Setting shell logout for gateway users globally

How to enable shell logout for gateway users in Ezeelogin globally?

Overview: This article guides admin users on how to globally enable **web logout shell** for gateway users, ensuring that when a gateway user logs out from the Ezeelogin GUI, they are simultaneously logged out from the backend (ezsh) as well.
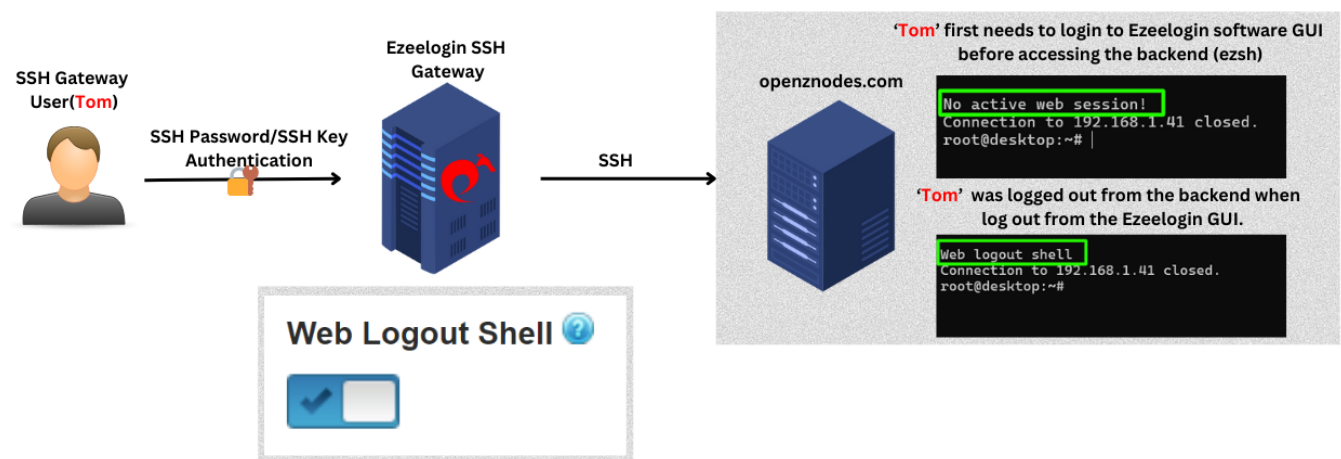

Step 1: To enable **web logout shell,** login to ezeelogin software GUI and navigate to **Settings** -> **General** -> **Security** -> **Web Logout Shell**
Step 2: On enabling web logout shell all gateway users will be logged out from the backend when the user log out from the Ezeelogin GUI.
Step 3: When web logout shell is enabled, gateway users must first log in to the Ezeelogin software GUI before they can access the backend (ezsh).
