

Integrate OpenLDAP / Windows Active Directory authentication in Ezeelogin jump server

91 admin August 17, 2023 [Tweaks & Configuration](#) 35055

Integration of OpenLdap / Activedirectory (with autcreate feature) [Frontend]

You can configure LDAP/AD with autcreate feature. You can use this if you are using LDAP authentication and do not plan to use backend configuration(pam_ldap) for authentication. This would create a system user when a user logs in to the web. Check out the following article for configuring LDAP/AD with autcreate feature.

Integrate Azure AD in the Ezeelogin jump server

[Refer to this article Integrate Azure AD in Ezeelogin jump server](#)

Integration of Open LDAP / Active Directory (AD) with pam LDAP [Backend]

You can configure Open LDAP / Active Directory (AD) with pam_ldap (backend). You need to configure the backend with pam_ldap here.

Ubuntu
