Plesk Windows Session Not Found

751 Rakhi May 7, 2025 Common Errors & Troubleshooting 2701

How to resolve the error: Plesk Windows Session Not Found?

Overview: This article helps in resolving the "**Session not found**" encountered while logging into the Plesk control panel from Web GUI.

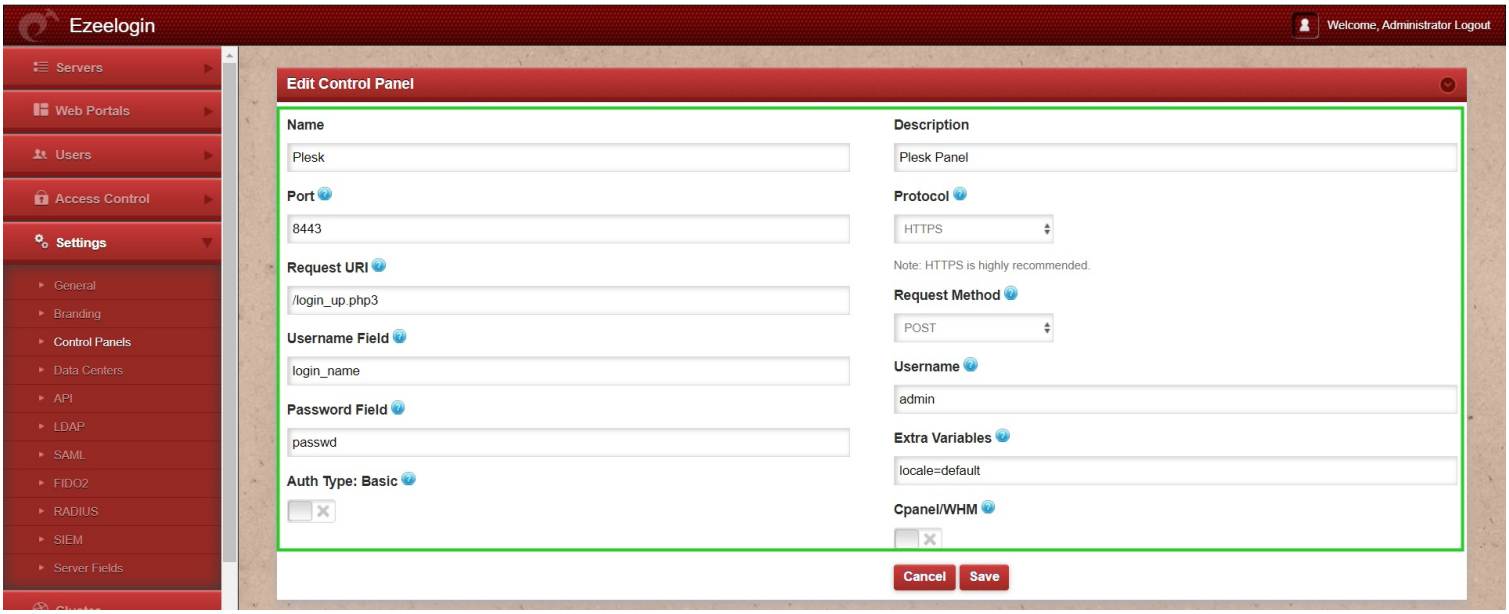

Step 1: Check for the latest messages in the **error log file**. Run the following command on the gateway server to see the application log errors.

```
root@gateway:~# (cd $(awk '/^system_folder/ {print $2}' /usr/local/etc/ezlogin/ez.conf)/application/logs/ && tail -f $(ls -t log-*.php | head -n 1))
```

Example: Error - 2024-10-23 07:16:07 --> cplogin error: Session not found

Step 2: Confirm with the correct settings in the added Plesk ControlPanel.

Step 3: Later, clear the full browser cache, or try using an incognito window, or switch to a different browser and try again.
