

# Adding Plesk as Control Panel

741 Rakhi May 3, 2025 [Features & Functionalities](#) 1012

## How to add Plesk as control panel

**Overview:** This article outlines the steps to integrate Plesk with Ezeelogin software as ControlPanel.

**Step 1:** Create a [Plesk account](#).

**Step 2:** After setting Plesk. Login to Ezeelogin GUI -> Settings -> Control Panel. You can use the screenshot below as an example to configure Plesk.

You can find the extra variables under the Inspect element of the Plesk website> Network > under userlogin > payload section > Form Data.

**Step 3:** After Adding the ControlPanel accordingly, Go to the Servers tab and select the control panel Plesk. that you have added as shown below:

Go to the Servers tab and add the Plesk installed server as shown below:

**Ezeelogin** Welcome, Administrator Logout

**Servers** **Edit Server**

Server Groups  
Super Groups  
Sub SSH Users  
Sub SSH User Maps  
mExec lists  
Import  
Global Key  
Key Management

Web Portals  
Users  
Access Control  
Settings  
Cluster  
Command Guard  
Account  
Help  
License

Hostname: ubcpanel arv

Remote SSH / RDP Login User: admin

SSH Private Key

SSH Port: 22

Password Management: keep server password

RDP Port: 3389

Windows Domain

**Control Panel**: Plesk

Description

IP Address(es): 192.168.0.122

SSH / RDP Password

SSH Key Passphrase

SSH: enabled

Server Group: CollectiveTech

RDP

Datacenter

First Prompt

Saved SSH Private Key

Cancel Save

Make sure to select the control panel as Plesk from the drop-down menu.

**Step 4.** Also ensure that you have provided Control Panel User, Control Panel Password, and Control Panel Host under the Advanced section of Server Edit. You can refer to the screenshot below as an example:

**Ezeelogin** Welcome, Administrator Logout

**Servers** **Advanced**

Server Groups  
Super Groups  
Sub SSH Users  
Sub SSH User Maps  
mExec lists  
Import  
Global Key  
Key Management

Web Portals

Control Panel User: admin

Control Panel Host: 192.168.0.122

Switch User Password

Privilege Escalation: None

Control Panel Password

Switch User

Password Prompt: sword

Root Prompt

**Step 5.** Refer to this article to [grant access](#) to users to have access to ControlPanel.

Click on the control panel icon to access Plesk that you have added.
