

Adding CPANEL as ControlPanel

740 Rakhi May 2, 2025 [Features & Functionalities](#) 846

How to add CPANEL as control panel

Overview: This article outlines the steps to integrate CPANEL with Ezeelogin software as ControlPanel.

Step 1: Create a [CPANEL account](#).

Step 2. After setting Cpanel. Login to Ezeelogin GUI -> **Settings -> Control Panel**. You can use the screenshot below as an example to configure CPANEL.

The screenshot shows the 'Add Control Panel' form in the Ezeelogin GUI. The left sidebar has 'Settings' and 'Control Panels' highlighted. The form fields are as follows:

Field	Value
Name	CPANEL
Port	2086
Request URI	/login/
Username Field	user
Password Field	pass
Auth Type: Basic	<input type="checkbox"/>
Description	CPANEL- Web Host Manager
Protocol	HTTPS
Request Method	POST
Username	root
Extra Variables	
CPANEL/WHM	<input type="checkbox"/>

Buttons: Cancel, Save

Refer to the screenshot below to add CPANEL/WHM without SSL as ControlPanel.

The screenshot shows the 'Add Control Panel' form in the Ezeelogin GUI, similar to the first one but with 'HTTP' selected for the Protocol. The left sidebar has 'Settings' and 'Control Panels' highlighted. The form fields are as follows:

Field	Value
Name	CPANEL unsafe
Port	2086
Request URI	/login/
Username Field	user
Password Field	pass
Auth Type: Basic	<input type="checkbox"/>
Description	CPANEL- Web Host Manager
Protocol	HTTP
Request Method	POST
Username	root
Extra Variables	
CPANEL/WHM	<input type="checkbox"/>

Buttons: Cancel, Save

Step 3: After Adding the ControlPanel accordingly, Go to the Servers tab and select the control panel CPanel. that you have added as shown below:

Go to the Servers tab and add the CPanel installed server as shown below:

The screenshot shows the Ezeelogin interface with the 'Servers' tab selected. The 'Edit Server' form is open, and the 'Control Panel' dropdown menu is highlighted with a green box, showing 'CPanel' as the selected option. The 'Save' button is also highlighted with a green box.

Make sure to select the control panel as CPanel from the drop-down menu.

Step 4. Also ensure that you have provided Control Panel User, Control Panel Password, and Control Panel Host under the Advanced section of Server Edit. You can refer to the screenshot below as an example:

The screenshot shows the Ezeelogin interface with the 'Advanced' tab selected. The 'Control Panel User', 'Control Panel Host', and 'Control Panel Password' fields are highlighted with green boxes. The 'Control Panel Password' field is also highlighted with a green box.

Step 5. Refer to this article to [grant access](#) to users to have access to ControlPanel.

Click on the control panel icon to access CPanel that you have added.
