

# Adding Webmin as control panel

744 Rakhi May 8, 2025 [Features & Functionalities](#) 738

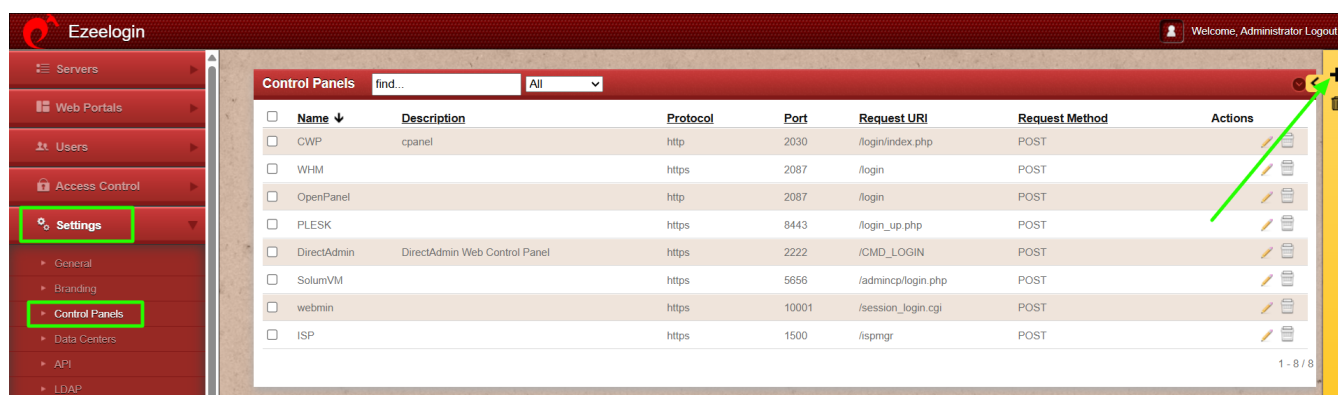

## How to add Webmin as control panel?

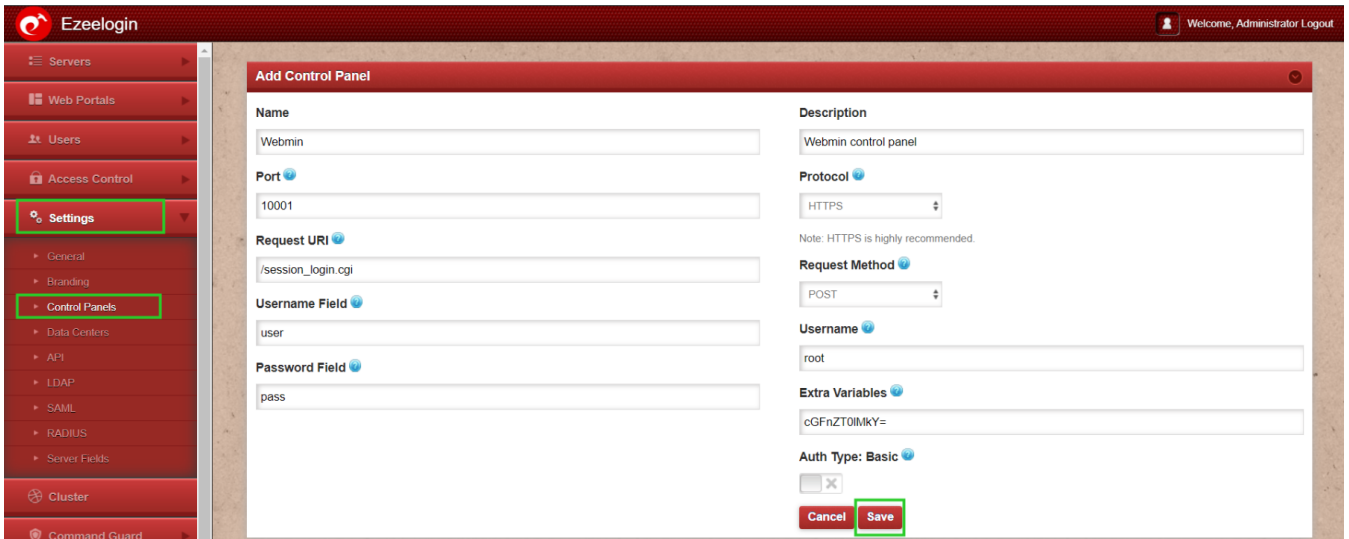

**Overview:** This article explains how to set up webmin as a control panel in Ezeelogin, including steps to configure it in the web GUI and how to access it afterward.

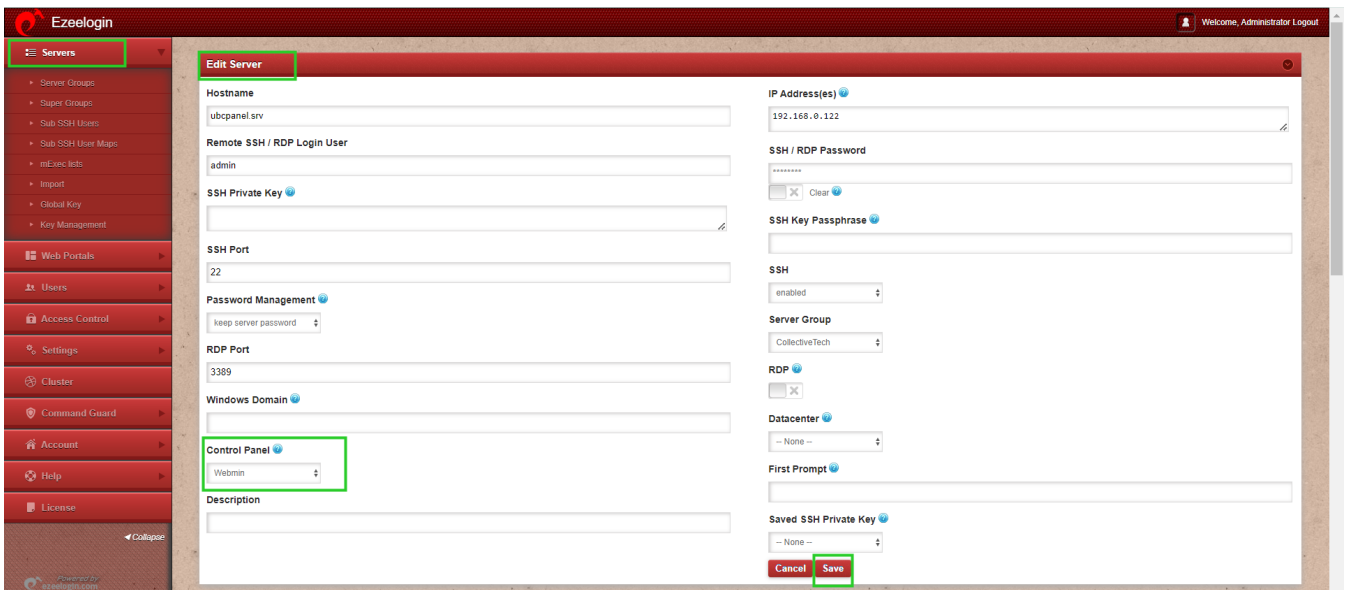

**Step 1:** Setup [Webmin](#).

**Step 2:** After setting up webmin, login to web GUI and navigate to **Settings -> Control Panel -> Add webmin**. Refer below screenshots as an example to configure webmin.

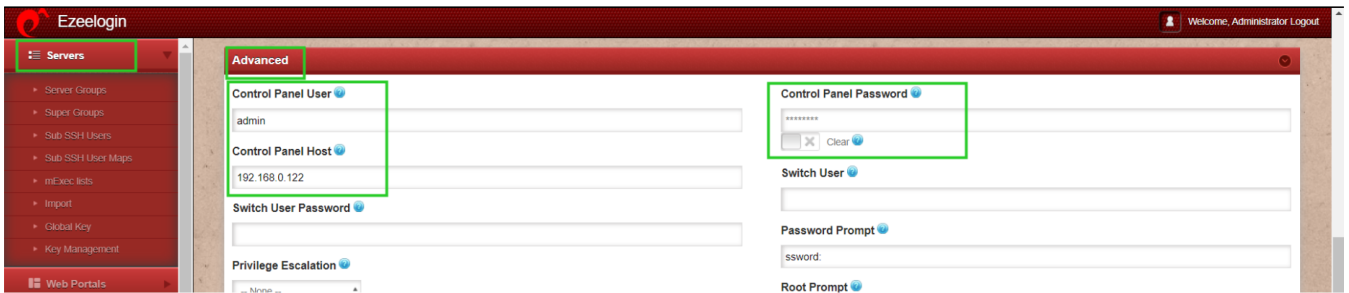

**Step 3:** After Adding the ControlPanel accordingly, navigate to servers tab and select the control panel weimin from the drop down as shown below:

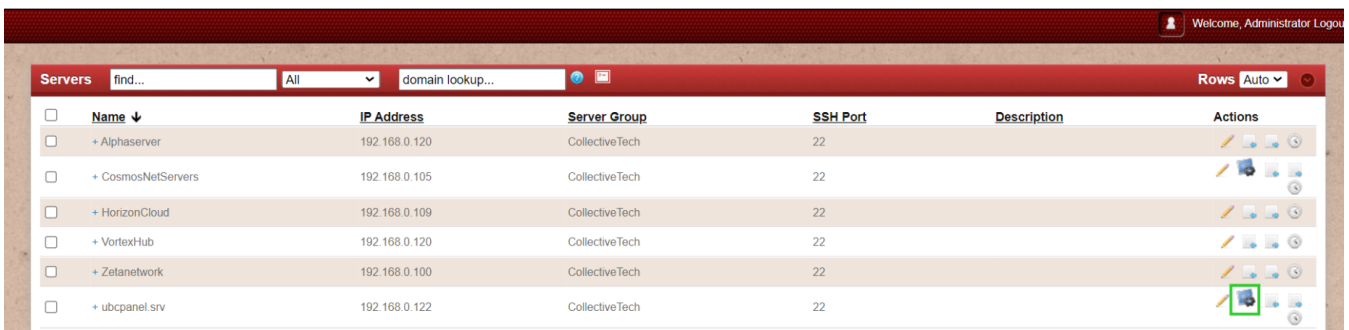

**Step 4:** If the control panel is installed on another/seperate server, make sure to provide the control panel details under advanced section. Mention **Control Panel user**, **Control Panel password**, and **Control Panel Host** details. Then click on "Save." Refer to the screenshot below as an example:

**Step 5:** [Grant access](#) to the Control Panel for non-privileged users.

**Step 6:** Click on the control panel icon to access webmin.
