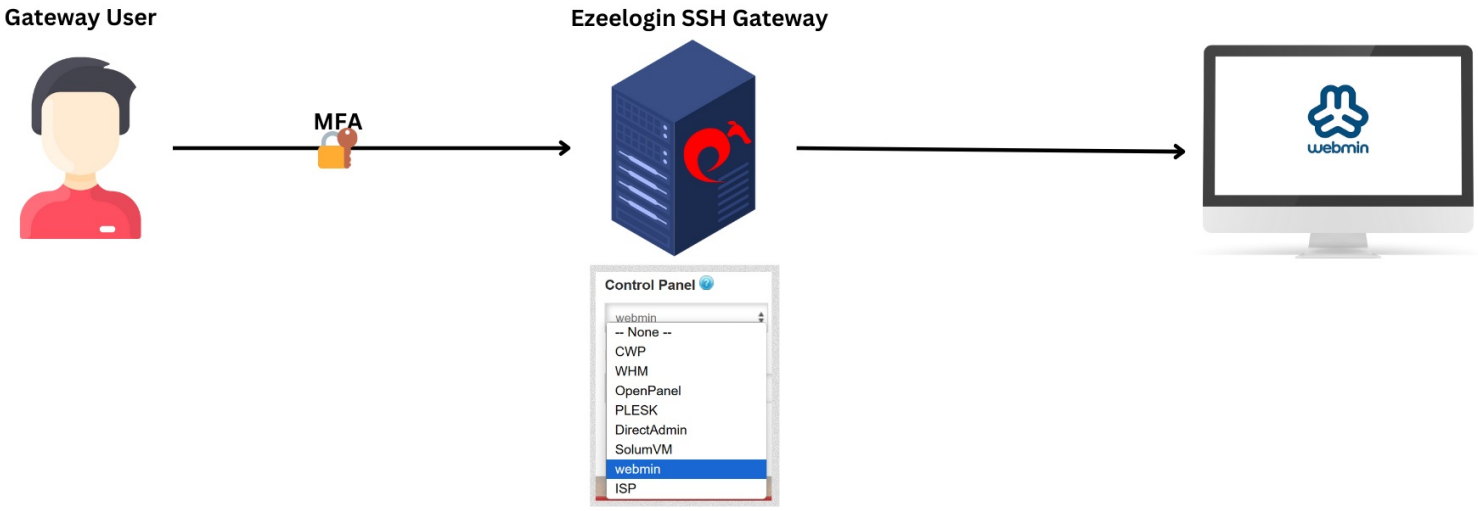
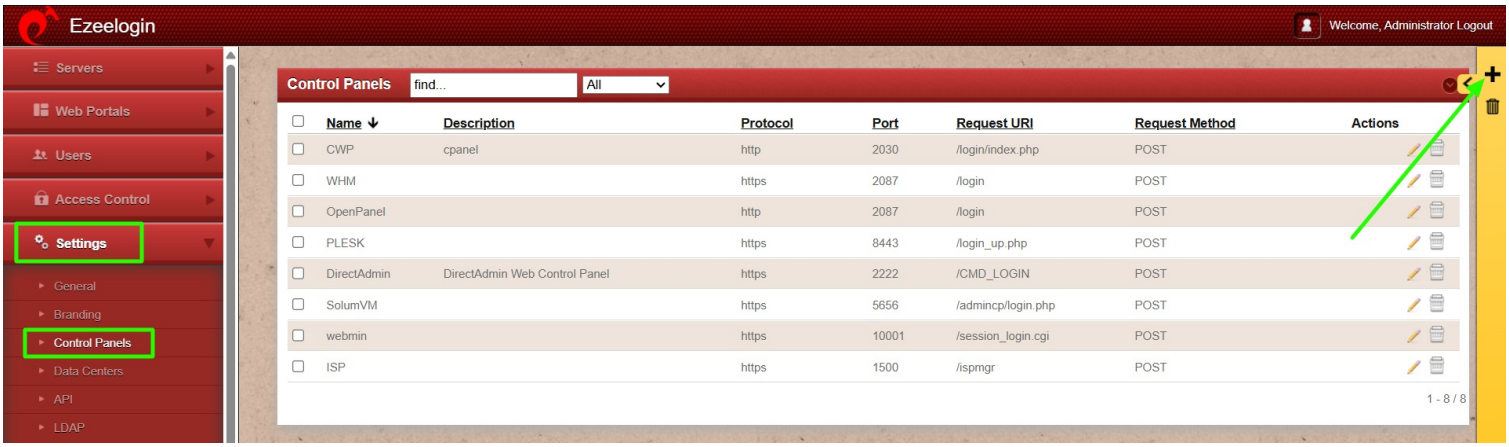
How to add Webmin as control panel?

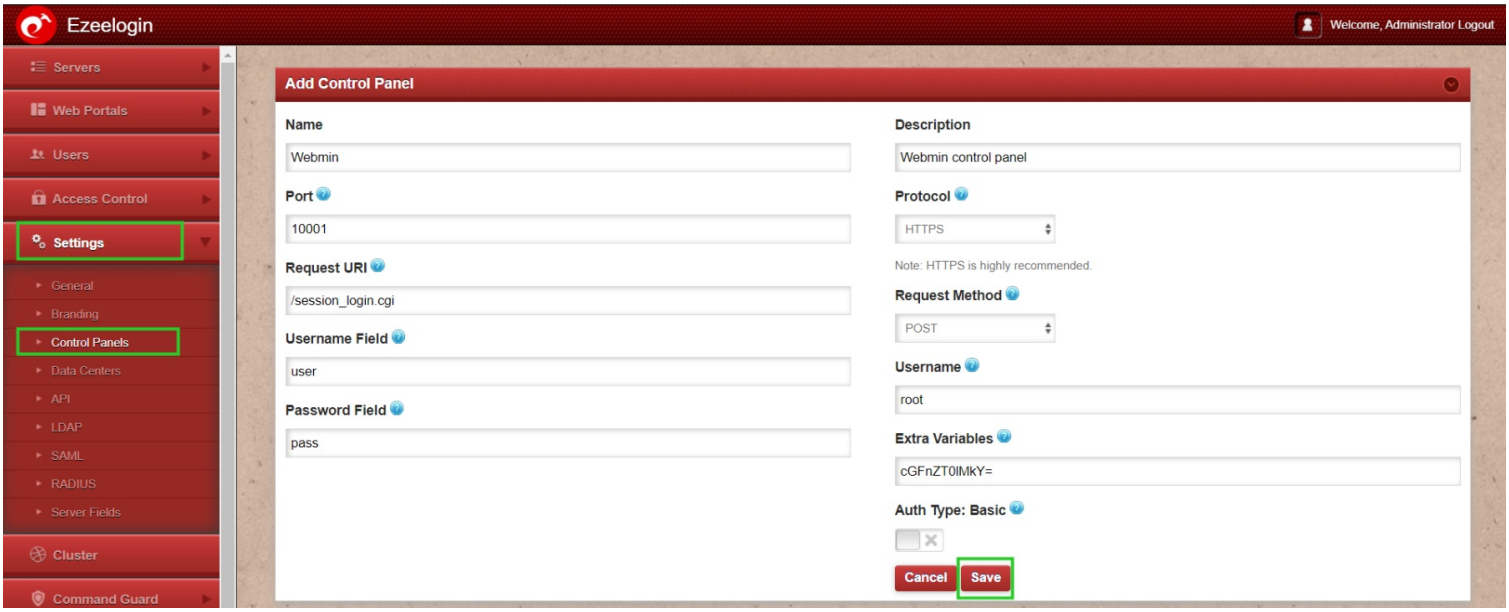
Overview: This article explains how to set up webmin as a control panel in Ezeelogin, including steps to configure it in the web GUI and how to access it afterward.



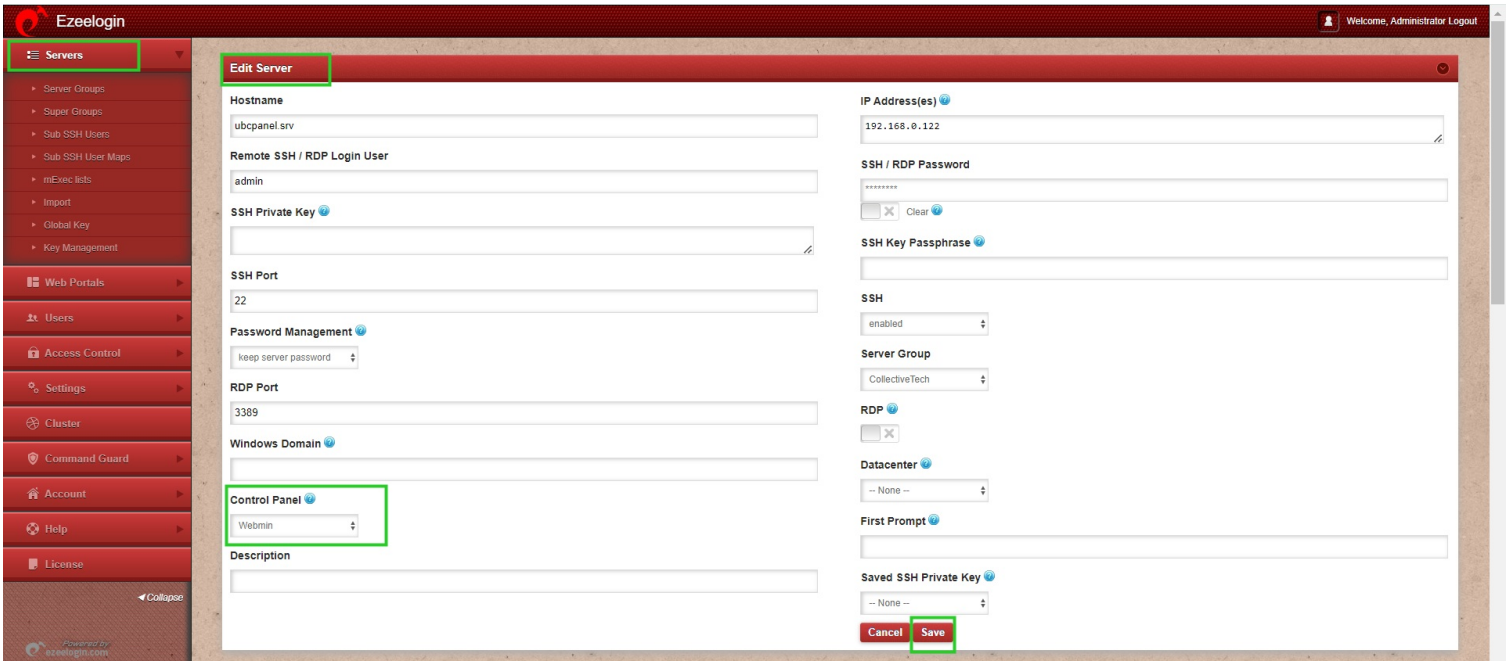
Step 1: Setup Webmin.

Step 2: After setting up webmin, login to web GUI and navigate to **Settings** -> **Control Panel** -> **Add webmin**. Refer below screenshots as an example to configure webmin.

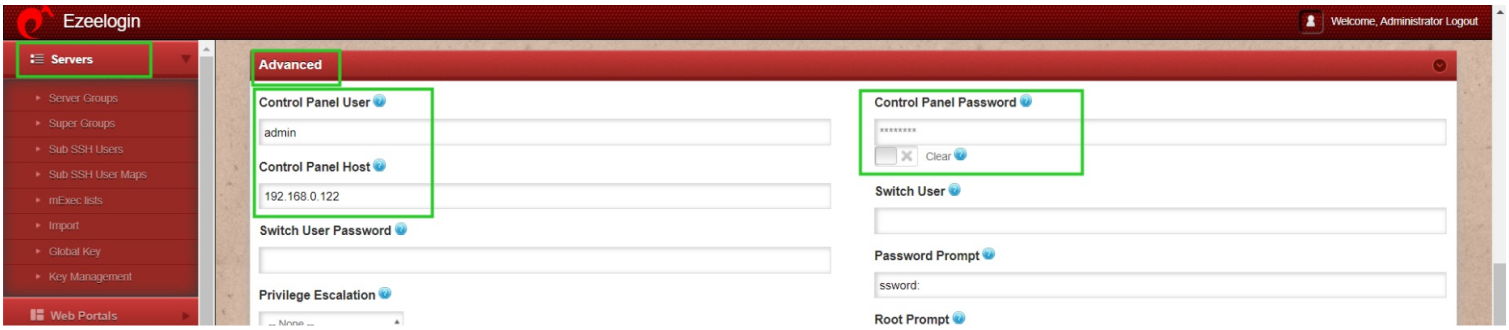




Step 3: After Adding the ControlPanel accordingly, navigate to servers tab and select the control panel wemin from the drop down as shown below:



Step 4: If the control panel is installed on another/seperate server, make sure to provide the control panel details under advanced section. Mention **Control Panel user**, **Control Panel password**, and **Control Panel Host** details. Then click on "**Save**." Refer to the screenshot below as an example:



Step 5: Grant access to the Control Panel for non-privileged users.

Step 6: Click on the control panel icon to access webmin.
