

# License cache outdated

762 Manu Chacko May 30, 2025 [Common Errors & Troubleshooting](#) 700

## How to resolve the error: License parsed failed ?

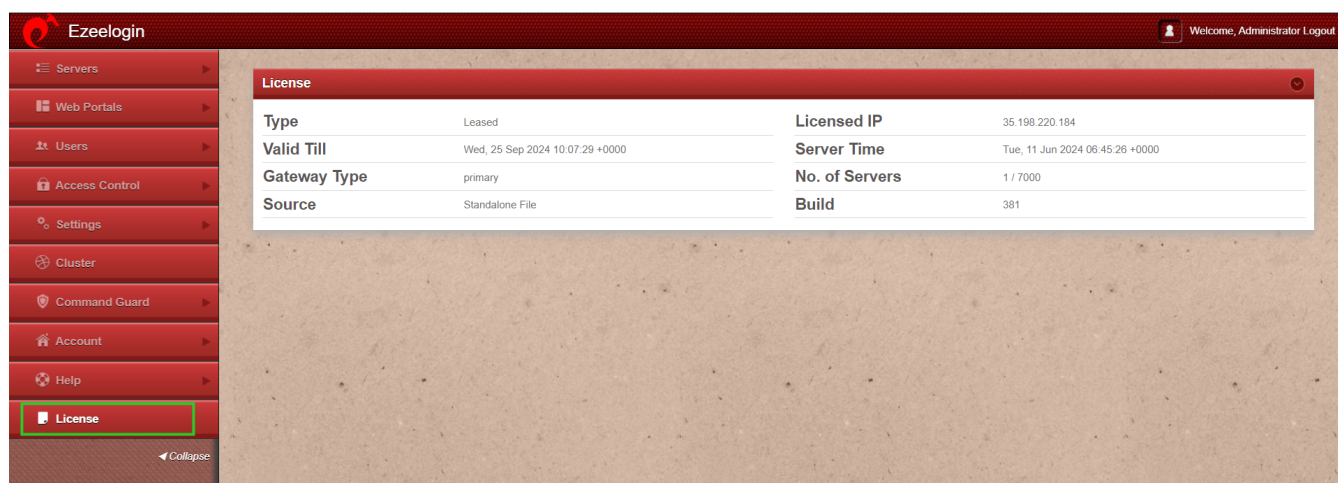

**Overview:** This article will help users fix the license issue in the Ezeelogin shell where the error "**License cache outdated: License parsed failed**" and "**License cache get failed**" are displayed.

```
*** System restart required ***
Last login: Mon Feb  3 11:44:50 2025 from
License cache outdated.
License parse failed

[root@gateway 20250530-15:35:53]$ ezsh -v
License cache get failed
```

This issue occurs when the license cache is outdated.

**Step 1:** To resolve the issue, login to web GUI and click on the license tab to update the license. Refer to the screenshot below.

**Step 2:** Ensure that the license information in the License tab is up to date, and then log in to the Ezeelogin shell.
