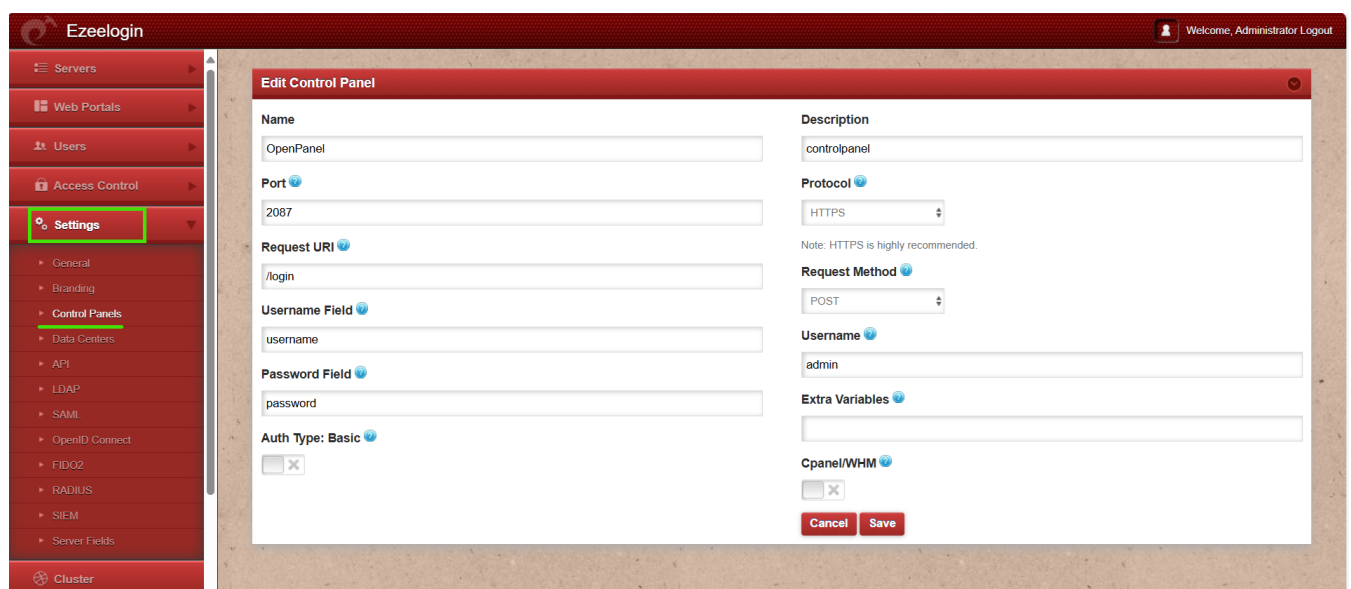

722 Lekshmi April 29, 2025 [Features & Functionalities](#) 1193

How to add OpenPanel as Control panel

Overview: This article explains how to integrate OpenPanel as a control panel with Ezeelogin, covering the steps for configuration in the Ezeelogin GUI and instructions on accessing the control panel afterward.

This feature is available only from Ezeelogin version 7.37.11. To avail this, [upgrade](#) Ezeelogin to this version.

Step 1: To add the control panel, Loginto Ezeelogin GUI interface and navigate to Settings > Control Panels and make sure to fill the form as follows. Refer to the below screenshot.

The screenshot shows the Ezeelogin GUI with the 'Settings' menu highlighted. The 'Edit Control Panel' form is displayed with the following fields and values:

Field	Value
Name	OpenPanel
Description	controlpanel
Port	2087
Protocol	HTTPS
Request URI	/login
Username Field	username
Password Field	password
Auth Type	Basic
Cpanel/WHM	Disabled
Extra Variables	

Make sure to disable the cPanel/WHM option while adding OpenPanel.

Step 2: Navigate to **Servers** tab and choose the added control Panel from the drop down menu. **Note that**

Ezeelogin Welcome, Administrator Logout
